# HIGHLY INTELLIGENT AND COMPLETELY SAFE

High-performance lithium-ion cells and an electronics system designed to work perfectly with them make Kärcher batteries especially powerful.

**USP**  
**LCD display with Real Time Technology**  
The integrated LCD display shows either the charge level, the remaining run time or the remaining charging time.

**USP**  
**Automatic storage mode**  
Increased battery service life thanks to automatic processor-based storage mode.

**Efficient temperature management**  
Efficient heat buffering and intelligent battery management ensure maximum performance for applications with high power requirements.

**Intelligent cell monitoring**  
Protects against overloading, overheating and deep discharge.

**Powerful lithium-ion cells**  
These guarantee consistent performance with low self-discharge and no memory effect.

**Splash-proof**  
The battery has IPX5 protection against dust and splashes.

**Extreme robustness**  
Kärcher battery housings are made of polyamide, making them highly shock-resistant. The rubber surface provides grip for easy handling.

# AN UNBEATABLE PRODUCT CONCEPT

No power outlet on the patio? Not a problem for the new battery-powered Kärcher devices. The Battery Power exchangeable battery system offers unlimited freedom and maximum mobility for the patio, garden and workshop. In addition, the batteries are quickly ready for use and fit into the relevant platform devices - making them perfectly suited to every application and the relevant power requirements. With Real Time Technology, users can keep a constant eye on the battery level of the 18 V Kärcher Battery Power and 36 V Kärcher Battery Power exchangeable batteries.

The unparalleled Kärcher Real Time Technology provides users with the best possible information. Unlike conventional LED displays, this technology provides a detailed display of the operating status and charge level.

**Remaining run time in minutes**  
Users are provided with continuously updated information regarding the remaining run time during use and therefore know when the battery needs to be changed or charged down to the minute. The run time is adjusted to match the specific device.

**Battery capacity as a percentage**  
The battery capacity can be read at a glance.

**Remaining charging time in minutes**  
The remaining charging time is shown on the display during the charging process. This ensures that users can know exactly when they can start work again.

# 18 V KÄRCHER BATTERY POWER - COMPACT AND POWERFUL

Kärcher 18 V batteries have been developed for use in convenient products designed for maximum user comfort. Perfect for small and medium houses and gardens.

18 V Kärcher Battery Power exchangeable batteries are suitable for use in:

- KHB 5 Battery pressure washer
- WD 1 Compact Battery multi-purpose vacuum cleaner
- WRE 4 Battery weed remover
- LBL 2 Battery leaf blower
- BLV 18-200 Battery leaf blower and blower vac
- LMO 18-36 Battery and LMO 18-33 Battery lawn mowers
- LTR 18-30 Battery and LTR 18-25 Battery lawn trimmers
- HGE 18-50 Battery and HGE 18-45 Battery hedge trimmers
- PHG 18-45 Battery pole hedge trimmer
- GSH 18-20 Battery grass & shrub shear
- TLO 18-32 Battery tree lopper
- PSW 18-20 Battery pole saw
- CNS 18-30 Battery chain saw

**Battery Power 18/25 battery**  
18 V/2.5 Ah Kärcher Battery Power exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level.

**Battery Power 18/50 battery**  
18 V/5.0 Ah Kärcher Battery Power exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level.

**18 V Kärcher Battery Power fast charger**  
The 18 V fast charger recharges the 18 V Kärcher Battery Power exchangeable batteries can be recharged and ready for use again in no time.

# 36 V KÄRCHER BATTERY POWER - A POWERFUL BATTERY FOR HIGH POWER REQUIREMENTS

Kärcher 36 V batteries are used in devices that need to meet high power requirements. Perfect for large houses and gardens.

36 V Kärcher Battery Power exchangeable batteries are suitable for use in:

- K 2 Battery pressure washer (only with 36 V/5.0 Ah)
- WD 3 Battery Premium and WD 3 Battery multi-purpose vacuum cleaners
- LBL 4 Battery leaf blower
- BLV 36-240 Battery leaf blower and blower vac
- LMO 36-46 Battery and LMO 36-40 Battery lawn mowers
- LTR 36-33 Battery lawn trimmer
- HGE 36-60 Battery hedge trimmer
- CNS 36-35 Battery chain saw

**Battery Power 36/25 battery**  
36 V/2.5 Ah Kärcher Battery Power exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level.

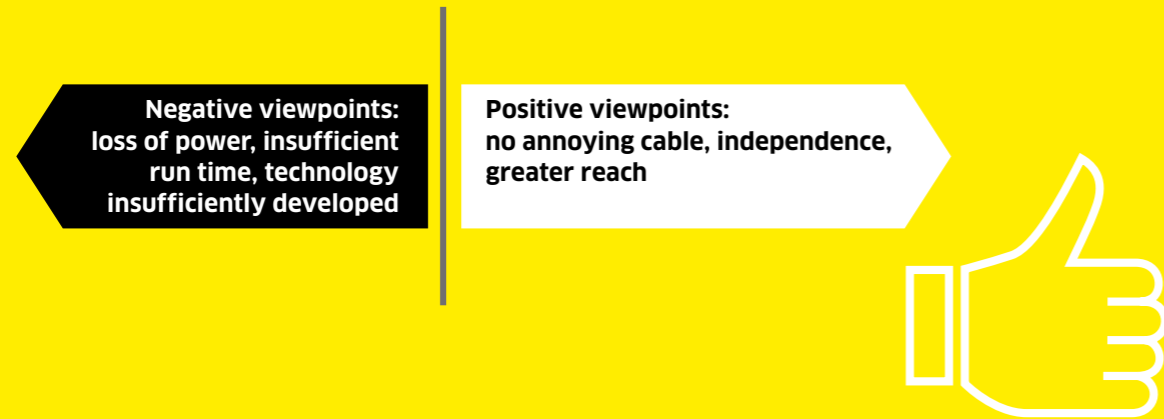

**Battery Power 36/50 battery**  
36 V/5.0 Ah Kärcher Battery Power exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level.

