

BV 5/1

The new backpack vacuum cleaner BV 5/1 can be carried comfortably on the back like a rucksack above all because of its low weight of just 5.3 kg. The BV 5/1 is particularly used where it is too tight for conventional vacuum cleaners: Between seat rows of cinemas and theatres, in buses, trains and airplane cabs, in stairways of hotels and offices as well as in strongly transferred areas.

1 Patented carrying frame with Air Stream Comfort system padding

- The ventilation pads reduce heat generation on the back, whilst the mesh with ventilation on 3 sides reduces perspiration by 25%.

2 Mobility

- The BV 5/1 backpack vacuum allows unrestricted use in areas where conventional vacuum cleaners cannot be used.

BV 5/1

- Clip system
- Air Stream Comfort carrying frame
- Parking position for floor nozzle
