

KÄRCHER

makes a difference

PRODUCT UPDATE 2020

Home & Garden

BRING BACK THE WOW

Everyone knows the feeling of enthusiasm that you have when things are new; when you have created something, that feeling that fills you with joy: in 2020, we will bring the WOW back together! With cleaning solutions that are so well-designed they make things look like new and can even save you time. For example, with the FC 7 Cordless floor cleaner, which removes all kinds of everyday dirt in one go, including hair and other coarse dirt, and leaves a freshly cleaned floor. Those whose customers value particularly hygienic results should opt for the SC 3 Upright EasyFix, the steam mop with gentle settings for all hard floors – without any chemicals at all. Perfectly clean results on smooth surfaces are achieved by the new Window Vacs with extended battery run time. For all those who have maximum freedom of movement at the top of their list, Kärcher will be offering more battery-powered garden tools in 2020. From powerful hedge trimmers, leaf blowers and blower vacs, lawn mowers and trimmers to chain saws that feature superior lithium-ion batteries with Real Time Technology. In the winter, those in a hurry can reach for the EDI 4 ice scraper, which can quickly and easily remove stubborn ice from windscreens in just one step.

That's how to start off every day of the year well. **WOW!**

GALACTIC POWER. INFINITE POSSIBILITIES.

No power connection in your outside area? Want to avoid a clutter of cables in your garden? This is no problem for the new battery-powered garden and cleaning devices with the Kärcher Battery Power exchangeable battery system. Thanks to two different battery platforms (18 V or 36 V), we can offer you the right device for any performance requirement and any application.

1 18 V Kärcher Battery Power battery platform

The 18 V Kärcher Battery Power battery platform includes compact and handy products for caring for small and medium-sized gardens and outdoor areas. The 18 V Kärcher Battery Power exchangeable battery is available in two versions with different capacities: 18 V/2.5 Ah and 18 V/5.0 Ah. Both versions can be used in all 18 V devices, be they Kärcher battery lawn mowers, battery multi-purpose vacuum cleaners or battery hedge trimmers. The batteries can be changed quickly and easily and can therefore be used flexibly at any time.

2 36 V Kärcher Battery Power battery platform

For large gardens and outdoor areas, the 36 V Kärcher Battery Power battery platform boasts powerful devices from various categories for cleaning tasks and gardening work. The devices on this platform are compatible with the 36 V Kärcher Battery Power batteries: the 36 V/2.5 Ah Kärcher Battery Power battery and the 36 V/5.0 Ah Kärcher Battery Power battery. These batteries can be used to operate Kärcher battery devices such as lawn trimmers, pressure washers or chain saws. For the highest standards of flexibility, mobility and power.

1 Real Time Technology

The unparalleled Kärcher Real Time Technology provides users with the best possible information. Unlike conventional LED displays, this technology provides a detailed display of the operating status and charge level.

2 Remaining running time in minutes

Users are provided with continuously updated information regarding the remaining running time during use and therefore know when the battery needs to be changed or charged, down to the minute. The running time adapts to the specific device.

3 Remaining charging time in minutes

The remaining charging time is shown on the display during the charging process. This ensures that users can know exactly when they can start work again.

4 Battery capacity as a percentage

The battery capacity can be read at a glance during storage.

5 Automatic storage mode

Increased battery lifetime thanks to processor-based automatic storage mode.

6 Splash-proof

The battery has IPX5 protection from splashes and is therefore perfectly suited for outdoor use.

BECAUSE HOME BEGINS OUTSIDE

Since our lives do not play out solely indoors, we naturally want it to look clean and tidy around the house and in the garden as well. This is why Kärcher offers a wide range of products for cleaning, maintaining and retaining value in outside areas – and has the ideal solution for every task. For example, with the innovative products for mobile cleaning with water. Or in garden care with the new Kärcher garden tools. Whether it is lawn, hedge and tree care or leaf removal, Kärcher garden tools make gardens even more beautiful.

1 KHB 6 Battery

The handheld battery-powered medium-pressure washer for quick intermediate cleaning without a power connection.

2 OC 3 Plus

The portable pressure cleaner with a lithium-ion battery and 7-litre water tank for mobile use. Easy to transport and stow away. Includes flat jet for delicate surfaces.

3 WBS 3 water booster

The innovative Kärcher WBS 3 cleaning spray gun with rotation jet. Quickly cleans lightly soiled plant pots, furniture and tools in the garden.

4 Electric ice scraper

With its rotating disc, the EDI 4 electric ice scraper even gets rid of ice that has completely frozen over car windscreens, effortlessly and in one go.

5 The perfect season for sweeping is: always

Whether it is for petals in the spring, sand in the summer, leaves in the autumn or grit in the winter: the effective and ergonomic S 4 sweeper from Kärcher ensures that your house and garden are spotlessly clean all year round, in record time.

6 Garden tools

Whether it is lawn, hedge and tree care or leaf removal, Kärcher garden tools make gardens even more beautiful. And battery operation means that there are no annoying cables.

FROM POWERFUL TO GENTLE: ALWAYS "MADE-TO-MEASURE"

Kärcher portable pressure cleaner offer the perfect solution for every cleaning task. Where previously dirt reigned supreme, afterwards there is nothing but cleanliness. With Kärcher, you upgrade your home environment and restore value to your possessions: from old to new, from shabby to chic. Passionate engineering, the highest standards of quality and decades of experience in developing innovative pressure washers make this possible.

1 Outstanding cleaning performance

Compared with the competition, Kärcher pressure washers are distinguished by a greater stripping performance and cleaning efficiency. In short: cleaning is much faster, saving up to half the time and therefore half the energy and water, as confirmed by regular tests carried out by Kärcher. The Kärcher test design was scientifically monitored by the Fraunhofer IPA Institute.

