

KÄRCHER

makes a difference

IMPRESSES WITH SUPERB AGILITY, LOW WEIGHT & A HIGH CLEANING PERFORMANCE.

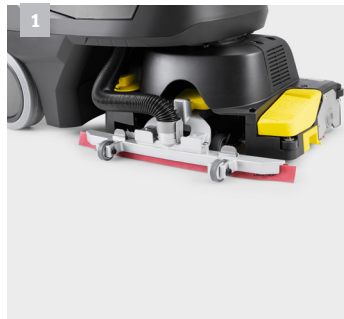

Equipped with innovative KART technology.

BR 35/12 C Bp

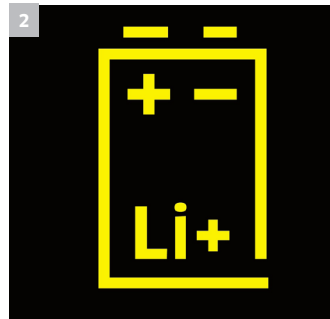

Cleans both forwards and in reverse.

Our battery-powered scrubber drier BR 35/12 C is the ideal and efficient cleaning solution for small and heavily furnished areas. Its rotatable roller brush head with KART technology (Kärcher Advanced Response Technology) allows work on tight bends, thus ensuring maximum manoeuvrability and agility. The powerful, long-lasting lithium-ion battery makes possible long applications, can also be recharged quickly, is completely maintenance-free and lasts up to 3 times longer than typical lead batteries. The excellent equipment of the BR 35/12 C is complemented by the connectible ecoefficiency mode, which lowers the energy consumption considerably at the touch of a button, extends the runtime of the battery and also reduces the operating noise by around 40 percent, thus permitting applications in noise-sensitive areas.

1 Rotatable brush head.

- Extremely manoeuvrable and effective - ideal for areas with a lot of furniture.
- The brush is always transverse to the direction of travel. The squeegee reliably absorbs the water in every corner.

2 Includes high-performance lithium-ion battery.

- Completely maintenance-free despite a service life that is three times longer than conventional batteries.
- Interim or partial charging is also possible where necessary.

3 Energy-saving ecoefficiency mode.

- Saves resources and extends run time by up to 50 %.
- 40 % reduction in noise level.
- Reduced CO₂ emissions.

4 Roller technology.

- High contact pressure for removing stubborn dirt.
- Very good even on rough floor coverings or for cleaning crevices.

Technical data and equipment

BR 35/12 C Bp

- = Includes high-performance on-board charger.
- = Includes sweeping function.
- = Very low machine weight.

Technical data

Air flow rate	cfm	42
Working width	cm/in	35/14
Container capacity	l/gal	12/3.2
Power rating	W	500
Sound pressure level	dB(A)	65
Battery	V/AH	25.2/21 AH, li-on
Battery run time	min	90
Weight with battery	kg/lbs	35/79.4
Dimensions (LxWxH)	cm/in	93x42x110/37x17x43