**36 V Kärcher Battery Power fast charger**  
The 36 V fast charger recharges the 36 V Kärcher Battery Power exchangeable batteries can be recharged and ready for use again in no time.

Technical data	36/25	36/50	Version	Order number
Battery voltage	36 V	36 V	Battery Power 36/25 battery	2.445-030.0

## BATTERIES ARE BECOMING INCREASINGLY POPULAR

A Kärcher market research study came to the conclusion that the majority of people who took part in the study are strongly in favour of the shift from corded to cordless devices. On average, the battery technology was given a score of A.

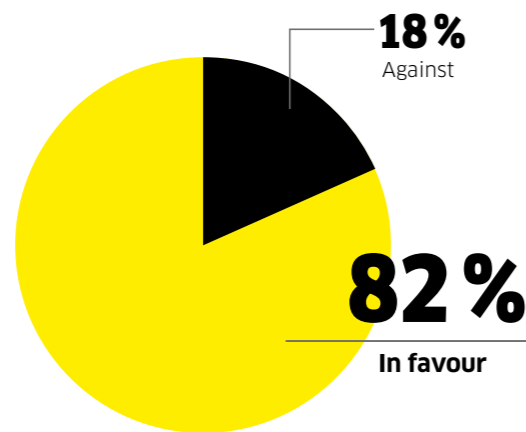

## BATTERY PLATFORM VS. INDIVIDUAL BATTERY

Cordless products are the future - especially those that are based on a platform and can therefore make full use of the benefits of exchangeable batteries.

## HUGE POTENTIAL FOR GROWTH WITH BATTERY-POWERED PRODUCTS

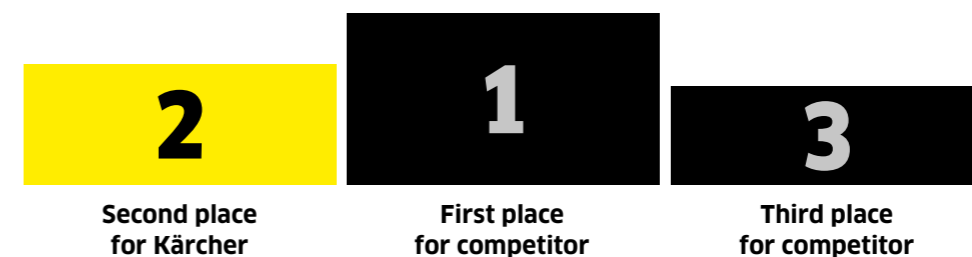

82 per cent of the people we asked would consider purchasing a battery-powered garden device.

Source: Kärcher Market Research, 2016.

## KÄRCHER DEMONSTRATES BATTERY EXPERTISE

Which company can best promote the development of battery platforms? Kärcher ranked an impressive second place in the results of this representative customer survey on cordless products - proof that customers have a great deal of confidence in the company.

Source: Kärcher Market Research, 2017.

# OVERVIEW OF KÄRCHER BATTERY POWER PRODUCTS

The 18 V Kärcher Battery Power battery platform comprises compact and handy products for caring for and cleaning small and medium-sized gardens and outdoor areas.

For large gardens, the 36 V Kärcher Battery Power battery platform boasts powerful devices from various categories for gardening work and for cleaning tasks around the home.

## MAXIMUM PERFORMANCE PER BATTERY CHARGE WITH THE BATTERY INCLUDED IN THE SET

**Lawn mowers**

# LMO 18-36 BATTERY AND LMO 18-33 BATTERY - MANOEUVRABLE AND LIGHTWEIGHT

Put a stop to having to drag a lawn mower back and forth. Kärcher's light-weight battery lawn mowers can be guided with ease, even over uneven ground and around obstacles. And they are safe too: once the key has been removed, the lawn mowers can no longer be used.

### Practical height adjustment

The push handle can be individually adapted to the user's height without the need for tools so that they can maintain an upright posture at all times.

### Integrated carrying handle

For ease of transport.

### Cutting height adjustment

The blade can be adjusted to four different grass heights quickly and simply.

### 18 V Kärcher Battery Power exchangeable battery

Guarantees maximum mobility. The battery can also be used in other 18 V Kärcher Battery Power platform devices.

### Filling level indicator

The practical filling level indicator lets users know when the grass box has to be emptied.

### 2-in-1 mowing system

The grass cuttings can either be collected in the grass box or spread across the lawn using the mulch plug to act as natural fertiliser.

\* Maximum performance with an 18 V/5.0 Ah Kärcher Battery Power exchangeable battery.