2 Quality products – made in Germany

As the inventor of high-pressure cleaning, Kärcher has unique specialist knowledge, the breadth and depth of which is unrivalled in the marketplace. For over 60 years, Kärcher has been perfecting the art of high-pressure cleaning and is constantly in the spotlight on account of its outstanding innovations. As the global market leader, we offer the most reliable pressure washers on the market. We manufacture all of our devices in our own factories to the highest production standards. Before the products leave the factories, their functionality and performance are fully tested. That is why we can always guarantee to our customers that they are purchasing perfect products which speak for themselves in terms of their performance capabilities and long service life.

3 Water savings

In direct comparison to a water hose, Kärcher pressure washers save up to 3,100 litres per hour and thus consume about 80% less water.

4 Versatility is the name of the game

Kärcher offers the largest range of accessories and detergents on the market, and therefore opens up unlimited application possibilities for high-pressure cleaning. Kärcher has the right solution for almost any cleaning challenge. One good example: Kärcher surface cleaners. They cut cleaning times for horizontal and vertical areas in half – and without annoying spray water.

5 Customer focus

In order to understand our customers' needs, we regularly carry out large-scale customer surveys. The findings we gain from this are then systematically used to develop new products. We also work towards the constant improvement of our devices. The result is innovation: 90% of all Kärcher products on the market are less than 5 years old.

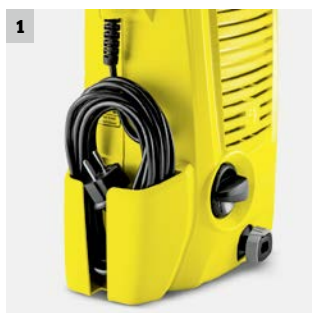

In addition, Kärcher is a system provider – pressure washers of different performance classes, a diverse range of detergents and appropriate accessories offer the ideal package for every task.

K 2 UNIVERSAL EDITION

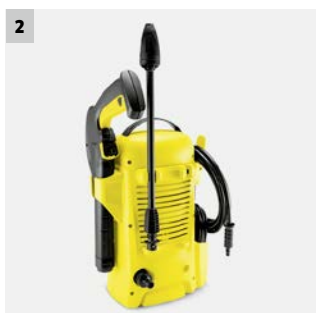

Compact, powerful and universal

The compact K 2 Universal Edition pressure washer is the ideal aid for occasional cleaning of light dirt around the home.

1 Integrated cable slot

- Power cable can be stowed away neatly and in a space-saving manner.

2 Convenient accessory storage

- The high-pressure hose, spray lance and trigger gun can be easily stowed away by attaching them to the device.

3 Quick Connect system

- The high-pressure hose can be connected/disconnected to/from the device and trigger gun simply and quickly.

4 Lightweight with compact dimensions

- Device can be easily carried and transported.

PERFECT EQUIPMENT - PERFECT CLEANLINESS

The Kärcher range of special accessories offers the optimum solution for every surface – whether it is large or small, horizontal or vertical, and no matter what material it is made of. Even awkwardly shaped areas and stairs are no problem. Stubborn dirt can be removed quickly and efficiently.

1 T-Racer surface cleaners

The T-Racer surface cleaners break down dirt across large areas with their twin jet rotating arm. This allows you to clean around twice as fast as with a spray lance. The hood reliably protects the operator and surroundings from spray water. Even surfaces such as wood are no problem as the distance between the high-pressure nozzles and the cleaning surface can be adjusted accordingly. Thanks to the innovative rinsing nozzle on the T 7 Plus, the loosened dirt is simply washed away from the surface – saving time and effort.

2 PS 30 power scrubber

By combining a high-pressure jet and manual brush pressure, the PS 30 offers many times the cleaning performance of a normal manual scrubber. Even the most stubborn dirt can be removed quickly and effortlessly from a wide variety of surfaces. Ideal for cleaning small to medium-sized areas, as well as corners and edges, thanks to its compact shape. The residual water is quickly and easily removed with the integrated squeegee blade.

SURFACE CLEANERS

The T-Racer surface cleaners make cleaning a wide variety of exterior surfaces quick, efficient and spray-free. They clean in around half the time needed by a spray lance. In addition, the T-Racers are particularly easy to manoeuvre. The distance of the high-pressure nozzles to the surface being cleaned can be adjusted accordingly for optimum cleaning of various floor coverings, such as stone and wood. The T 7 Plus has an innovative rinsing nozzle which can be used to easily rinse loosened dirt from the cleaned surface. The extra power nozzle also allows for effective cleaning in corners. The power scrubber, with its practical squeegee blade and rotatable head, facilitates cleaning surfaces with many corners and edges – such as stairs – and also on all smaller surfaces.

KÄRCHER TO GO. ANY TIME. ANY PLACE.

When there is no power outlet nearby: with the battery-powered, mobile cleaning solutions from Kärcher in the mid- to low-pressure range, cleanliness will know no bounds, not even outdoors.

1 KHB 6 Battery – handheld battery power

The KHB 6 Battery with 18 V exchangeable battery system is the perfect solution for quick and flexible cleaning around the home, independent of the mains. With efficient but gentle medium pressure, you can thoroughly clean garden furniture, toys, bicycles and small patio areas. The innovative device is comfortable to hold, immediately ready to use once the hose is connected and can be flexibly extended using a variety of spray lances and accessories.

2 OC 3 Plus – cleanliness for when you're out and about

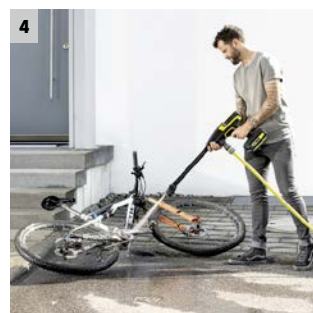

From hiking boots to buggies and bicycles: keep everything sparkling clean while out and about with the OC 3 Plus – and even the car can avoid getting dirty. The mobile cleaner is equipped with a powerful lithium-ion battery as well as a removable water tank. Thanks to the gentle low pressure, even delicate objects are not damaged during cleaning. Three specific accessory boxes available as options enable even more effective cleaning. Each box can be attached to the bottom of the device. Further practical accessories such as a suction hose, or the cone jet nozzle for dog cleaning, make the OC 3 Plus even more versatile.

