

KÄRCHER

makes a difference

ROBUST, EASY-TO-USE MACHINE WITH HIGH AREA PERFORMANCE.

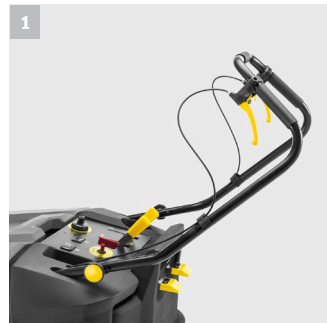

Impresses in tough applications in the industrial environment.

KM 85/50 W Bp

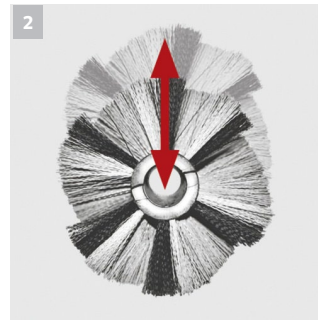

Robust, easy-to-use machine with high area performance.

Robust, designed with a double-walled frame and swerving side brush, the battery-operated walk-behind sweeper KM 85/50 W Bp impresses in tough applications in the industrial environment. The reliable and compact machine is comfortable and intuitive to operate via a push handle, has forward and reverse traction drive and cleans up to 4725 m²/h with use of the optional side brush on the left. The floating sweeper roller is automatically adapted to the ground, thus also ensuring excellent results on uneven terrain or in the case of large volumes of dirt. A large flat pleated filter makes possible virtually dust-free work, whereas a dual scraper guarantees effective cleaning. The main sweeper roller and filter are very simple to change without the need for any tools. This and many other details, such as a disc brake and the Kärcher Home Base for simple carrying of additional cleaning utensils, round off the successful overall concept.

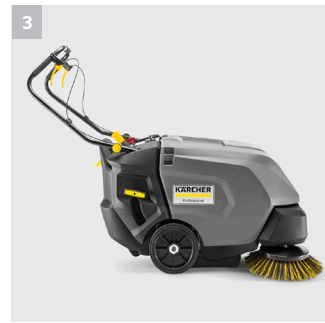

1 Forward and reverse traction drive via the push handle.

- Intuitive, simple and user-friendly operation..
- Maximum manoeuvrability of the machine.
- Standard disc brake for safe deceleration at all times.

2 Floating main sweeper roller.

- Excellent dirt pick-up also in the case of bumps/unevenness.
- No wear adjustment required.
- Efficient and fast cleaning.

3 Robust and reliable for tough applications.

- Sturdy, double-walled rotary frame.
- Swerving side brush prevents damage.
- Large wheels for enhanced operating comfort.

4 Efficient filter system.

- Large flat pleated filter with total filter area of 2.3 m².
- Washable polyester filter.
- Superb cleaning thanks to dual scraper and horizontal installation position.

Technical data and equipment

KM 85/50 W Bp

- = Large flat pleated filter.
- = Floating sweeper roller brush.
- = Easy-to-use machine.

Technical data