### 1 Practical grass box

- The grass box can be simply emptied without leaving any grass cuttings behind thanks to the integrated strap.

### 3 Mowing right up to the edge

- For a clean cut right up to the edge of the lawn - there is no need for manual trimming after mowing the lawn.

### 2 Foldable push handle

- The practical design of the push handle enables space-saving storage. The lawn mower is also easy to transport thanks to the integrated carrying handle.

### 4 Mulching function

- Using the mulch plug makes it possible to spread the grass cuttings across the lawn to act as natural fertiliser.

# LMO 36-46 BATTERY AND LMO 36-40 BATTERY - QUIET AND POWERFUL

With their large cutting width and generous grass box capacity, the two powerful 36 V battery lawn mowers enable users to make quick work of mowing. On the LMO 36-46 Battery, the push assist function provides drive support at the touch of a button. Ideal for effortless mowing in gardens, even on inclines.

**LMO 36-46 Battery Set**  
Battery Power 36/50 battery

**36 V Kärcher Battery Power exchangeable battery**  
For maximum mobility. The battery can also be used in other 36 V Kärcher Battery Power platform devices.

**Integrated carrying handle**  
For easily transporting the lawn mower.

**Cutting height adjustment**  
The blade can be adjusted to five different grass heights quickly and simply.

**Push assist (LMO 36-46 Battery)**  
The push assist function provides additional drive power and makes mowing on inclines easier.

**Filling level indicator**  
The practical filling level indicator lets users know when the grass box has to be emptied.

**2-in-1 mowing system**  
The grass cuttings can either be collected in the grass box or spread across the lawn using the mulch plug to act as natural fertiliser.

**1 Push assist (LMO 36-46 Battery)**

- The additional rear-wheel drive provided by the push assist function makes mowing effortless, even on inclines.

**2 Mowing right up to the edge**

- For a clean cut right up to the edge of the lawn - there is no need for manual trimming after mowing.

**3 Practical height adjustment**

- The push handle can be locked quickly and easily with the quick-release couplings. The angle of the handle can be adjusted so that users can maintain an upright posture at all times.

**4 Mulching function**

- Using the mulch plug makes it possible to spread the grass cuttings across the lawn to act as natural fertiliser.

# LTR 18-30 BATTERY AND LTR 18-25 BATTERY - LAWN TRIMMING MADE EASY

Both models are ergonomic to hold and easy to use. The LTR 18-30 Battery is also a true all-rounder, as it has an adjustable trimmer head and a plant protector.

**LTR 18-30 Battery Set**  
Battery Power 18/25 battery

**Telescopic handle (LTR 18-30 Battery)**  
Enables users of any height to work standing upright and protect their back.

**18 V Kärcher Battery Power exchangeable battery**  
For maximum mobility. The battery can also be used in other 18 V Kärcher Battery Power platform devices.

**Adjustable two-handed grip (LTR 18-30 Battery)**  
For a comfortable posture while working.

**Fold-out plant protector (LTR 18-30 Battery)**  
No risk of damaging plants: the plant protector makes gentle trimming possible alongside flower beds and trees.

**Ergonomic inclination angle adjustment (LTR 18-30 Battery)**  
The adjustable trimmer head makes trimming under low obstacles simple.

**LTR 18-25 Battery Set**  
Battery Power 18/25 battery

**Efficient cutting system with automatic trimmer line extension**  
The twisted trimmer line ensures a precise cut, is very quiet and, thanks to automatic adjustment, is always the perfect length.

**1 Narrow points are easy to access**  
▪ Corners are easy to reach thanks to the flexible trimmer line.

**2 Inclination angle adjustment (LTR 18-30 Battery)**  
▪ Different settings for effortless trimming under particularly low obstacles.

**3 Practical plant protector (LTR 18-30 Battery)**  
▪ Makes gentle trimming possible alongside flower beds and trees without damaging plants.

**4 Cutting edges**  
▪ The rotatable trimmer head makes it possible to cleanly cut the edges of lawns alongside patios and paths.

# LTR 36-33 BATTERY - THE POWERFUL LAWN CARE DEVICE

This battery lawn trimmer packs a punch. It makes light work of tackling grass and stubborn weeds, even in areas of the lawn that are difficult to reach. The LTR 36-33 Battery makes trimming edges around trees, hedges and pathways easier than ever before.

### Ergonomic handle design

The soft two-handed grip makes the device comfortable to hold, even when trimming for prolonged periods.

### Adjustable cutting diameter

Makes trimming grass in corners and narrow points simpler.

**Separable shaft**  
For ease of transport and space-saving storage.

**Practical plant protector**  
Gentle trimming alongside flower beds and trees without damaging plants.

### 36 V Kärcher Battery Power exchangeable battery

The powerful exchangeable battery has an LCD display with Real Time Technology and can also be used with other 36 V Kärcher Battery Power platform devices if required.

### Speed adjustment

The trimmer power can be controlled separately depending on the field of application.

### Efficient cutting system with automatic trimmer line extension

The twisted trimmer line ensures a precise cut, is very quiet and, thanks to automatic adjustment, is always the perfect length.

\* Maximum performance with a 36 V/2.5 Ah Kärcher Battery Power exchangeable battery.

### 1 Practical shoulder strap

- Optimal weight distribution for comfortable working without exertion.