KHB 6 BATTERY

Always ready to hand

The KHB 6 Battery lightweight handheld medium-pressure washer for fast intermediate cleaning is immediately ready for use, without requiring long preparation. Moreover, its rotary and flat jet nozzles make it extremely versatile.

1 18 V Kärcher Battery Power exchangeable battery

- Real Time Technology with LCD battery display: remaining running time, remaining charging time and battery capacity.
- Long-lasting and powerful thanks to lithium-ion cells.
- Compatible with all devices on the 18 V Kärcher Battery Power battery platform.

2 More efficient and optimally adjusted medium pressure

- A maximum of 24 bar for efficient, mobile and easy intermediate cleaning.
- Easily interchangeable Quick Connect nozzles.
- Flat jet nozzle for gentle cleaning and rotary nozzle for more stubborn dirt are included in the scope of supply.

3 Lightweight and innovative device design

- Optimum freedom of movement and flexibility when cleaning.
- Handheld, battery-powered medium-pressure washer for intermediate cleaning.
- With the suction hose, which is available separately, no water connection is required.

4 Accessories for a wide range of applications

- For stairs and smaller areas: the PS 20 handheld.
- The MJ 24 handheld combines five nozzles in one spray lance for cleaning and watering.
- For areas that are difficult to access: the 360° joint on the VJ 24 handheld.

VJ 24 handheld 360° variable spray lance	2.644-057.0	Variable spray lance with adjustable 360° joint: the VJ 24 handheld for Kärcher handheld Cleaners is ideally suited to cleaning hard-to-reach areas.	

■ NEW

OC 3 PLUS MOBILE OUTDOOR CLEANER

The compact solution for bigger cleaning tasks on the go

The OC 3 Plus mobile outdoor cleaner with integrated battery and 7-litre water tank effortlessly tackles larger cleaning tasks on the go and is easy to transport.

NEW

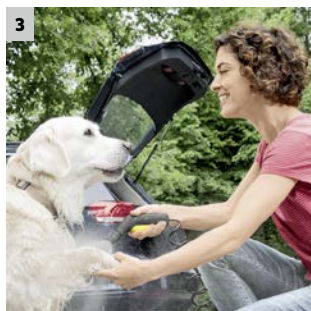

1 Compact device design

- Convenient storage of the spiral hose and trigger gun under the removable water tank.
- Easy to transport, with space-saving storage.

2 Integrated lithium-ion battery

- Mobile cleaning independent of a power source.
- Long battery run time, meaning it can be used several times before it must be recharged. The LED warns you when the battery is low.

3 Efficient, but gentle low pressure

- Low pressure offers the advantage that cleaning is both efficient and extremely gentle at the same time.
- The standard nozzle with flat jet enables visible cleaning performance. The cone jet nozzle is ideal for more sensitive cleaning, for example of dog paws.

4 Wide range of accessories

- Various applications can be expanded and perfected with additional accessories.
- An adventure box, bike box and pet box, as well as a practical storage box, are available and can be mounted on the device. All accessories are also available individually.

IT DOES NOT LEAVE ANYONE OUT IN THE COLD: THE NEW EDI 4

The EDI 4 electric ice scraper finally puts an end to the strenuous task of scraping off ice bit by bit. With its rotating disc and six sturdy plastic blades, the ice scraper even gets rid of ice that has completely frozen over car windscreens, effortlessly and in just one go.

1 Effortless removal of stubborn ice

With the ice scraper's rotating disc, even stubborn ice can be effortlessly removed from car windows in just one go.

2 Simple operation

Applying slight pressure from above makes the scraper disc start to rotate, with the ice then coming away by itself.

3 All-over ice removal

Suitable for both the windscreen and the side windows of the car.

4 Compact design

The modern and compact design of the ice scraper allows easy and safe handling and storage.

5 Integrated li-ion battery

One battery charge is sufficient for several applications.

EDI 4

Effortless de-icing of car windcreens

The EDI 4 electric ice scraper quickly ensures an unobstructed view. Removes even stubborn ice from car windcreens in a single pass with its rotating disc and six sturdy plastic blades.

NEW

1 Rotating disc with sturdy plastic blades

- The impact-resistant scraper disc eliminates even stubborn ice effortlessly.

2 Attachment change is possible

- The scraper disc can be replaced quickly and easily without any tools.

3 Easy handling

- Applying slight pressure from above makes the scraper disc start to rotate.

4 LED display on the device

- The integrated LED flashes when the device needs to be charged.

THE PERFECT SEASON FOR SWEEPING IS: ALWAYS

Whether it is for petals in the spring, sand in the summer, leaves in the autumn or grit in the winter: the effective and ergonomic S 4 and S 6 sweepers from Kärcher keep the house and garden tidy all year round, in record time.

1 High cleaning performance

Thanks to the powerful roller brush, the side brush and the large sweeping width, the S 6 Twin effortlessly sweeps areas of up to 3,000 m² in one hour.

2 Cleanliness down to the last detail

The long bristles on the side brushes of our manual sweepers ensure thorough cleaning on edges.

3 Ready to use in no time

Thanks to the practical cap, the side brush can be attached and changed without tools. The sweeper is thus quickly assembled and ready for use.

4 Easy removal

The waste container reliably picks up the dirt when sweeping. It can be easily removed for emptying: lift up, empty, done! Without any contact with dirt.

5 Flexible and comfortable

The push handle on the sweepers is height-adjustable and can be completely folded down if necessary.

6 Flexible height adjustment of the side brushes

Optimum sweeping results for the most varied types of dirt, as the contact pressure of the S 6 and S 6 Twin can be individually adjusted.

7 Simple and compact

All Kärcher sweepers can be stowed in a space-saving manner with little effort: if required, the S 6 and S 6 Twin sweepers can be completely folded down by simply stepping on the frame footplate, without having to bend down. For space-saving, upright storage.

