

**KÄRCHER**

**HYGIENIC AND  
EFFICIENT.**

## PERFECT HYGIENE WITH HIGH EFFICIENCY

The successful day-to-day running of busy hospitals and clinics is inextricably linked with modern hygiene and efficiency. The vital importance of maintaining hygiene, in particular the avoidance of nosocomial infections and transmission of germs, must be ensured at all times through optimal care and cleanliness. The various areas in hospitals each require their own specific cleaning solutions – from small to large areas, from kitchens to operating theatres. In busy hospitals and clinics, efficient maintenance cleaning is crucial as there is rarely enough time for time-consuming deep cleaning. More stringent hygiene standards, increasing cost pressures and competition make things more difficult. Kärcher offers products that are ideally suited to meeting these high demands: professional, efficient cleaning systems. And individual services ranging from mobile to intensive cleaning.

# KÄRCHER - YOUR RELIABLE PARTNER

The name Kärcher is synonymous with high performance, quality and innovation worldwide and for cleaning expertise that sets standards. The Kärcher system offers convincing solutions for every requirement: perfectly matched machines, accessories and cleaning agents. They are high performance, efficient and cost-effective thanks to innovative technology, low consumption and durability. They are also pleasantly inconspicuous, stylish in their classic anthracite colour and whisper-quiet.

- 1

**Always the best cleaning agent**  
For over 30 years, Kärcher has developed its own highly efficient and eco-friendly cleaning agents and chemicals for specific cleaning tasks. Kärcher has been a supplier of high-quality systems for years and now ranks as a world leading manufacturer of cleaning machines, cleaning agents and chemicals. Kärcher has a wealth of expertise and technologies that set standards and offer tailor-made solutions from one source.
- 2

**ecoefficiency - achieve more with efficiency**  
Efficiency comes in different dimensions: Reduced energy consumption. High-performance internal-combustion engines. Lower cleaning agent consumption. Highly concentrated cleaning agents to avoid packaging. Designed for recycling or minimisation of components. Effects which can only be achieved through new ideas and innovative technologies and which, above all, require the will and ability to actually carry them out. Kärcher offers a comprehensive range of machines featuring the ecoefficiency mode as well as cleaning agents for effective, efficient and eco-friendly cleaning.
- 3

**Tank rinsing system**  
The B 40 C/W, B 60 W and B 80 W are the first and only scrubber driers with integrated tank rinsing system. After cleaning, the dirty water tank can be cleaned via an integrated nozzle system. These machines support the HACCP concept.

- 4

**Safety is a key function**  
The KIK system of the B 40 C/W, B 60 W and B 80 W offers much greater protection against operating errors. Operators cannot change the basic machine settings, which are preset or enabled by the supervisor for the cleaning job or facility concerned. The operator only needs to insert the key. The machine can only be started with the associated coded key and is thus protected against unauthorised use.
- 5

**6-stage filtration system including HEPA**  
Dry vacuums with 6-stage filtration system. 3-ply fleece filter bag, permanent main filter, motor filter and blower/HEPA filter ensures optimal dust separation with an efficiency of up to 99.997% in HEPA quality.
- 6

**An outstanding combination of form and function**  
Kärcher machines have repeatedly won awards for the successful combination of form and function, such as the "red dot design award" and the "if Product Design Award". And they are SGS approved for use in hygienesensitive areas.

PUBLIC AREAS – CLEAN AND SAFE

The constant traffic in public areas such as entrances, corridors and ward corridors leaves little time for cleaning. Decisive here is the balance between maintenance, interim and deep cleaning. For thorough cleanliness, value retention, dust suppression and safety – for all kinds of floors, hard surfaces and carpets. Kärcher puts hygiene first.

