

# KÄRCHER

**GERMAN  
ENGINEERED**

## ONE SPILL COULD COST A LOT MORE

Liquid spill in a size of 50 sen coin, can spread up to 2m<sup>2</sup> when mopped and post danger to people walking by.

**NO. 1  
CAUSE**

Slips & trips are the most common cause of injury at work.

**90%**

Around 90% of these injuries result in broken bones.

**RM 2.4  
BILLION**

Industry cost is over RM 2.4B / year, exclude incalculable human cost

## HOW YOU CLEAN YOUR FLOOR CAN BE THE DIFFERENCE BETWEEN CAUSING OR PREVENTING SLIPS AND TRIPS.

Using a mop and bucket to clean may seem quick, easy and low cost but floors are often left wet and unusable for several minutes afterwards, creating a dangerous slip hazard which could cost your business. Spillages from transporting an open top bucket and cross contamination due to dirty water being reused also pose health risks.

Using a Kärcher scrubber drier effortlessly reduce that risk, leaving floors instantly clean, dry and safe.

**2 m<sup>2</sup>**

Cleaning with a mop makes a larger area unnecessarily wet by spreading the spillage. Because the water in the bucket is reused each time you mop it also poses a health risk too.

A mopped floor takes approximately 7minutes to dry, leaving the area extremely slippery and unsafe to use.

# What is a scrubber drier?

Kärcher scrubber driers thoroughly remove dirt, dust and residues from hard floors in a single pass leaving surfaces instantly dry, clean and safe. From maintenance cleaning to deep cleaning, polishing and even stripping, a Kärcher scrubber drier delivers outstanding cleaning performance, every time, improving health and safety in your business while increasing cleaning productivity.

## Cleaning Application:

**Mall/Exhibition Hall Area**

**Public Transportation Area**

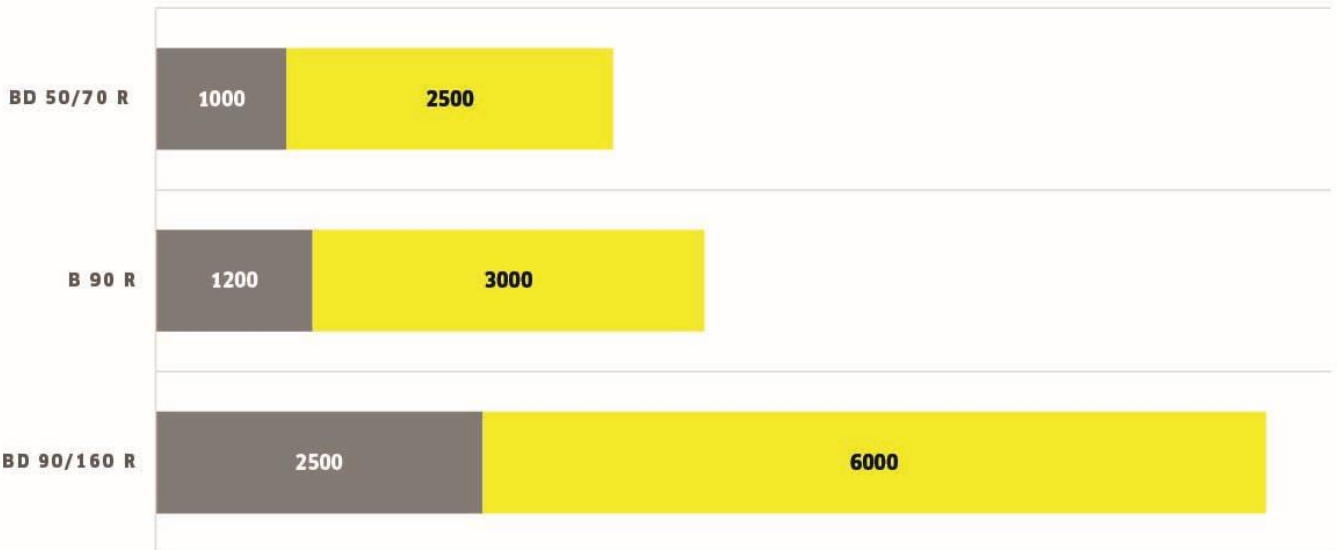

**Warehouse/Production Area**

## Ride-on Scrubber Drier Range: Effective Floor Solution

### THE OPTIMAL SCRUBBER DRIER FOR EVERY SURFACE

■ Economic Range

**Model:** BD50/70 R  
**Working width:** 510mm  
**Capacity:** 70 liter  
**Max performance:** 2805m<sup>2</sup>/h  
**Art No:** 1.161-076.0

**Model:** BD90 R  
**Working width:** 750mm  
**Capacity:** 90 liter  
**Max performance:** 4500m<sup>2</sup>/h  
**Art No:** 1.161-306.0

**Model:** BD90/160 R  
**Working width:** 900mm  
**Capacity:** 160 liter  
**Max performance:** 5400m<sup>2</sup>/h  
**Art No:** 1.246-041.0