S 6 TWIN

The best season for sweeping: always

Ready for use on different types of dirt on large surfaces around the house all year round. The S 6 Twin has two height-adjustable side brushes, a 38 l waste container and a 860 mm sweeping width.

NEW

1 Practical cap for side brush

- Tool-free side brush attachment for rapid set-up and deployment.

2 Convenient footplate

- Collapse sweeper fully without stooping – for space-saving storage.

3 Flexible height adjustment of the side brushes

- Individually adjustable contact pressure for different types of dirt.

4 Large waste container

- Frequent emptying of waste container is not necessary.

BRING BACK THE WOW TO YOUR KINGDOM

Whether it is lawn, hedge and tree care or leaf removal, Kärcher garden tools make gardens even more beautiful. And thanks to battery operation, there are no annoying cables.

1 Battery lawn mowers

The manoeuvrable 18 V lawn mowers are especially suitable for small to medium-sized lawns. For larger lawn areas, the powerful 36 V lawn mowers are the ideal choice.

2 Battery lawn trimmers

The Kärcher battery lawn trimmers ensure neatly cut corners and a perfect lawn edge. From easy to powerful, Kärcher offers the right solution for every area of application.

3 Battery hedge trimmers

Perfect for shaping and trimming hedges and bushes: the ergonomic battery hedge trimmers from Kärcher. And thanks to battery operation, they are quiet, practical and there is no bothersome cable.

4 Battery grass & shrub shear

All lined up: the battery-powered GSH 18-20 Battery 2-in-1 grass & shrub shear cuts lawn edges with precision and trims shrubs into elegant shapes.

5 Battery chain saws

With simple chain tensioning, automatic chain lubrication and powerful cutting performance, the Kärcher battery chain saws achieve excellent results and are convenient to operate.

6 Battery tree lopper

Effortless tree maintenance; even hard-to-reach branches are no problem for the battery tree lopper from Kärcher and its high-quality bypass blade.

7 Battery leaf blower and blower vacs

Take the autumn garden by storm. The battery-powered Kärcher leaf blower and blower vacs ensure tidy paths and gardens in no time at all.

LMO 36-46 BATTERY

Mowing uphill with a spring in your step

The LMO 36-46 Battery lawn mower ensures precision and reliable mowing, and its rear-wheel drive assists with mowing up slopes at the touch of a button. Battery and fast charger are included in the set.

1 Push assist rear-wheel drive

- Additional drive at the push of a button – for effortless mowing even on inclines.

2 Mows up to the edge of the lawn

- The lawn combs automatically catch the grass growing right up to the edge.

3 2-in-1 mowing system

- The cut grass is efficiently collected in the grass catcher bag during mowing.
- Mulching function: by using the mulching plug, the cut grass is spread over the lawn as natural fertiliser.
- Sharpened steel blade for clean cuts without any jagged blades of grass.

4 Central cutting height adjustment

- The cutting height can be adjusted centrally to five different positions.

LMO 36-40 BATTERY

A lot can be done in a little time

Broad cutting width and large grass catcher bag capacity make it possible to work with the LMO 36-40 Battery lawn mower for long intervals without breaks. Battery and fast charger are included in the set.

1 Mows up to the edge of the lawn

- The lawn combs automatically catch the grass growing right up to the edge.

2 Large grass catcher bag

- Its large volume means it needs to be emptied less frequently, letting you work without any interruptions.
- The grass catcher bag can be folded down extremely small and takes up very little space when stowed on the lawn mower.

3 2-in-1 mowing system

- The cut grass is efficiently collected in the grass catcher bag during mowing.
- Mulching function: by using the mulching plug, the cut grass is spread over the lawn as natural fertiliser.
- Sharpened steel blade for clean cuts without any jagged blades of grass.

LTR 36-33 BATTERY

The powerhouse for a well-maintained lawn

With its continuously variable speed control and adjustable cutting diameter, the LTR 36-33 Battery tackles even tall grass with ease. Battery and fast charger are included in the set.

1 A lawn-trimming powerhouse

- The powerful lawn trimmer also cuts through long grasses and stubborn weeds and overgrowth.

2 Efficient cutting system

- The cutting line makes light work of corners and tight spaces in the garden.
- The twisted line guarantees a precise cut and quiet operation.

3 Continuously variable speed adjustment

- Adaptive power control to suit every type of operation.

4 Practical plant protector

- Protects plants from damage when trimming alongside flowerbeds and close to trees.

LTR 18-25 BATTERY

Lawn trimming made easy

While it is lightweight and easy to carry, the LTR 18-25 Battery is still powerful and easy to manoeuvre, cutting beautifully clean lawn edges all round. Comes in a set with battery and battery charger.

1 Efficient cutting system

- The cutting line makes light work of corners and tight spaces in the garden.
- The twisted line guarantees a precise cut and quiet operation.

2 Edge cutting

- Rotatable trimmer head for clean, crisp lawn edges along patios and paths.

3 Lightweight

- The device's low weight takes the hard work out of trimming the lawn.

4 Automatic trimmer line extension

- Automatic adjustment guarantees the line is always the ideal length for the job.

HGE 36-60 BATTERY

Get stuck into the hedge

The HGE 36-60 Battery set can do the job. With its diamond-ground blades, sawing function, rotatable rear handle, hedge broom and two-step speed control, hedges will soon be your favourite place to work.

1 Two-step speed control

- Depending on the application, users can choose between maximum speed and maximum power.
- Level 1: high speed. Ideal for precise contour cuts.
- Level 2: high power. Ideal for cutting back thicker branches and dense hedges.

2 Rotatable rear handle

- The handle can be rotated by 180° through several different positions, providing a comfortable working position.

3 Hedge broom

- Conveniently sweeps the hedge cuttings, which would normally fall into the hedge, along the ground in front of the user.