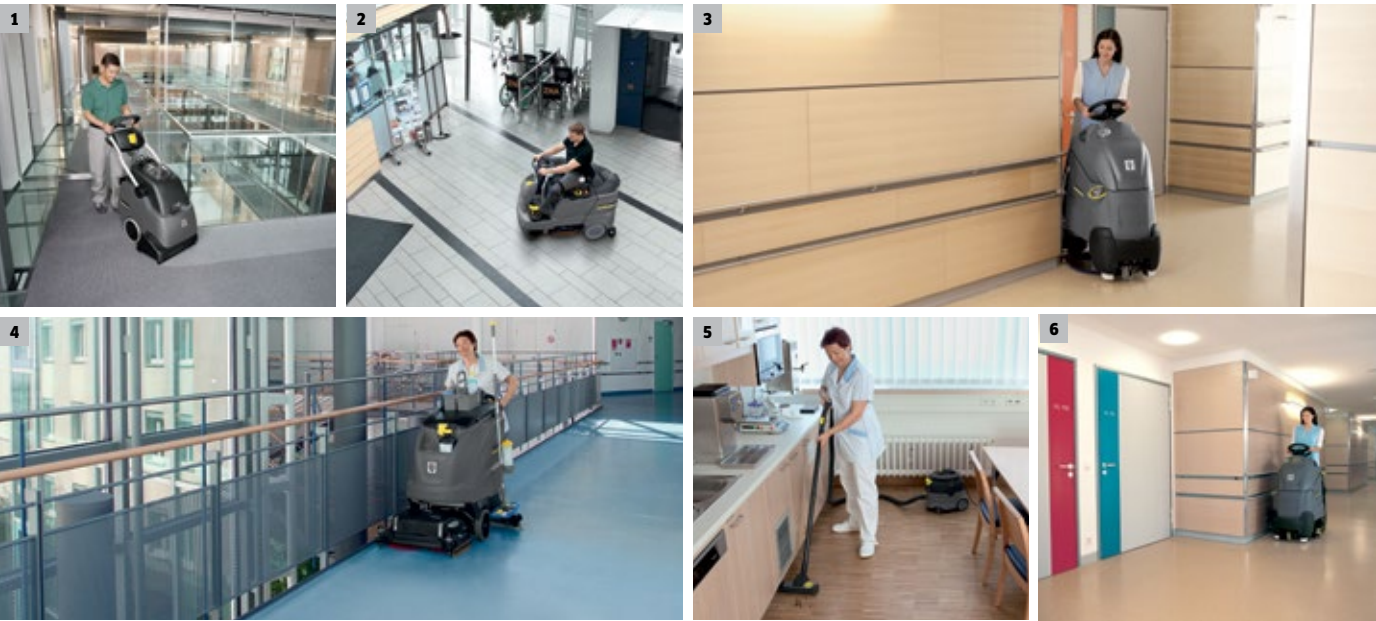

Carpet cleaners for thorough cleaning: low residual moisture, quick drying.

Scrubber driers for small to large areas. Easy to use. Water and energy-saving. Quiet and inconspicuous.

Clean efficiently and quickly with Kärcher's line of specialty equipment. These innovative cleaning solutions help you maintain a safe and healthy environment.

- 1 Carpets quickly cleaned**

When there is not enough time for drying or basic cleaning of carpets: the Kärcher system consisting of the Clipper 12 and CarpetPro Cleaner iCapsol RM 768 featuring 2-roller technology for optimal cleaning results forward and backwards. Compact for space-saving storage.
- 2 Ideal for entrances**

The B 90 scrubber drier is designed for cleaning large areas. It features a pre-sweeping function for removing coarse, loose dirt. The diamond pad leaves stone floors looking shiny for longer. Thanks to the whisper function, the B 90 is also ideal for use in patient areas.
- 3 Manoeuvrable and quick in corridors**

With a lower investment cost, higher production rate and simplicity of maintenance, this scrubber exceeds all expectations. This model features an on-board charger and optional chemical metering for even greater time-savings.

- 4 Efficiency is a matter of adjustment**

The B 60 with KIK system is fully configurable and with its tank interior cleaning system ensures hygiene not only on floors. In the ecoefficiency mode, the brush speed and suction power can be reduced for light soiling.
- 5 The quietest vacuum in its class**

The T 12/1 ecoefficiency with HEPA filter is designed to meet hygiene requirements on wards. The noise level reduced by 5 dB(A) compared to the standard model is equivalent to a noise level reduction of about 70%.
- 6 Get that brilliant shine you are looking for**

Experience how our stand-on design improves your burnishing speed and quality with the Chariot iGloss. This model easily fits into tight and busy areas due to its compact size and 360 degree mobility.

