ECO! T11 Bp Liner CartVac

NEW

Daytime cleaning redesigned.

The Kärcher ECO! T11 Bp Liner CartVac is a professional mobile cleaning solution designed with an integrated vacuum. The clean design of the Kärcher CartVac allows for organized storage of cleaning supplies, providing a more professional appearance than today's janitorial carts.

3 YEAR
GLOBAL WARRANTY

Designed and engineered by Kärcher North America

1 Rugged construction

- The body of the ECO! T11 CartVac is backed by a 10-year warranty for years of use.
- The front shelf may be used for other cleaning equipment other than the trash can, providing versatility to tackle a variety of cleaning tasks.

2 Easy to operate

- Large, well placed handles make maneuvering the Kärcher ECO! T11 Bp Liner CartVac easy.
- Simple one-touch power switch.
- Coiled, retractable power cord is easy to manage and discretely stored.

3 Quiet operation

- Despite the strong vacuum motor, the 58 dBA noise level is ideal for daytime cleaning. Operating noise level is measured at ear level, using the wand / floor tool. While the sound level at the machine body is actually only 53 dBA. These measurements are done per ISO test standards.
- The large 12" rear wheels allow for easier maneuverability and less noise especially when transported over thresholds and flooring imperfections.

4 Configured for productivity

- Convenience of 4:1 flex hose with aluminum telescoping wand for increased range of motion and productivity.
- The Home Base supply pouch and mop/broom clips keep everything you need discretely within reach.
- The industry-leading 100-minute continuous battery run time and 10-quart vacuum bag capacity allows for extended cleaning time.

Technical data and equipment.