4 Sawing function

- Particularly practical for hedges with occasional thicker branches.

PHG 18-45 BATTERY

Not scared of heights

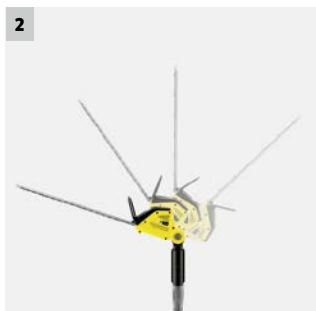

The PHG 18-45 Battery has its sights set high and can cut elegantly even at great heights, with a range of up to 4 metres per extension insert and an adjustable cutting head.

1 Extension pole

- For cutting tall hedges with ease. With quick-release closures and space-saving storage.

2 Adjustable cutting head

- With a choice of four tilt angle options up to 115° for cutting a wide variety of different hedge shapes.

3 Hedge broom

- The hedge cuttings conveniently land in front of rather than in the hedge.

4 Sawing function

- Can even cut through thicker branches thanks to the integrated Sawing function.

GSH 18-20 BATTERY

Precision work made easy

The compact battery grass & shrub shear is ideal for gardeners with an eye for detail, cutting precise lawn edges using the grass blade. Moreover, shrubs can be perfectly shaped by changing to the shrub blade.

1 2-in-1 function

- Effortless switching between grass and shrub blades, as needed for the job in hand.

2 Blade replacement without tools

- Thanks to the intelligently designed screw system.

3 Diamond-ground blades with double-sided cutting edges

- Produces precision results.

4 Blade tip protector and hanging loop

- For space-saving storage.

TECHNICAL DATA AND EQUIPMENT

GSH 18-20 Battery

- Battery-powered, battery and battery charger available as optional accessories
- Compatible with the Kärcher 18 V Battery Power platform
- 2-in-1 function: switching between grass and shrub blades is effortless

CNS 36-35 BATTERY

Very strong and extremely handy

With its excellent chain speed and long blade, the powerful CNS 36-35 Battery provides the perfect performance for more robust tree maintenance work.

1 Tool-less chain tensioning

- The chain is simply tensioned using a knob.

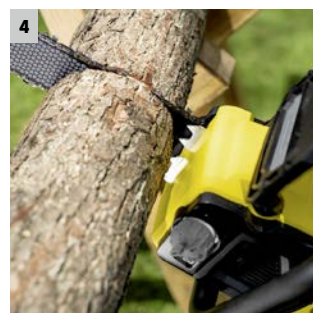

2 Automatic chain lubrication

- For low-maintenance use of the battery chain saw.

3 Kickback protection

- The chain stops immediately – for maximum safety in the event of kickback.

4 Bumper spike

- Safe guiding and precise cuts because the chain saw attaches to the material that is to be cut.

TECHNICAL DATA AND EQUIPMENT

CNS 36-35 Battery

- Ideal for carrying out maintenance work on thicker branches or for felling small trees
- User-friendly settings and operation
- Chain brake and safety lock release for safe use

TLO 18-32 BATTERY

Effortless branch cutting

Cutting branches is now easier than ever before. The battery tree lopper and its high-quality bypass blade can be used to cut branches up to 3 cm in diameter without the need for force and without damaging them, no matter how difficult they are to reach.

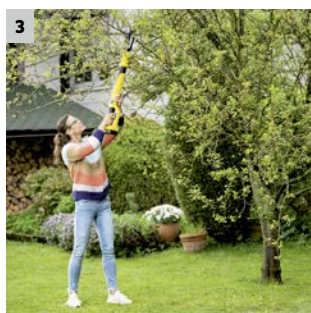

1 18 V Kärcher Battery Power battery platform

- The device can be powered by any 18 V Kärcher Battery Power battery.

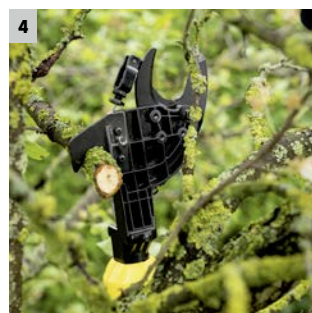

2 Bypass blade

- Cuts particularly precisely and without the need for force.

3 Extensive reach

- Even reaching higher branches is no problem.

4 Hook acts as a clamp

- Thanks to the hook that also acts as a clamp, you can remove branches that have become stuck in the tree.

TECHNICAL DATA AND EQUIPMENT

TLO 18-32 Battery

- Trim even hard-to-reach areas effortlessly and easily
- No force needed when trimming thanks to the bypass blade

BLV 36-240 BATTERY

An entire clean-up team in a single device

The powerful BLV 36-240 Battery blower vac blows, vacuums and chops even wet leaves and green waste at up to 240 km/h. Suction and blow tubes can be removed separately.

1 Suction and blow tubes can be removed individually

- Fatigue-free work thanks to weight reduction due to parts that can be removed separately.

2 Variable speed control

- Makes it possible to continuously adapt the speed depending on the task.

3 Selection lever for setting the function

- Continuous adjustment between vacuuming and blowing, also with the option of a combined function.

4 Two-handed grip

- Ensures an ideal weight distribution and easy handling.

TECHNICAL DATA AND EQUIPMENT

BLV 36-240 Battery

- Removal of withered leaves and flowers around the home and garden
- Leaves that have been vacuumed up are then mulched immediately
- For removing shrub and hedge cuttings

BRING BACK THE WOW TO YOUR BABY: KÄRCHER DETERGENTS AND CARE AGENTS FOR VEHICLES

High-quality products for cleaning and maintaining the interior and exterior of cars. Kärcher detergents and care agents even remove stubborn dirt and save time, water and power. Regular cleaning and maintenance with our special detergents give a new lustre and contribute to the longevity of the various materials.

Interior cleaner for all surfaces in the car. Even upholstery looks like new. Unpleasant odours are eliminated.

Cockpit maintenance for intense colour, long-lasting protection and for longer, outstanding cleanliness.