**Neutral floor cleaner**  
Developed for scrubber machines, this formula is non-foaming, phosphate-free and contains ingredients that protect the machine from scale and contaminants.

**S 65 vibrating head**  
Modular brush head with innovative vibrating technology – ideal for restoring shine. No extra attachment necessary: simply change the brush head.

**Diamond pads**  
A Kärcher innovation for cleaning and polishing in one pass.

SANITARY AREAS - CLEANS DEEP INTO JOINTS AND CREVICES

Manual cleaning reaches its limits in sanitary areas with anti-slip floors. Especially when limescale, skin oils or cosmetic residues need to be removed. In baths, showers and changing rooms – suitable for structured floors and small areas where hygiene requirements are high: the avoidance of germ transmission and cross-contamination in these areas is crucial. The regular use of compact, efficient Kärcher cleaning machines ensures that floors are hygienically clean deep into joints and crevices.

- 1 Optimal interim cleaning**  
The BR 30/4 C cleans right into corners, around bends and under low fittings. Featuring a microfibre roller, it is ideal for removing fluff and hairs on fine stone tiles. Ideal for use in sanitary areas or wet zones, like water birth suites.
- 2 Optimal deep cleaning in sanitary areas**  
AP 100/50 M-CA unit is a highly mobile, compact cleaning unit that allow users to easily clean inside washrooms, offices, patient rooms, kitchens, locker rooms, and any area that requires fast cleaning and meticulous results

- 3 Ideal for structured flooring**  
The BR 40/10 with roller technology cleans deep into joints and crevices and scrubs and vacuums in one pass. Keeps sanitary areas and exercise baths hygienically clean.
- 4 Clean joints and crevices – no chance for dirt**  
The steam cleaner SG 4/4 is the answer to stubborn soap residues in showers, particularly in difficult to reach areas. Kind to surfaces and the environment.
- 5 Prevention is the best medicine**  
Achieve a higher level of efficacy with the new Kärcher PS 4/7 Bp. This hospital-grade misting system is specifically designed for use with Vital Oxide® disinfectant. Reduce the risks of Health Care Acquired Infections by killing virus, bacteria and mold faster, safer and quieter.

The BR 30/4 C compact scrubber drier removes limescale and mould in joints. Easy to use – ideal for confined spaces.

BR 40/10 C Adv scrubber drier with two-roller technology. Scrubs, vacuums and polishes floors. Cleans close to edges and under benches.

Wet and dry vacuum cleaners remove coarse dirt: dry, moist or liquid. On-board accessories – always at hand.

Steam cleaners remove stubborn dirt from joints, cracks and pores. Kind to the environment and material.

**FloorPro Deep Cleaner, acidic RM 751**  
Effectively removes cement film, deposits and residues, e.g. limescale, rust, beer or milk scale.

**Microfibre pads and rollers**  
Unrivalled on fine stoneware tiles, it achieves optimal results on all smooth or lightly structured floors.

**DE 4002 joint and crevice kit**  
Ideal accessories for joints and fittings.

# TREATMENT AREAS - MAXIMUM HYGIENE

Cleaning in sterile areas such as operating theatres and laboratories places high demands on the cleaning systems used. The aim is to achieve and maintain a maximum level of hygiene to avoid nosocomial infections. Cleaning machines used in these areas must comply with high hygiene standards. The often busy environments, not enough time for thoroughly cleaning floors subject to high traffic and cramped conditions make things more difficult.

- 1 Prevention is the best medicine**  
The Kärcher PS 4/7 Bp hospital-grade misting system is specifically designed to reduce risks of Health Care Acquired Infections by killing virus, bacteria and mold faster, safer and quieter.
- 2 Quickly on site and quickly finished**  
Lightweight, quiet and agile: The BD 38/12 C Bp Pack scrubber drier with disc head is equipped with a fast rechargeable, high performance lithium-ion battery and ecoefficiency mode
- 3 For growing demands**  
In histological laboratories, where large amounts of wax are used, floor cleaning is very time-consuming, but essential for work safety. A precondition

- tion for the successful removal of stubborn soiling such as wax calls for a perfectly matched machine and cleaning agent: e.g. the BR 40/10 with contra-rotating, self-cleaning pad rollers and FloorPro Intensive Deep Cleaner RM 750 for cleaner floors and greater safety.
- 4 Ideal for operating theatres**  
B 40 W meets the highest requirements: easy to use and so quiet that it can be used at any time. The tank rinsing system protects against contamination. Maintenance-free batteries ensure trouble-free operation. Thanks to its compact design and ease of use, the B 40 is also ideal for use in operating theatre environments.

