

The K 5.540 is built to last and can withstand the rigorous demands of frequent use. It features an innovative, patented water-cooled induction motor that delivers better performance and a longer life. The K 5.540 generates an amazing 2000 PSI, up to 40 times as much pressure as a typical garden hose. For tough jobs, attach the included DirtBlaster® spray wand to increase the effective pressure by up to 50%. For less intense cleaning, attach the Vario Power spray wand, which allows you to adjust the pressure right on the wand. Based on feedback from our customers, we equipped this top-of-the-line model with a built-in pressurized hose reel, the ultimate solution for convenient, hassle-free storage of the high pressure hose. We also included a quick connect system to reduce your startup time by up to 75% and an on-board detergent tank to make it easy to clean with detergents. Much quieter than a gasoline pressure washer and certified by CSA International for safety, the K 5.540 is perfect for demanding residential use. If you clean often, value durability and demand professional level cleaning results, check out the K 5.540 today!

K 5.540

Technical data

Order no.	1.603-350.0
