

# **PressurePro Phosphating Agent RM 48**

For degreasing and phosphating in a single operation. Provides temporary protection against corrosion and produces a good base for paints. When processed, it leaves bluish-yellow iron phosphate layers.

#### Properties

- Effective degreasing and phosphating agent
- Leaves bluish-yellow iron phosphate layers
- Reliably protects against corrosion for several days
- Offers a good paint adhesion base
- Easy to store and handle
- pH value in concentrate approx. 2
- Clear, colourless liquid
- Tensides biodegradable in accordance with OECD
- Quick oil and water separation in the oil separator (easily separable = asf)
- NTA free
- VOC-free
- Application
- High-pressure washers
- Parts cleaners

## ARCHER

#### Application

#### **High-pressure washers**

- Set the dosage and temperature on the device
- 80-150°C processing temperature.
- Measure pH value. Nominal: 4.5 5. Change dosage where necessary.
- Clean object evenly and quickly from top to bottom in overlapping sections. Repeat procedure until a yellowish blue iron phosphate layer results.
- . Rinse surface with high-pressure cleaner and clear, hot water.

#### Parts cleaners

- Blend formulation.
- Measure pH value. Nominal: 4.5 5. Change dosage where necessary. Pour the product into the parts cleaner in the appropriate dosage.
- Set processing temperature, 80°C.
- Regulate iron phosphate layer through reaction time. Rinse surface with high-pressure cleaner and clear, hot water. .

#### Directions for use

- Ensure quick drying after treatment and for dry storage.
- Observe the local wastewater discharge regulations.
- Store away from frost.

#### Warnings and safety recommendations according to EC Directives

- H290 May be corrosive to metals
- H319 Causes serious eye irritation
- P234 Keep only in original packaging.
- P280i Wear eye/face protection.
- P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P337 + P313 If eye irritation persists: Get medical advice/attention. P406 Store in a corrosion resistant container / container with a resistant inner
- liner.