- 5 Silent, but tough on dust**  
Frequent changes of clothing produce a large amount of dust. With only 56 dB (A), the T 15/1 is the quietest in its class and can be used at any time. Optional HEPA filter.

Compact battery powered machines for maintenance cleaning in one or two passes for areas up to 700 m².

B 40 W scrubber drier. Traction drive, innovative operating system, hygienic design. Roller or disc engineering technology for smooth to structured floors.

T 15/1 – the quietest vacuum in its class. Yellow cable prevents tripping. Standard HEPA filter for optimal hygiene.

**Cleaning according to colours**  
The disc brush colour system makes it easy to select brushes or discs with the required properties.

**Vital Oxide**  
Vital Oxide® hospital is a no rinse sanitizer for food contact surfaces (D2). Vital Oxide kills harmful bacteria, mold and mildew, deodorizes and eliminates allergens.

**Healthy air**  
Kärcher HEPA filters ensure perfectly clean and hygienic exhaust air.

KITCHEN AREAS - APPETISINGLY CLEAN

Preparing food for a large number of patients and staff places the highest demands on hygiene. Kärcher offers a complete system which follows the HACCP concept and complies with all cleaning standards using special equipment. In all preparation, storage and distribution areas. For cleaning work surfaces and implements, including serving trolleys. For removing stubborn and coarse dirt. Also effective on heavily structured floors.

- 1 On rollers – deeper into joints and crevices**

Being flat and compact, the BRS 40/1000 C scrubber easily reaches under kitchen cupboards. Featuring roller technology, this machine is the alternative to single-disc machines for use on non-slip tiles.
- 2 High pressure in the kitchen**

High-pressure cleaning with integrated suction is ideal for kitchens. The FRV 30 surface cleaner can clean and vacuum in one pass.
- 3 The next level of clean**

Misting provides higher efficacy by improving coverage more efficiently and effectively than spray wipe methods and wipes. It delivers disinfectant into the numerous hard to reach corners and crevices in every facility that wipe methods can't reach.
- 4 Specialist for canteens**

This machine is as easy to manoeuvre as a vacuum brush. It exerts ten times more contact pressure than mopping by hand with far better cleaning performance. And this, at a roller speed of about 1,500 revolutions.

Unheated, compact HD 2.3/14 C Ed Food high-pressure cleaner. Designed for universal use in the commercial food industry and equipped with the new EASY!Force high-pressure gun.

Compact floor scrubbers featuring roller technology – ideal for basic and interim cleaning of structured floors in kitchens.

The Kärcher PS 4/7 Bp hospital-grade misting system is specifically designed to reduce risks of Health Care Acquired Infections by killing virus, bacteria and mold faster, safer and quieter.

**Inno Foam Set**  
With cleaning agent injector and nozzle kit. Effective foam cleaning based on the HACCP concept.

**BR roller brushes (high/low)**  
For cleaning heavily structured floors and in deep joints and crevices.

**Food-grade high-pressure hoses**  
With non-discolouring outer layer.

# OFFICES AND CONFERENCE ROOMS - CLEANED DEEP INTO THE FIBRES

Offices and conference rooms in hospitals are often carpeted or have parquet flooring to create a pleasant atmosphere. To retain the value of these high-quality materials, specific cleaning systems are necessary. Not least, also to maintain a constant level of hygiene and prevent the transmission of germs – because dirt and germs make no distinction between clinical and office areas.

**1 Whisper-quiet and universal**

Dry vacuum cleaners such as the T 15/1 are perfect for daily maintenance cleaning – with or without filter bag: they thoroughly remove dirt and soiling on carpets, laminate or PVC floors effortlessly.