### 2 Powerhouse

- Tall grass and stubborn weeds are not a problem for the battery lawn trimmer either.

### 3 Narrow points are easy to access

- The twisted trimmer line makes cutting the corners of lawns particularly easy.

### 4 Practical plant protector

- Prevents damage to plants and trees.

# HGE 18-50 BATTERY AND HGE 18-45 BATTERY - SHARP CUTTING FOR BEAUTIFUL HEDGES

Whether they mark a property boundary, provide privacy or are for decoration: no matter what purpose hedges and bushes serve, Kärcher's especially handy battery hedge trimmers will have them looking effortlessly sharp

**HGE 18-50 Battery Set**  
Battery Power 18/25 battery

**Rotatable handle (HGE 18-50 Battery)**  
The handle can be adjusted to any of five different positions. For ergonomic use.

**Two-handed safety switch**  
Prevents unintentional start-up of the hedge trimmer.

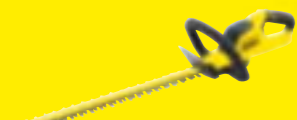

**Blade tip guard (HGE 18-50 Battery)**  
The built-in blade tip guard prevents damage to walls or the ground.

**Sawing function (HGE 18-50 Battery)**  
The front section of the hedge trimmer can even cut large branches easily.

**Diamond-ground blade**  
For a clean and precise cut.

**Kärcher Battery Power exchangeable battery**  
LCD display with Real Time Technology. The battery can also be used in other 18 V Kärcher Battery Power platform devices.

**HGE 18-45 Battery Set**  
Battery Power 18/25 battery  
Provisional visualisation

- 1 Precision cutting**
  - The blade is diamond-ground, ensuring a clean and precise cut.
- 2 Blade tip guard with integrated hanging storage loop (HGE 18-50 Battery)**
  - The blade tip guard prevents the blade damaging buildings or the ground. And the hedge trimmer can be conveniently hung up on the wall thanks to the practical loop.

- 3 Rotatable handle (HGE 18-50 Battery)**
  - The rear handle can be flexibly adjusted from 0° to 180°, which simplifies both horizontal and vertical cutting.
- 4 Catcher plate (HGE 18-50 Battery)**
  - Transports the hedge cuttings to the ground instead of letting them fall into the hedge.

# HGE 36-60 BATTERY - OFF WITH THE HEDGE!

Whether users are cutting hedges into special shapes or trimming them back: the battery hedge trimmer with laser-cut and diamond-ground blade and two-stage speed control always produces the perfect cut.

**Two-stage speed control**  
Depending on the application, users can switch between maximum speed and maximum power.

**Rotatable handle**  
The handle can be adjusted between five different positions. For ergonomic use.

**Sawing function**  
The front section of the battery hedge trimmer can even cut thick branches easily.

**Blade tip guard**  
The built-in blade tip guard prevents damage to walls or the ground.

**Laser-cut, diamond-ground blade**  
For a clean and precise cut.

**36 V Kärcher Battery Power exchangeable battery**  
LCD display with Real Time Technology. And a long enough run time for cutting up to 600 m of hedge.

Technical data	HGE 36-60 Battery Set	HGE 36-60 Battery
Cutting length	60 cm	
Tooth pitch	26 mm	
Performance per battery charge*	Max. 600 m	
Weight without accessories	3.3 kg	
Dimensions (L×W×H)	1077×213×183 mm	
Accessories	Catcher plate	
Battery and battery charger	Battery Power 36/25 battery, Battery Power 36 V fast charger	Not included in the scope of supply
Order no.	1.444-251.0	1.444-250.0

\* Maximum performance with a 36 V/2.5 Ah Kärcher Battery Power exchangeable battery.

**1 Two-stage speed control**

- The power of the hedge trimmer can be adjusted to suit the application: at stage 1, the high speed enables precise, fast cutting for regular hedge maintenance. Stage 2 is ideal for high power when cutting thick branches and dense hedges.

**2 Rotatable handle**

- The rear handle can be flexibly adjusted from 0° to 180°, which simplifies both horizontal and vertical cutting.

**3 Blade tip guard with integrated hanging storage loop**

- The blade tip guard prevents the blade damaging buildings or the ground. And the battery hedge trimmer can be conveniently hung up on the wall thanks to the practical loop.

**4 Catcher plate**

- Transports the hedge cuttings to the ground instead of letting them fall into the hedge.

# LBL 2 BATTERY - SWEEPING USERS OFF THEIR FEET!

Leaves. While nice to look at in autumn, someone has to remove them - from pavements and driveways for safety reasons, and from lawns to prevent damage. Brooms and rakes powered by nothing but the strength of our muscles quickly reach their limits. But this is not the case for the powerful battery-powered leaf blowers from Kärcher! They are always there when you need them, regardless of where that might be, sit comfortably in the hand and remove leaves quickly and thoroughly.

**Effortless working**  
The perfect balance and ergonomic design of the device make it possible to use over long periods without tiring.

**18 V Kärcher Battery Power exchangeable battery**  
The powerful 18 V Kärcher Battery Power exchangeable battery grants the user complete freedom of movement and can also be used with other 18 V Kärcher Battery Power platform devices if required. Includes Real Time Technology.

