

SV 7

Cleaner much faster.

Steam cleaning and vacuuming in one step.

Easy, convenient and time-saving. Steam cleaning without chemicals.

Kärcher steam vacuum cleaners combine the advantages of steam cleaners and the power of dry vacuum cleaners. These machines vacuum, e.g. crumbs from floors, damp wipe and dry floors. And they can do it all in one simple process. This impressive all-rounder with matching accessories takes care of all your cleaning quickly, easily and conveniently – without chemicals.

1 Twice as effective

Steam dispensing and vacuuming in a single step: the Kärcher steam cleaner makes it possible. Vacuumed liquid and dirt particles are retained in a water filter and can subsequently be emptied.

2 Great news for allergy sufferers

Vacuuming with a multi-stage filtration system but without the need for a bag. Dust is retained in the water filter. Even microscopic particles are removed. The exhaust air is cleaner than the room air.

3 Hygienically clean

It's not enough for bathrooms and toilets just to look clean. The SV 7 steam vacuum cleaner uses hot steam for sparkling cleanliness and hygiene.

Constant steam: the SV 7 with 2-tank system.

Cleaning with steam has never been so easy – the SV 7 does not need to cool down to refill the tank. When the water level in the tank is low, it is automatically refilled from the water reservoir in the boiler.

1 Full steam ahead

Hot steam dislodges dirt and neutralises unpleasant odours. Dissolved dirt and steam are immediately vacuumed away after cleaning.

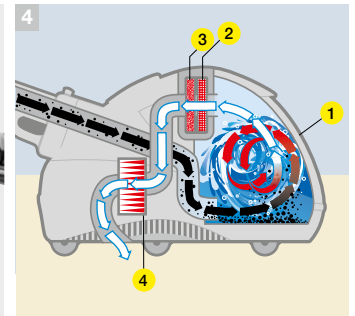

2 Convenient operation

All cleaning functions are easy to control with the gun. 4 suction power settings can be selected at the push of a button. Child lock for steam function. 5 steam volume settings on the machine.

3 Easy to remove filter

The water filter has a handle for easy removal for filling and cleaning.

4 Multi-stage filter system

- 1 Water filter
- 2 Coarse dirt filter
- 3 Foam filter
- 4 HEPA filter*

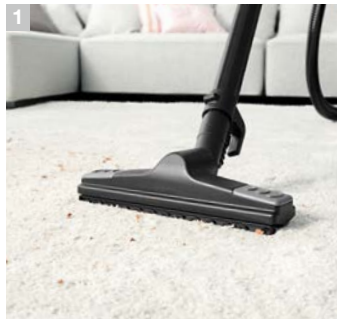

5 Dosing bottle

Funnel-shaped opening and practical dosing bottle for easy and precise filling.

Standard accessories. Extremely versatile – the SV 7.

1 Floor nozzle

Vacuuming, steam cleaning and drying – all with one nozzle. The wide floor nozzle is ideal for quickly cleaning large areas such as tiled, natural stone or PVC floors – for sparkling clean results.

1 Extension tubes

Two extension tubes make handling all types of cleaning as easy as possible, e.g. when using the floor nozzle or for windows that are difficult to reach.

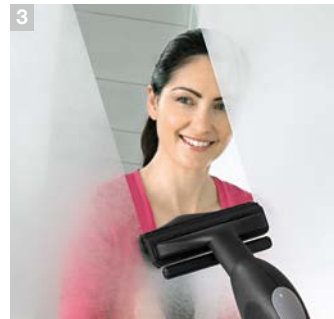

2 Squeegee blades for floor nozzle

3 different inserts for hard floors and carpets convert the floor nozzle to a versatile tool.

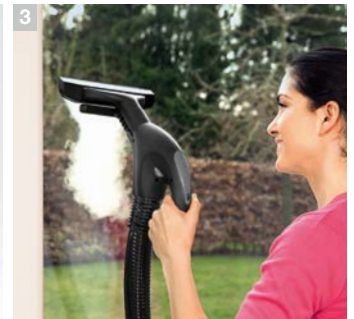

3 Steam vacuum hand nozzle

In combination with one accessory, e.g. squeegee blade or brush crown attachment and terry cloth, the hand nozzle can be used for different areas of application.

3 Squeegee blade

In two different widths, the squeegee is perfect for streak-free cleanliness on, e.g. glass, mirrors and all tiled surfaces in bathrooms and kitchens.

4 Brush crown attachment

In combination with the brush crown attachment and a terry cloth, the hand nozzle removes even the most stubborn dirt hygienically.