Wax polish for value-preserving maintenance and protection of paint surfaces. Subtle scratches are removed, for example, with wash brushes.

	Product description	Application / dosing	Packaging size	PU	Order no./ quantity	Price
Vehicle cleaning						
	RM 650 car window cleaner Streak- and glare-free cleaning of car windows and mirrors. Reliably removes insects, fingerprints and dirt from the street. With antistatic effect for low resoiling.	Manual Spray the car window cleaner evenly onto the surface, spread using a soft cloth and polish afterwards using a soft, dry, lint-free cloth. Clean large glass areas in sections in order to prevent premature drying.	500 ml	8	6.296-105.0	
						NEW
	RM 651 interior cleaner For refreshingly clean interiors without odours: from the cockpit to the rubber seal, from the display through to the upholstery and leather. With antistatic effect and effective odour neutralisation.	Manual Spray hard surfaces with interior cleaner, allow to take effect and wipe off using a dry microfibre cloth. Spray upholstery/textiles with interior cleaner, foam up the cleaner by working in circular movements using a damp microfibre cloth and allow to take effect. Then rework with a damp microfibre cloth and wipe with a dry microfibre cloth.	500 ml	8	6.296-106.0	
						NEW
	RM 652 silk-matt cockpit care Deep-cleaning care and protection for all plastics and rubber surfaces. Leaves silk-matt surfaces that look as good as new, are pleasant to touch and are water- and dirt-repellent.	Manual If necessary, pre-clean heavily contaminated plastic surfaces with interior cleaner and dry. Spread silky-matt cockpit care product evenly on the plastic surface using a microfibre cloth and allow to take effect for a short time. Remove any excess product with a cloth and then lightly polish areas. Repeat treatment approximately every 6 weeks for value-preserving maintenance and regular cleaning.	500 ml	8	6.296-107.0	
						NEW
	RM 660 wax polish Intensive cleaning and washing- and weather-resistant preservation in a single step. Fine scratches and streaks are removed, and the original colour brilliance is restored.	Manual Shake wax polish thoroughly and use a soft cloth or sponge to apply the wax polish to the washed paint surfaces using gentle pressure in circular movements, working in sections. Slightly more vigorous polishing is required in matt areas or for subtle scratches. After a brief drying period (approx. 1 minute), wipe away polish residue with a soft microfibre cloth without exerting any force and gently repolish. Do not use on hot paintwork.	500 ml	8	6.296-108.0	
						NEW

Product description	Application / dosing	Packaging size	PU	Order no./ quantity	Price
 <p>RM 670 winter windscreen cleaner concentrate Detergent and frost-protection agent for window- and headlight-cleaning systems. Prevents the windscreen from freezing and guarantees a streak- and glare-free view.</p>	<p>Windscreen washer system Mix the winter windscreen cleaner concentrate according to the following instructions, depending on the desired frost protection value, and pour into the windscreen washer system. Up to -30 °C: 2 parts cleaner to 1 part water. Up to -20 °C: 1 part cleaner to 1 part water. Up to -10 °C: 1 part cleaner to 2 parts water. Include a certain safety margin when selecting frost protection values so that in the case of local undercooling (e.g. due to very cold airstream) the nozzles of the windscreen and headlight washer system do not freeze.</p>	5 l	1	6.296-109.0	
 <p>RM 672 summer windscreen cleaner, 1:100 concentrate Highly effective cleaning concentrate for a streak- and glare-free view in summer. Effectively removes insect residues and bird droppings. Yield: 250 ml provides 25 l detergent.</p>	<p>Windscreen washer system Loosen container cap (do not remove!) and fill dispensing head by applying pressure to the bottle. Remove cap. For every 2.5 litres of water, pour one filling of the dispensing head (25 ml) of summer window cleaner into the container of the windscreen washer system. Fill container of windscreen washer system with the necessary amount of water.</p>	250 ml	10	6.296-110.0

INDOOR

LET THE FRESHNESS IN!

Dust bunnies chased off, floor cleaned, windows gleaming and just like that you get it – that “freshly-cleaned feeling” we all love and that really lets you relax. This is why Kärcher has once again this year developed a wide range of intelligent solutions for interior cleaning that guarantee spotlessly cleaning results.

1 Uncompromisingly clean floors

Whether it's dry or wet everyday dirt, the FC 7 Cordless picks it all up and leaves a freshly wiped floor behind. The FC 7 Cordless floor cleaner extends the existing FC range and impresses as a device of the highest quality.

2 Clean, streak-free windows, three times faster

The handy Window Vac sets from Kärcher have revolutionised window cleaning and ensure sparkling clean windows every time. First of all, wipe the window with the spray bottle or the vibrating cordless wiper, then quickly and simply vacuum with the Window Vac. Clean windows without streaks, without drips, without effort. The battery run time of all WV device variants has been extended. The WV 6 impresses with one of the longest battery run times at 100 minutes.

3 Deep cleaning without chemicals

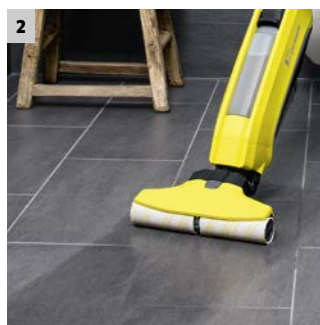

The Kärcher steam cleaner range ensures hygienic, fibre-deep cleanliness throughout the home in a natural way. Thanks to the superheated steam temperature, the intense steam generation and the associated excellent moisture penetration of the cloth, you can eliminate 99.99% of the bacteria found on common household hard surfaces.* Kärcher steam cleaners present an ideal alternative to conventional cleaning. From the handy floor steam mop to the steam ironing system, we have the right model to meet your needs.

* When thoroughly cleaning with the Kärcher steam cleaner, 99.99% of all common household bacteria will be killed on common household hard surfaces.