**Space-saving storage**  
If necessary, the blow tube can simply be removed and stored separately.

**Familiar Kärcher power**  
The volume flow and air speed are perfectly balanced and ensure the powerful and efficient removal of leaves, garden cuttings and dirt from around the house.

**Uncompromising cleaning**  
The integrated scraper edge loosens wet leaves and compacted dirt.

Technical data	LBL 2 Battery Set	LBL 2 Battery
Air speed	Max. 210 km/h

# LBL 4 BATTERY - A BLOWER FOR TACKLING LEAVES

No matter where leaves pile up in the autumn, the LBL 4 Battery leaf blower powerfully and effectively clears them aside. When muscle strength or other tools reach their limits, it impresses thanks to two-stage power control and maximum user convenience.

**Two-stage power control**  
Depending on the difficulty of the cleaning task, users can switch between maximum run time and maximum performance.

**Effortless working**  
The perfect balance and ergonomic design of the device make it possible to use over long periods without tiring.

**36 V Kärcher Battery Power exchangeable battery**  
The powerful 36 V Kärcher Battery Power exchangeable battery with Real Time Technology grants the user complete freedom of movement. If required, it can also be used with other 36 V Kärcher Battery Power platform devices.

**Space-saving storage**  
If necessary, the blow tube can simply be removed and stored separately.

**Familiar Kärcher power**  
The volume flow and air speed are perfectly balanced and ensure the powerful and efficient removal of leaves, garden cuttings and dirt from around the house.

**Uncompromising cleaning**  
The integrated scraper edge loosens wet leaves and compacted dirt.

# CNS 18-30 BATTERY - POWERFUL YET MANAGEABLE

Thanks to its optimal weight distribution, the CNS 18-30 Battery chain saw impresses in all areas with its particularly convenient handling. And the brushless motor extends the run time and service life.

### 18 V Kärcher Battery Power exchangeable battery

LCD display with Real Time Technology. The battery can also be used in other 18 V platform devices.

### Safety lock release

Prevents unintentional start-up of the chain saw.

### Kickback protection

Maximum safety in the event of kickback because the chain is then stopped immediately.

### Automatic chain lubrication

For low-maintenance use of the battery chain saw. Users can also check the oil level at a transparent inspection window.

Provisional visualisation

### Chain tensioning without tools

The chain is simply tensioned using a knob.

### Bumper spikes

Safe guiding and precise cuts because the chain saw attaches to the material that is to be cut.

\* Maximum performance with an 18 V/2.5 Ah Kärcher Battery Power exchangeable battery.

# TLO 18-32 BATTERY - BRANCH CUTTING AT THE TOUCH OF A BUTTON

Cutting branches is now easier than ever before. The battery tree lopper and its high-quality bypass blade can be used to cut branches of up to 32 mm in diameter without the need for force and without damaging them, no matter how difficult they are to reach.

**Bypass blade**  
Cuts particularly fresh wood precisely and gently.

**Extensive reach**  
Branches at a height of up to 2.5 m can easily be reached.

**Rubber handle**  
For maximum comfort, especially when working for prolonged periods.

**Safety lock release**  
Prevents unintentional start-up of the tree lopper.

**18 V Kärcher Battery Power**  
The tree lopper can be powered by any 18 V Kärcher Battery Power battery.

Provisional visualisation

Technical data	TLO 18-32 Battery
Cutting power	250 Nm

\* Maximum performance with an 18 V/2.5 Ah Kärcher Battery Power exchangeable battery.

# GSH 18-20 BATTERY - PRECISION WORK MADE EASY

The compact 2-in-1 helper: the battery grass shears are used to cut the edges of garden lawns, flowerbeds, vegetable patches or patios, while the shrub shear takes the hassle out of cutting and shaping shrubs.

**Grass blade**  
Can be fitted to the grass & shrub shear at any time using the screw system.

**Rubber handle**  
Maximum comfort with ergonomic grip.

**18 V Kärcher Battery Power**  
The grass shears can be powered by any 18 V Kärcher Battery Power battery.

**Diamond-ground blades with double-sided cutting edges**  
For a clean and precise cut.

**Blade tip guard (shrub blade)**  
With integrated hanging storage loop for space-saving storage.

**Blade replacement without tools**  
The simple screw system makes it possible to switch between the shrub blade and grass blade without any hassle.

**Safety lock release**  
Prevents unintentional start-up of the grass & shrub shear.

Technical data	GSH 18-20 Battery
Shrub blade cutting length	20 cm
Shrub blade tooth pitch	10 mm
Grass blade cutting width	12 cm
Performance per battery charge*	Shrub blade: max. 450 m/grass blade: max. 650 m
Weight without accessories	1.2 kg
Accessories	Shrub blade 20 cm, grass blade 12 cm

Order no.	1.444-200.0

\* Maximum performance with an 18 V/2.5 Ah Kärcher Battery Power exchangeable battery.

# WRE 4 BATTERY - PROBLEMS WITH STUBBORN WEEDS? NOT ANY MORE!

The innovative brush head and tool-free changing system are at the core of our WRE 4 Battery weed remover. Its specially aligned bristles effectively, quickly and permanently remove weeds from cracks and crevices. Driven by a powerful motor, the brushes achieve high speeds that leave weeds no chance.