**2 All-rounder for all surfaces**

The Chariot 2 iVac stand-on vacuum is a high-performance, multi-surface cleaning HEPA stand-on commercial vacuum designed for increased productivity and maneuverability on hard and soft floors.

**3 Thoroughly clean**

Carpets are subject to heavy traffic everyday. That is why cleaning professionals prefer Kärcher carpet cleaners. These robust, powerful and versatile machines are designed for cleaning carpets deep into the pile and are ideal for interim use and removing stains from textiles. They also clean deep into the fibres of blinds and upholstery. With the appropriate accessories, the machines can even be used to clean tiles and windows.

**4 Safe and easy operation**

The Kärcher PS 4/7 Bp OBC Mister's ergonomic cordless design, battery power, and simple controls reduce operator fatigue and cleaning errors

Dual-motor brush-type vacuum cleaners with generous working widths clean large areas in next to no time.

In applications where a sweeper, wide-area vacuum or dust mop can be used, the Chariot 2 iVac ATV HEPA vacuum is all you need.

Kärcher spray extraction cleaners are ideal for removing stains and cleaning carpets deep into the pile.

Handy cordless cleaners such as electric brooms and sweepers: always close to hand and always useful.

**Vital Oxide**

Vital Oxide® hospital is a no rinse sanitizer for food contact surfaces (D2). Vital Oxide kills harmful bacteria, mold and mildew, deodorizes and eliminates allergens.

**CarpetPro Cleaner RM 760 Powder**

This is a spray extraction deep cleaner in tablet form. With encapsulation technology. In a practical foil that is water-soluble. No time-consuming rinsing.

HIGH PERFORMANCE IN ALL AREAS

The areas outside hospitals must not only give a good impression. All-round maintenance of the infrastructure is indispensable for ensuring that daily routines can be carried out smoothly and safely. This applies in particular to access for ambulances, entrances and footpaths for patients and staff. Also important are the cleaning of multi-storey car parks and maintenance of grassed areas. Kärcher sweepers have the power and versatility to do the job: sweep, dry or wet. Mow grass. Collect leaves. And provide a complete winter service.

Compact walk-behind sweepers clean in a fraction of the time and clean much more efficiently than a broom.

Ride-on sweepers are the solution for sweeping large areas – car parks and driveways.

Ride-on scrubber driers for demanding cleaning jobs and long periods of use. The first choice for underground car parks and multi-storey car parks as well as loading zones.

The SG3 Bp Gum Remover safely and easily removes gum from hard and soft floors in a matter of seconds. Our unique technology quickly vaporizes gum through a combination of heat and our green, environmentally safe detergent.

**1 Right on track**  
Multi-storey car parks often place high demands on scrubber driers: large areas, coarse and stubborn dirt and steep ramps. The Kärcher BR 150 R is the right machine for this job: with robust steel frame for heavy-duty use on areas with inclines up to 15%. With large water tank and powerful battery for long periods of uninterrupted use.

**2 Could it get any easier?**  
The compact and extremely manoeuvrable KM 75/40 W thoroughly cleans small to medium-sized areas effortlessly. The traction drive replaces physical strength, while the powerful vacuum picks up dust without any turbulence. Available with a choice of powerful petrol engine or whisper-quiet, battery-powered version for indoor use – with optional antistatic carpet sweeping kit.

**3 Progress made easy**  
Ride-on vacuum sweeper with highly effective, patented and fully automatic filter cleaning, unique sweeping crescent side brush (optional), automatic wear adjustment of the main sweeper roller via Teach System and new sweeping concept. With this new sweeping concept, stored between the rear wheels, the sweeping system is protected when driving over obstacles and allows corners to be swept out in just three strokes.

**4 All-in-one cold water, gas-powered, surface cleaner pressure washer.**  
One-step solution. The Jarvis Series is a complete solution for quick, streak-free cleaning of businesses' entrances, parking lots, tennis courts, pool decks and sidewalks. This easy to use cold water surface cleaner pressure washer is an all-in-one unit with the pump and engine attached to the surface cleaner, and it is designed to attack the superficial dirt sweeping alone does not get.
