

IVS 100/55 Lp

The IVS 100/55 Lp is a very robust industrial vacuum. It is a partially mobile vacuum cleaner which finds versatile use in many target groups. It is driven by an extremely long-lasting side channel blower. Due to the type of motor, this machine is often used continuously. The vacuum cleaner is driven by 400 V at 50 Hz. Depending on the use, the container (dry) (part no. 6.394-527.0) or container (wet) (part no. 6.394-529.0) must be ordered separately.

1 Optional remote control

- Convenient, time-saving operation of the machine in a single forward movement.
- Optimal space utilisation: the vacuum cleaner can be stored in unused or safety areas.

2 Power-saving soft start

- Low starting current prevents power supply voltage dips.
- Low energy peaks ensure lower energy costs.

3 User-friendly machine handling

- Hose hook and accessory storage ensure fast tool access and tidy storage.
- Integrated cable hook for secure cable storage.

4 User-friendly set-down mechanism

- Easy and time-saving container removal directly on the handle.
- The practical container handle serves as an aid for pulling and pushing the machine to the emptying point.

IVS 100/55 Lp

- Longopac disposal system
- Extra large filter area
- Terminal reverse plug