**Aluminium telescopic handle**  
Enables users of any height to work standing upright.

**Adjustable cleaning head**  
Facilitates work in difficult cleaning situations and for different user heights.

**Space-saving storage**  
Thanks to the integrated hanging storage loop, the device can be simply hung on a hook in the wall.

**18 V Kärcher Battery Power exchangeable battery**  
The cordless device gives users maximum freedom of movement. The 18 V exchangeable battery can also be used in other 18 V Kärcher Battery Power platform devices if required. Includes Real Time Technology.

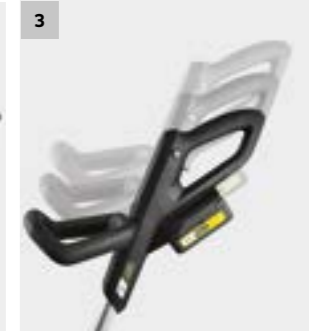

**Bristle replacement without tools**  
Guarantees easy changing of worn bristle strips.

**Thorough weed removal**  
Thanks to the innovative brush head with specially aligned bristles and a high brush speed, unwelcome weeds and stubborn moss can be removed quickly and thoroughly.

**Parking position**  
During breaks in working, the device can be safely set down on the guard.

Technical data	WRE 4 Battery Set	WRE 4 Battery	Special accessories

Accessories	Bristle strip		
Battery and battery charger	Battery Power 18/25 battery, Battery Power 18 V standard charger	Not included in the scope of supply	
Order no.	1.445-241.0	1.445-240.0	

\* Maximum performance with an 18 V/2.5 Ah Kärcher Battery Power exchangeable battery.

**1 Many potential applications**

- The WRE 4 Battery thoroughly removes moss and weeds from crevices and cleans moss from hard surfaces such as interlocking stones, cobblestone, exposed aggregate concrete slabs and tiles.

**2 Variable adjustment**

- The swivelling brush head can be individually adjusted to suit different cleaning situations and different user heights.

**3 Comfortable working posture**

- The aluminium telescopic handle enables an upright working position for users of any height.

**4 Cleaning right up to the edge**

- Thanks to its cone-shaped design, the brush head gets into the edges perfectly. This allows weeds along curbs, steps, garden walls and house walls to be completely removed.

# KHB 5 BATTERY - CLEANING UNPLUGGED

Just connect the hose and you are ready to go: that's how convenient this new kind of outdoor cleaning is - with the innovative KHB 5 Battery. Thanks to the compact arrangement of the pump, motor and battery, the entire cleaning device is effortless to hold, thereby offering maximum flexibility. The efficient and gentle medium pressure makes the KHB 5 Battery ideal for quick intermediate cleaning of garden devices, garden furniture, bicycles, motorbikes and many more areas of application around the house, and other optional accessories like the surface cleaner, spray lances and suction hose can be added to make the pressure washer even more flexible.

