

WRS 200

Our WRS 200 is a mobile implement for municipal machines that is used particularly for the targeted control of weeds with hot water. Compact dimensions and low weight.

1 Designed for diverse mobile deployment

- Targeted and efficient hot water weed killing: by machine with front beam or manually by hand lance.
- Professional cold and hot water high-pressure cleaning.

2 Compact design

- Lower risk of damage as the rear of the vehicle also remains visible in the mirror when cornering or on bends.
- Applications in narrow and restricted areas are also easily possible thanks to the high manoeuvrability of the machine.

3 Low vehicle centre of gravity

- Fast assembly via coupling triangle at rear of vehicle for optimal weight distribution.
- The low vehicle centre of gravity guarantees comfortable driving behaviour in traffic.

4 Very efficient applications

- Fast operational readiness of the highly efficient burner.
- With proven and efficient Kärcher burner technology for low fuel consumption.

WRS 200

Technical data

Order no.	2.200-000.0	
EAN code	4054278537061	
Pressure	bar / MPa	min. 10 - up to 200 / min. 1 - up to 20
Temperature	°C	98 / 135
Flow rate	l/min	0 - 28
Fuel type	Diesel	
Fuel tank	l	20
Diesel consumption, full load	l/h	12
	l/h	8
Weight	kg	300
Weight incl. packaging	kg	308.8
Dimensions (L x W x H)	mm	550 × 955 × 1290
