This device requires instruction.

Equipment

Traction drive	■
Drive board with centerlock	■
Dust suction	■
Battery and on-board charger included	■

■ included in delivery.

Automatic contact pressure

- No adjustment of the contact pressure.
- Constant contact pressure, even with worn pads or on uneven surfaces.

Integrated passive dust suction

- The polishing dust is collected under the pad and then automatically transported upwards into the filter bag.
- The large filter bag is easily accessible and easy to change.
- No wiping after polishing - time saving.

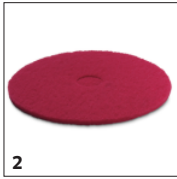

Excellent polishing results

- The high speed and the automatic contact pressure ensure a homogenous polishing result.
- The machine allows area performances of up to 2750 m²/h.
