Robust material and a design suitable for industrial purposes

- Ideal for use in the metals processing industry.
- The material thickness of 1.25 mm and mostly welded connections ensure a long service life - even with abrasive suction waste.

Pleasant operating noise

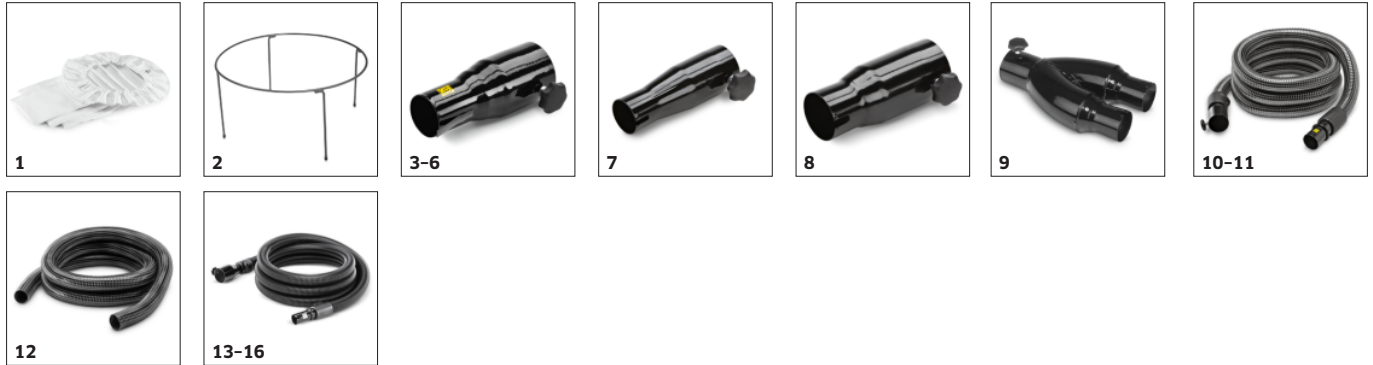

- Sound absorbers on the air outlet pipes make for a comfortable operating noise with high suction power.

Cyclone-like pre-separation system

- Protects the filter and increases its working time. This saves on costs and increases versatility.