THE FRESHEST WAY TO MOP

Be it tiles, stone, vinyl, laminate or parquet: Kärcher floor cleaners can get all hard floors gleaming. Thanks to the rotating multi-surface rollers and the integrated roller self-cleaning function, they clean significantly more thoroughly than conventional mops* – and make manual scrubbing and buckets a thing of the past. From the all-rounder, which can absorb both dry and wet everyday dirt in one go, to the battery-powered lightweight model, this range offers the right device for any requirements.

1 FC range

Wipe continuously with fresh water – without dragging buckets around, without scrubbing and without contact with dirt – quite simply with the Kärcher floor cleaners.

FC 7 Cordless: removes all kinds of dry and wet everyday dirt

FC 5 and FC 5 Cordless: removes dust and spillages

FC 3 Cordless: removes spills and dried on liquid

2 Always freshly wiped

The floor cleaners' rotating rollers are constantly wetted with fresh water while the collected dirt ends up in the dirty water tank. This means floors will be up to 20%* cleaner than if they had been cleaned with conventional mops – and all with far less effort and much less scrubbing.

3 Unrestricted freedom of movement

Being cordless and independent from power outlets grants our FC Cordless devices maximum cleaning flexibility. Thanks to innovative battery technology, the FC 3 Cordless and the FC 5 Cordless can therefore easily clean areas of up to 60 m² and the FC 7 Cordless even up to 135 m².

4 Suitable for all hard floors

Kärcher floor cleaners can be used on any hard floor, whether it is wood, stone or plastic, thanks to the fast floor drying time.

5 Feel-good package for every floor

The supplied multi-surface rollers are real all-rounders and suitable for any hard floor. The wood and stone roller sets enable perfect results for specific requirements. All rollers can be washed at 60 °C in the washing machine. Gentle detergents and care agents complete the range and ensure perfectly maintained and radiantly clean floors.

* The Kärcher floor cleaner achieves up to 20 % better cleaning performance compared to a conventional mop with wiping cloth cover in the "Wiping" test category. Refers to average test results in cleaning efficiency, dirt pick-up and edge cleaning.

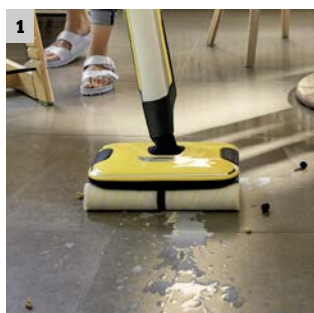

FC 7 CORDLESS

INDOOR

Uncompromisingly clean floors in just one step

With its all-wheel power, the battery-powered FC 7 Cordless removes all types of dry and wet everyday dirt in one step, leaving behind a freshly wiped floor. The tedious job of vacuuming before cleaning the floor is now a thing of the past.

1 Removes all kinds of dry and wet everyday dirt

- 50 per cent* time saving: four-roller drive technology enables wiping without the tedious job of vacuuming beforehand.
- Washable hair filters on floor head ensure perfect pick-up of hair.

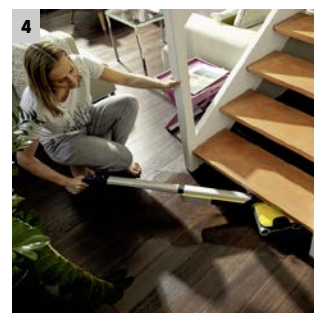

2 Wiping is 20 per cent** cleaner than with a mop and much more convenient

- Constant wetting of the rollers from the fresh water tank.
- Dirt is not merely moved around but is picked up and disposed of in the dirty water tank.
- Effortless: no dragging buckets around, no manual wringing of the floor cleaning cloth, no scrubbing.

3 Intuitive user interface with 2 different cleaning modes plus Boost function

- Roller rotation and water flow can be adjusted depending on the type of dirt and floor, additional Boost function for stubborn dirt.
- Suitable for all hard floors - including parquet, laminate, stone and plastic.
- Low residual moisture means that floors can be walked on again after approximately 2 minutes.

4 Run time of approx. 45 minutes thanks to the powerful lithium-ion battery

- Maximum freedom of movement when cleaning thanks to being independent from power outlets.
- No need to constantly plug/unplug, for ultimate convenience when cleaning.
- Three-stage LED display acts as an intuitive battery level indicator.

* The FC 7 Cordless enables up to 50 per cent time saving as normal household dirt can be cleaned off hard floors in a single step, and there is no need to vacuum before wiping.

** The Kärcher floor cleaner achieves up to 20 % better cleaning performance compared to a conventional mop with wiping cloth cover in the "Wiping" test category. Refers to average test results in cleaning efficiency, dirt pick-up and edge cleaning.

WINDOW CLEANING – EFFORTLESS, FAST AND STREAK-FREE

Kärcher makes even cleaning your windows fun. Thanks to the electric water suction, not a single drop remains – and windows and other smooth surfaces are cleaned to a streak-free finish in no time at all. Our wide range of Window Vacs and suitable accessories offer every customer the perfect complete solution for optimum window cleaning.

1 Wide selection: the Window Vacs from Kärcher

WV 6 – The top performer. With long battery run time.
WV 2 – The versatile. Convenient to use and versatile.
WV 1 – The compact. Small and compact, suitable as an entry-level device.

2 Complete solutions to meet your needs

KV 4: vibrating cordless wiper. The electric variant for loosening dirt effortlessly. Thanks to the hook-and-loop system, the wiping cloth can be changed quickly and conveniently on all variants.

Extra spray bottle: with microfibre wiping cloth and adjustable wiper to vary the water flow used – ideal for lattice windows too.

Standard spray bottle: with microfibre wiping cloth. Makes wiping any smooth surface easier.

3 Extended battery run time for the entire product range

The Kärcher Window Vacs are now available with an even longer battery run time. For working without interruptions or time pressure.

4 Three times faster

Window cleaning is three times faster with Kärcher Window Vacs compared to traditional window cleaning.