5 Round brush/extension piece

For thorough cleaning, e.g. joints in kitchens and bathrooms, the round brush can be attached to the detail nozzle with or without extension piece. The brush set in four colours helps to maintain hygiene when completing different kinds of cleaning tasks.

Standard accessories.

1 Steam vacuum detail nozzle

The detail nozzle effortlessly removes stains or can be used with various attachments as a versatile tool.

3 Upholstery nozzle

This hand nozzle is ideal for upholstery, mattresses, etc.

2 Crevice nozzle

Crevice nozzle for cleaning in difficult to reach areas.

FoamStop

Prevents dirty water from foaming in the water filter.

Cleaning brush

For cleaning nozzles, extension tubes and water filter.

Furniture brush

Ideal for cleaning furniture without scratches or residue.

Dosing bottle

For easy and precise tank filling.

Accessory bag

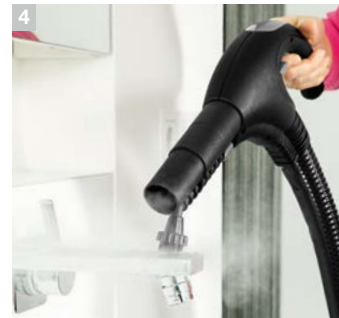

For practical accessory storage.

Special accessories

4 Round brush set

Thanks to the four-coloured brush set you can maintain hygiene when completing different kinds of cleaning tasks around the home.
Order No. 2.860-231.0

5 Terry cloth covers

5 high-quality cotton covers. Lint-free, absorbent and hard-wearing.
Order No. 6.370-990.0

HEPA filter*

Retains pollen, spores, bacteria and mite faeces.

Order No. 2.860-229.0

Instructions

| | What do I want to clean? | With what? | Remarks |
|----------|--------------------------|--|---|
| B | Blinds | Steam vacuum detail nozzle with round brush attachment as required | Check temperature resistance of material, wipe with a cloth. |
| | Carpets | Floor nozzle with steam vacuum function and hard rubber inserts | To refreshen. |
| C | Chrome | Steam vacuum detail nozzle with round brush attachment | Polish with a cloth. |
| | Curtains | Steam vacuum detail nozzle without attachment | Apply steam from top to bottom. |
| D | Doors | Steam vacuum hand nozzle with brush crown attachment and terry cloth | Wipe with a damp cloth. |
| | Drain | Steam vacuum detail nozzle without attachment | With cloth to protect against splashing. |
| | Fittings | Steam vacuum detail nozzle with round brush attachment | Treat limescale with vinegar and allow to work for 5 minutes. |
| F | Floor tiles | Floor nozzle with steam vacuum function and squeegees | Remove detergent residue first. Work from back to front. |
| | Furniture | Furniture brush | To clean furniture without scratches or residues. |
| G | Glass, mirrors | Steam vacuum hand nozzle with large or small squeegee | Remove detergent residue first. |
| H | Hard floors | Floor nozzle with steam vacuum function and squeegees | Clean to remove all detergent residue. Work from back to front. |
| I | Imitation leather | Steam vacuum hand nozzle with brush crown attachment and terry cloth | Allow to dry before second clean. |
| J | Joints | Steam vacuum detail nozzle with round brush attachment | Work slowly. |
| L | Linoleum | Floor nozzle with steam vacuum function and squeegees | Work from back to front. Apply care agent regularly. |
| | Painted surfaces | Steam vacuum hand nozzle with large and small squeegee | Only treat surfaces briefly. |
| P | Plants | Steam vacuum detail nozzle without attachment | Treat with steam from a distance of about 20–30 cm. |
| | Plastic | Can be cleaned using all accessories | Adjust steam volume depending on contamination. |
| R | Radiators | Extend steam vacuum detail nozzle with round brush as required | Wipe with a cloth. |
| S | Shoes | Steam vacuum detail nozzle without attachment | Treat with steam from a distance of about 10 cm, wipe with a cloth. |
| | Shower cubicle | Steam vacuum hand nozzle with large or small squeegee | Check material for temperature resistance. |
| W | Wall tiles | Steam vacuum hand nozzle with large squeegee | Remove detergent residue first. Work slowly. |
| | Windows | Steam vacuum hand nozzle with large or small squeegee | Treat first with steam to avoid temperature stress. |
| | Work top, plastic | Steam vacuum hand nozzle with large or small squeegee | Do not direct steam at glued edges. |
| | Work top, wood | Cloth | Wet cloth and wipe. |
