RCV 2, 1.269-670.0, 2026-10-30

Strong suction power with a flat casing

- With a strong suction power of 4000 Pa, it tackles most types of dirt, including peppercorns, peanuts and cake crumbs. This makes cleaning particularly efficient.
- With four different suction modes, the RCV 2 fulfils all cleaning requirements. The combined use of the main brush and side brush enables effective cleaning throughout the entire house.
- At just 8 cm high, the RCV 2 is very flat – ideal for cleaning under furniture.

Wet mopping

- For even better cleaning results, the RCV 2 can also mop. If required, the wiping unit including microfibre cloth is inserted, the fresh water tank is filled and it's ready to go.
- The RCV 2 cleaning robot can either be used for dry cleaning only, for wet mopping only, or both methods together in the combined cleaning mode.
- The 2-in-1 container unit with 420 ml dust container and 250 ml fresh water tank makes it easy to switch quickly between different applications.

Spot mode and cleaning in corners

- Spot cleaning of more heavily soiled areas and optimised cleaning along walls with fewer areas missed.