5 No streaks

The high-quality blade, together with the suction function, ensures streak-free, sparkling clean windows.

6 No drips

The Window Vacs quickly and reliably vacuum the water from the pane without any drips. Neither your hands nor the surrounding area or objects will come into contact with dirty water.

7 The original

Kärcher is the inventor of the Window Vac. No one has more expertise or experience in this area than Kärcher.

WV 2

INDOOR

FULL STEAM AHEAD. WITHOUT CHEMICALS.

As true all-rounders, our steam cleaners can be used everywhere – in the bathroom, the kitchen or in the living room. With powerful steam and versatile accessories, they can deep-clean fittings, tiles, hobs, exhaust hoods and even the smallest cracks without using any chemicals. In doing so, they remove 99.99 per cent* of all common household bacteria from hard surfaces – and achieve a higher cleaning performance than conventional manual cleaning methods using detergent.** The steam mop is new to the range; its three-stage steam flow control enables it to release exactly the right amount of steam for the type of floor.

1 Wide selection: the versatile SC range

SC 5 EasyFix – The strongest. Thanks to the VapoHydro function, it removes even the most stubborn dirt.

SC 4 EasyFix – The convenient. With detachable tank.

SC 3 EasyFix – The ready-to-use. With the shortest heat-up time.

SC 2 EasyFix – The beginner. The perfect introduction to steam cleaning.

SC 2 Deluxe

EasyFix – The innovative. With integrated LED display.

SC 1 – The compact. Handy and ready to use immediately.

SC 3 Upright

EasyFix – The floor expert. The perfect steam flow for every floor.

2 Fibre-deep cleanliness without chemicals

Scientific tests confirm: Kärcher steam cleaners remove 99.99 per cent of all household bacteria on hard surfaces, and they do this entirely without chemicals, using only steam.* The high temperature of the steam and excellent moisture penetration of the cloths reliably eliminate bacteria. For a healthy and child-friendly living space.

3 Cleans better than a traditional mop**

The Kärcher steam cleaners achieve better results on hard floors than traditional, manual floor cleaning methods such as a mop with detergents. This was tested according to international performance standards.

4 Cleanliness throughout the house

Put a stop to tiresome scrubbing and scouring! Kärcher's highly efficient steam cleaners make cleaning effortless and ensure impeccable cleanliness throughout your entire home. The devices are extremely versatile and can replace a variety of conventional cleaning utensils thanks to the wide range of available accessories. Typical areas of use include common hard surfaces throughout the home – in kitchens (e.g. fittings, sinks, exhaust hoods and work surfaces) and bathrooms (e.g. shower cabins, fittings, sinks, tiles and crevices).

5 High quality EasyFinish steam pressure iron

High steam pressure, the perfectly pre-set temperature and the new improved lightweight soleplate in combination with the Kärcher steam cleaner ensure perfect ironing results.

* When thoroughly cleaning with the Kärcher steam cleaner, 99.99% of all common household bacteria will be killed on common household hard surfaces.

** When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.

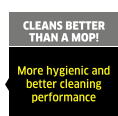

SI 4 EASYFIX IRON

INDOOR

Steam can do more

In addition to floor cleaning, Kärcher steam cleaners can also be used for ironing. The SI 4 EasyFix Iron steam ironing system is designed for maximum user convenience. The tried-and-tested universal SC 4 EasyFix Iron steam cleaner, together with the AB 1000 active ironing board, delivers first-class ironing and cleaning results.

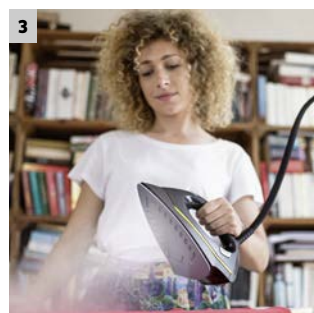

1 Active steam extraction

- Thanks to the active steam extraction, the steam penetrates the clothes better.
- The suction function ensures that clothes are cupboard dry and it also secures them to the ironing board.

2 The multifunctional package: steam cleaner combined with ironing board

- By mounting the steam cleaner on the ironing board, the two devices merge to form one strong unit.
- The steam pressure iron makes ironing much easier and cuts ironing time by half.
- The multi-talented device is not only suitable for ironing but is also suitable for all household cleaning tasks.

3 Air cushion function

- Delicate fabrics can also be ironed easily and conveniently on the air cushion, without creasing.
- Irons without leaving marks and is gentle on delicate fabrics.
- Simple and convenient ironing of items that are difficult to iron (e.g. blouses).

4 Innovative ventilation technology

- No annoying dripping water.
- No water marks.
- No irritating exhaust air for the operator.

* When thoroughly cleaning with the Kärcher steam cleaner, 99.99 % of all common household bacteria will be killed on common household hard surfaces.

** When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.

SC 3 EASYFIX UPRIGHT - THE FLOOR EXPERT

INDOOR

**Incredibly easy to use.
Ready in no time.**

Full control and deep cleaning: the SC 3 Upright EasyFix steam mop guarantees the perfect steam flow for every type of flooring and even freshens up carpets. Heats up in just 30 seconds.

1 Preset steam flow control in three steps for cleaning different surfaces

- Selection options of floor covering symbols for wood, tiles and carpet to set the ideal steam flow.

3 Short heat-up time

- With a heat-up time of only 30 seconds, the device is ready to use in no time.

2 Non-stop steam and integrated descaling cartridge

- The detachable tank is easy to fill at any time - for continuous steam without interrupting your work.
- Thanks to the intelligent descaling cartridge, limescale is removed automatically.

4 The LED strip on the device signalises heat-up and whether it is ready to use

- Extremely easy application thanks to the device's continuous feedback to the user regarding its operating status.
- Red pulsating light indicates the device is heating up and a constant green light indicates that the device is ready to use.

* When thoroughly cleaning with the Kärcher steam cleaner, 99.99 % of all common household bacteria will be killed on common household hard surfaces.

** When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.
