

SB VC 1

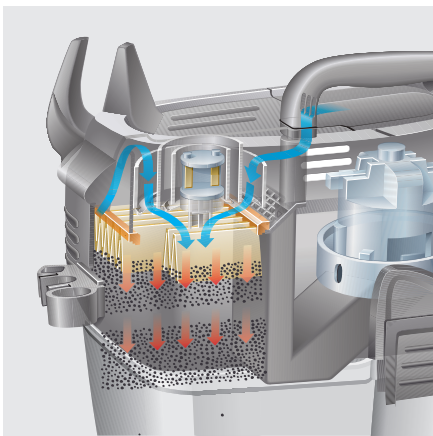

Our SB VC 1 is a powerful single-bay self-service vacuum cleaner, which knows how to convince with constantly high suction power, hose recovery with fibreglass pole and ergonomic suction nozzle.

Order no. **1.070-003.2**

Technical data

Air flow	l/s	74
Vacuum	mbar	254
Connected load	kW	1.38
Container content	l	36
Sound pressure level	dB(A)	60
Number of current phases	Ph	1
Frequency	Hz	50 / 60
Voltage	V	230

Tact automatic filter cleaning system

- Suction power remains at a consistently high level.
- Extends the life of the filter and turbine.
- Extended intervals for filter cleaning and replacement save time and reduce costs.

Hose recovery with fibreglass pole

- Effectively minimises floor contact of the hose.
- Protects the hose.
- Prevents dirt from being carried into the vehicle.

Optimised, ergonomic suction nozzle

- Excellent cleaning results, both on surfaces and edges and gaps.
- Special surface structure around the handle.
- Efficient vacuuming for high customer satisfaction.
