ONE SPILL COULD COST A LOT MORE

Liquid spill in a size of 50 sen coin, can spread up to 2m² when mopped and pose danger to people walking by.

**NO. 1
CAUSE**

Slips & trips are the most common cause of injury at work.

90%

Around 90% of these injuries result in broken bones.

**RM 2.4
BILLION**

Industry cost is over RM 2.4B / year, exclude incalculable human cost

HOW YOU CLEAN YOUR FLOOR CAN BE THE DIFFERENCE BETWEEN CAUSING OR PREVENTING SLIPS ON WET FLOOR.

Using a mop and bucket to clean may seem quick, easy and low cost but floors are often left wet and unusable for several minutes afterwards, creating a dangerous slip hazard which could cost your business. Spillages from transporting an open top bucket and cross contamination due to dirty water being reused also pose health risks.

Using a Kärcher scrubber drier effortlessly reduce that risk, leaving floors instantly clean, dry and safe.

2 m²

Cleaning with a mop makes a larger area unnecessarily wet by spreading the spillage. Because the water in the bucket is reused each time you mop it also poses a health risk too.

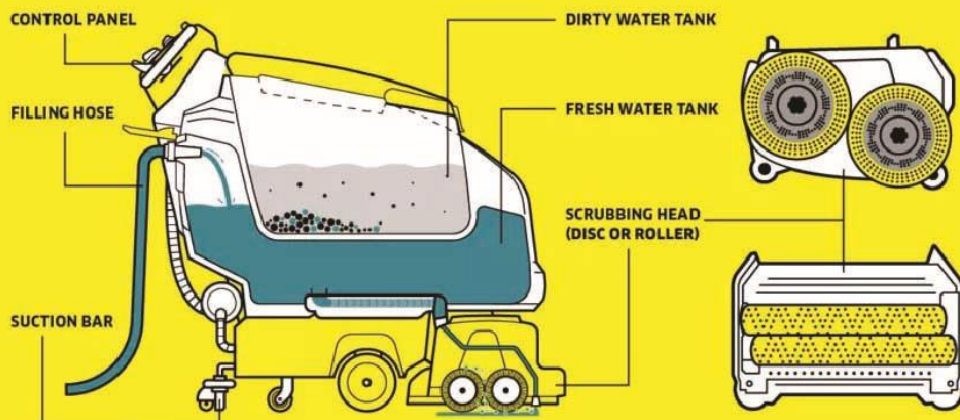

A mopped floor takes approximately 7 minutes to dry, leaving the area extremely slippery and unsafe to use.

What is a scrubber drier?

Kärcher scrubber driers thoroughly remove dirt, dust and residues from hard floors in a single pass leaving surfaces instantly dry, clean and safe. From maintenance cleaning to deep cleaning, polishing and even stripping, a Kärcher scrubber drier delivers outstanding cleaning performance, every time, improving health and safety in your business while increasing cleaning productivity.

KÄRCHER SCRUBBER DRIERS PERFORM THREE STEPS SIMULTANEOUSLY

- 1** APPLYING CLEAN WATER AND DETERGENT ON TO THE SURFACE
- 2** AGITATING THE DIRT WITH A ROTATING BRUSH OR PAD, LIFTING IT FROM THE FLOOR
- 3** VACUUMING AWAY THE DIRTY WATER LEAVING A SPOTLESSLY CLEAN, DRY FLOOR

Cleaning Application:

Retail / Hotel

Showroom / Hospital

Scrubber Drier Range: Easy & Effective Floor Solution

Corded Scrubber Drier

Specification

Model: BD50/60C Ep
Working width: 510mm
Capacity: 60 liter
Max performance: 2000m²/h
Power: 1100W
Art No: 1.127-002.0

Battery Scrubber Drier

Specification

Model: BD50/50C Bp
Working width: 510mm
Capacity: 50 liter
Max performance: 2000m²/h
Power: 1100W
Art No: 1.127-007.0
