We Are Here For You

Cleaning Solutions for Over 80 Years

Since its beginning in 1935 the value-oriented family business Kärcher has developed into a worldwide brand, offering its customers three strong attributes: top performance, innovation and quality. Kärcher products have won more than 100 national and international prizes for exemplary design. In addition, more than 1,300 patents and utility models are evidence of the company's inventive spirit and passion for innovation. Today, Kärcher is the leading global provider of efficient, resource-saving cleaning systems, characterized by reliable, user-friendly products, and strong service. Kärcher opened its Indonesian subsidiary in 2014.

Sejak dibuka di tahun 1935, Kärcher yang merupakan bisnis keluarga, yang berorientasi pada nilai-nilai, telah berkembang menjadi merek internasional yang menawarkan 3 atribut penting kepada pelanggannya: kinerja terbaik, inovasi dan kualitas. Produk-produk Kärcher telah memenangkan lebih dari 100 penghargaan nasional dan internasional untuk desain produk. Di samping itu, lebih dari 1.300 paten dan model utilitas merupakan bukti semangat inventif dan inovatif kami. Saat ini, Kärcher merupakan penyedia produk pembersih global yang efisien dan hemat sumber daya, dengan karakteristik mudah digunakan dan servis yang baik. Di tahun 2014 Kärcher membuka subsidiary di Indonesia.

As for our commitment to the environment, we have been cleaning historical monuments and buildings for more than 30 years as part of our cultural sponsorship program. From Monument Nasional in Indonesia, to Mount Rushmore in United State and many others, we are happy to take on any challenge. We have made cleaning our business and at the same time, make our contribution towards preserving values for people worldwide.

Atas komitmen kami terhadap lingkungan, kami telah membersihkan berbagai monumen dan bangunan bersejarah selama lebih dari 30 tahun sebagai bagian dari program sponsor kebudayaan kami. Dari Monumen Nasional di Indonesia hingga Mount Rushmore di Amerika Serikat dan banyak lainnya, kami senang menghadapi tiap tantangan. Kebersihan telah menjadi bisnis kami dan disaat bersamaan, kami memberi kontribusi bagi pembudayaan nilai kemanusiaan secara global.

High Pressure Cleaners

Whether it is tender care or powerful cleaning, Kärcher pressure cleaners offer the perfect solution for every outdoor cleaning task around your home. The compact units are reliable allies against smaller dirts around the house and garden. Simple & convenient, the units outshine conventional cleaning that relies on a sponge, brush & bucket.

Baik perawatan yang ringan ataupun pekerjaan berat, pembersih Kärcher bertekanan tinggi memberikan hasil sempurna untuk kebersihan sekitar rumah. Unit ringkas yang dapat diandalkan untuk membersihkan rumah & taman. Mudah dan nyaman, menggantikan pekerjaan manual yang menggunakan busa, sikat & ember.

Wet & Dry Vacuum Cleaners

Whether dry or moist, coarse or fine dirt – it makes no difference to Kärcher multi-purpose vacuum cleaners. With lower power consumption and innovative new accessories & features, these versatile units ensure cleanliness without compromise. Kärcher provides the right solution for any need – both for occasional as well as intensive use.

Kering atau basah, butiran kasar atau kecil, tidak menjadi masalah bagi vakum pembersih multi fungsi buatan Kärcher. Dengan konsumsi listrik lebih rendah beserta perangkat aksesoris dan fitur inovatif yang baru, mesin pembersih serba guna ini membersihkan tanpa kompromi. Kärcher memberikan solusi terbaik untuk setiap kebutuhan sehari-hari maupun perkerjaan intensif.

Dry Vacuum Cleaners

The ERP version stands for efficient cleaning with less power. The VC 2 & VC 3 come with HEPA 12 filter (captures 99.5% of dust and particles) and compact designs, makes them easier for storage. VC 2 is equipped with easy handling dust bag system; just throw away, no touch with dirt. VC 3 is the new advanced multi-cyclone vacuum cleaner, it offers thorough cleaning without suction loss with three-level noise control system. At Only 76 - 78 dB(A), no filter bag is needed, a substantial money saving.