**Child safety lock**  
A lock can be activated which makes it impossible to accidentally operate the trigger.

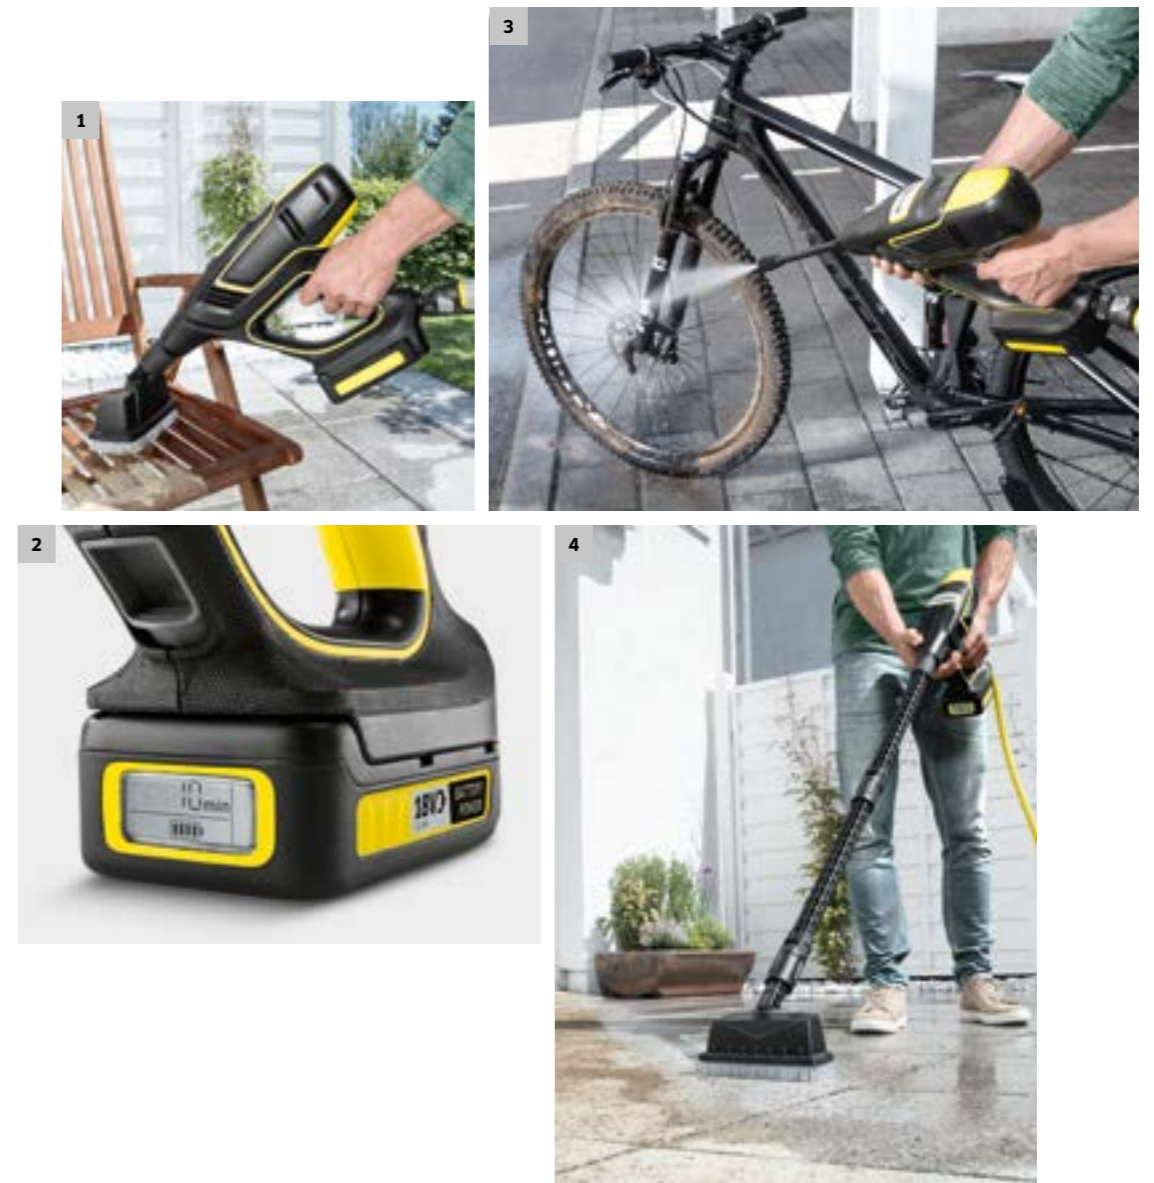

**Garden hose connector**  
For easily connecting the garden hose to the device.

**Bayonet connection**  
Enables convenient changing and removal of spray lances or accessories.

**Cleaning with medium pressure**  
Efficient, but gentle - even goes easy on delicate surfaces.

**Battery release latch**

**18 V Kärcher Battery Power exchangeable battery**  
Cleaning without a power connection. Includes Real Time Technology.

- 1 Innovative device design**
  - The cleaning device is handheld. For excellent flexibility and freedom of movement.
  - Can be stored compactly.
- 2 Battery-powered**
  - Cleaning without a power connection.
  - With innovative Real Time Technology: the battery display indicates the remaining run time.
  - Compatible with 18 V Kärcher battery platform batteries
- 3 More efficient and optimally adjusted medium pressure**
  - Medium pressure has the advantage of being efficient as well as gentle on the surface.
  - Adapted flat jet nozzle and rotary nozzle for cleaning objects that do not require high pressure.
- 4 Optional accessories**
  - PS 20 Handheld power scrubber for surface cleaning.
  - MJ 24 Handheld 5-in-1 multi jet with five different spray patterns.
  - VJ 24 Handheld 360° variable spray lance for even greater flexibility in cleaning.
  - Suction hose SH 5 Handheld for cleaning without a water connection.

# K 2 BATTERY - FAR AWAY FROM THE POWER OUTLET. RIGHT UP CLOSE TO THE DIRT.

The battery-powered pressure washer is ideally suited to versatile cleaning thanks to its 36 V/5.0 Ah battery from the Kärcher battery platform. For cleaning small cars, motorbikes, bicycles and boats, as well as completing smaller cleaning tasks around the house; all without a power connection. Thanks to its three different power levels, this product can be used to clean flexibly for up to 14 minutes.

**36 V Kärcher Battery Power exchangeable battery**  
Cleaning without a power connection. Includes Real Time Technology.

**Spray lance storage**  
The spray lances can be clipped onto the back of the device for storage purposes.

**Detergent suction hose**  
This enables Kärcher detergents to be dispersed using the pressure washer - for even more efficient cleaning.

**The right power level for every requirement**  
Boost mode for stubborn dirt, standard mode for various different applications, and a longer battery run time and mixed mode for when you use detergent.

**Quick Connect adapter**  
To easily attach the high-pressure hose.

Technical data	K 2 Battery Set	K 2 Battery	Special accessories	
Pressure		Max. 110 bar	SH 5 suction hose	Order no. 2.643-100.0

Dimensions (L x W x H)		245 x 303 x 629 mm		
Battery and battery charger	Battery Power 36/50 battery, Battery Power 36 V standard battery charger	Not included in the scope of supply		
Order no.	1.117-220.0	1.117-200.0		

\* Maximum performance with a 36 V/5.0 Ah Kärcher Battery Power exchangeable battery.

- 1 Battery-powered**
  - Enables cleaning without a power connection. Compatible with the 36 V/5.0 Ah battery from the 36 V Kärcher Battery Power battery platform.
- 2 Trigger gun with analogue display**
  - Displays whether the user is currently in standard, boost or mix mode.