Versi ERP dimaksudkan untuk pembersihan efektif dengan konsumsi daya yang lebih rendah. Pengisap kotoran kering ini menggunakan penyaring HEPA 12 (menyaring 99.5% debu & partikel) dan desain yang praktis, sehingga mudah disimpan. VC 2 dilengkapi dengan sistem kantong debu yang mudah digunakan, dapat langsung dibuang tanpa bersentuhan dengan kotoran. VC 3 menggunakan teknologi advanced multi-cyclone baru, menawarkan pembersihan menyeluruh tanpa kehilangan kekuatan isap dengan 3-level sistem pengatur kebisingan. Hanya 76-78 dB(A), tanpa kantung penyaring, sangat menghemat biaya.

Vacuum Cleaner with Water Filter

The multi-stage filter system (water filter & HEPA 12) of DS 6 ensures that even microscopic dirt particles as small as 0.3 µm are extracted. This is ideal for families with young children or people with allergies. The DS 6 relies on the natural power of water being swirled around at high speed. The dirt is piped through the swirling water, reliably filtered from the air, and bound in the water. The result: exceptionally fresh, 99.9% clean exhaust air.

Sistem penyaringan berjenjang (penyaringan air dan HEPA 12) dari DS 6 menjamin bahkan partikel debu sekecil 0.3 mikrometer tersaring. Alat ini ideal untuk keluarga dengan anak-anak atau mereka yang memiliki alergi. DS 6 mengandalkan kekuatan alami air yang dilingkarkan dengan kecepatan tinggi. Kotoran disalurkan melalui air yang berputar, tersaring dari udara dan terperangkap di air. Hasilnya: udara buangan yang sangat bersih (99.9%).

Special Features

- Multi-stage filter system – for 99.9 % clean air
- HEPA 12 filter – captures 99.5% of dust & particles
- Exceptionally easy water filter cleaning
- Parking position & accessory storage on machine

Steam Cleaner

Steam cleaning is suitable for any home, whether for singles, small or large families. Microscopic steam particles penetrate even the smallest pores. In this way they dissolve stubborn dirt and prevent bacterial and microbial growth. Since cleaning with steam does not involve the use of cleaning agents, no allergenic residues can form on cleaned surfaces. Kärcher steam cleaners are extremely versatile and clean without chemicals.

Membersihkan dengan uap panas cocok dipakai di rumah, baik keluarga kecil maupun besar. Penetrasi partikel uap panasnya mencapai hingga ke pori-pori terkecil. Dengan demikian dapat menghilangkan kotoran membandel serta mencegah berkembang biaknya bakteri dan mikroba. Karena tidak menggunakan cairan kimia, pembersih uap panas ini tidak meninggalkan residu pada permukaan. Pembersih uap panas dari Kärcher sangat serbaguna dan membersihkan tanpa menggunakan bahan kimia.

Floor Cleaner

The Kärcher FC 5 is the perfect solution for fast and easy hard floor cleaning. Its innovative 2-in-1 function means there is no need for the hassle of vacuuming before wiping. The combination of wiping and vacuuming in one step means that the floor cleaner picks up damp and dry dirt at the same time. It doesn't matter whether it's on wood, stone or plastic - the FC 5 shines with exceptional cleaning results on all standard hard floors.

Kärcher FC 5 adalah solusi yang sempurna untuk pembersihan lantai yang cepat dan mudah. Fungsi 2-in-1 yang inovatif berarti tak perlu repot menyedot kotoran sebelum menyeka. Kombinasi menyeka dan menyedot sekaligus berarti bahwa pembersih lantai ini mengambil kotoran lembab maupun kering di saat bersamaan. Tak masalah apakah permukaan kayu, batu atau plastik - FC 5 unggul dengan hasil pembersihan yang istimewa pada semua lantai umumnya.