- 3 Capable of suction**
  - Compatible with the Kärcher water suction hose for cleaning, regardless of whether a water connection is available. The water suction hose can be purchased separately.
- 4 Detergent suction hose**
  - Using the integrated detergent suction hose, Kärcher detergents can be conveniently applied using the trigger gun in mix mode.

# WD 1 COMPACT BATTERY - CORDLESS VACUUM CLEANER. A CAR WITH NO DIRT.

Need to quickly vacuum your car? This is the perfect job for the compact, portable 18 V battery multi-purpose vacuum cleaner with accessories suitable for interior car cleaning.

### Maximum freedom of movement and immediately ready for use

Need to vacuum clean a car with no power outlet nearby? Not a problem thanks to the cordless multi-purpose vacuum cleaner.

### Practical blower function

Hard-to-reach areas can simply be blown clean.

### Practical accessories and storage

Special accessories for interior car cleaning can be conveniently stored on the device, always within easy reach. In addition, the suction hose can be conveniently attached to the device with an elastic strap.

### Compact design

Low weight and a portable, compact design make the WD 1 Compact Battery a miniature powerhouse.

### 18 V Kärcher Battery Power exchangeable battery

Simple, fast and convenient to change, and with an integrated LCD display to check the battery status (Real Time Technology). 10 minutes of suction power thanks to the powerful Battery Power technology.

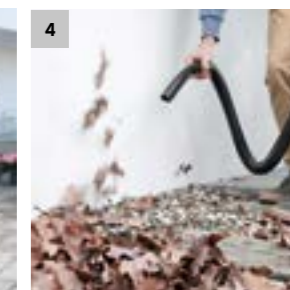

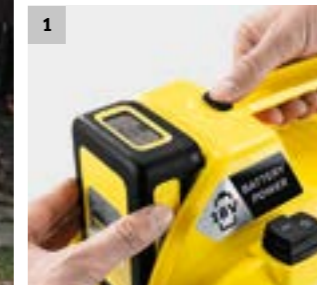

### Cartridge filter

Wet and dry vacuum cleaning without having to change the filter - quick and easy. Also suitable for vacuuming small amounts of water.

\* Maximum performance with an 18 V/2.5 Ah Kärcher Battery Power exchangeable battery.

### 1 Battery operation

- Makes it possible to work without the need for a power supply and therefore provides maximum freedom of movement.
- With a powerful lithium-ion Battery Power exchangeable battery, the device can run for a maximum of 10 to 20 minutes.
- Simple and convenient: the 18 V Battery Power exchangeable battery system.

### 2 Compact, portable design

- Low weight, convenient transportation and individual and flexible use.
- Accessory storage directly on the device - always within reach.
- Practical hose storage with elastic strap.

### 3 Special accessories

- Practical cartridge filter for wet and dry vacuum cleaning without having to change the filter - quick and easy.
- Ideal accessories for interior car cleaning and good cleaning results, no matter whether the dirt is dry or wet, fine or coarse.

### 4 Practical blower function

- Where vacuuming is not possible, the practical blower function can be used.
- Ideal for blowing dry leaves in hard-to-reach areas.

# WD 3 BATTERY - NO CABLE. NO LIMIT.

Car, garden shed, patio and anywhere else that does not have a power outlet nearby: the new WD 3 Battery multi-purpose vacuum cleaner offers maximum freedom of movement and even effortlessly vacuums small amounts of water.

**WD 3 Premium Battery Set**  
With stainless steel container

**36 V Kärcher Battery Power exchangeable battery**  
15 minutes of battery run time thanks to powerful lithium-ion Battery Power technology. The battery is quick and simple to change and includes Real Time Technology: the integrated LCD display indicates the battery status at all times.

**Practical blower function**  
Hard-to-reach areas can simply be blown clean.

**Practical accessory storage**  
Accessories can be conveniently stored on the device, always within reach.

**Maximum freedom of movement and immediately ready for use**  
No irritating cable - ready to use anywhere where there is no power connection available. Just insert the battery and you're ready to go!

**Removable handle**  
The ergonomically shaped handle can be easily detached from the suction hose so that other accessories can be attached instead (e.g. crevice nozzle).

**Cartridge filter**  
The filter does not need changing between wet and dry applications.

**Extremely robust**  
17-litre stainless steel container for vacuuming large amounts of dry dirt or small amounts of water.

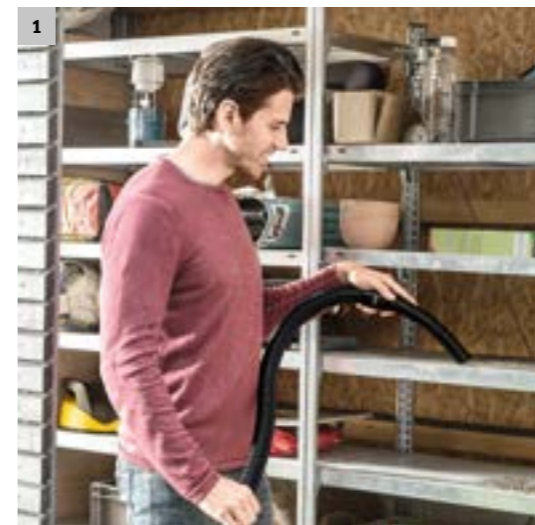

**Special accessories**  
Clips floor nozzle and crevice nozzle for optimal cleaning results.
