KÄRCHER PRESSURE WASHERS.

Everyday, everywhere.

The name Kärcher is synonymous worldwide with power, quality, innovation and for cleaning expertise which has been setting the standard for more than 75 years. Kärcher invented the pressure washer in 1950 and has been refining the principle of high-pressure cleaning ever since. More performance with less consumption, longer service life with shorter cleaning times.

At Kärcher, we understand cleaning is a fact of life, crucial to efficiency and dependability in all industries and businesses. It goes on everyday, everywhere. So, choosing the right pressure washer for the job can make all the difference. Kärcher offers high-pressure cleaning for small and large areas, indoor and outdoor applications, stubborn dirt or grease and oil removal. Here's a quick guide to help you get started.

HD VS HDS

HD - COLD WATER BENEFITS

- Removes dirt
- Easy-to-use for anyone
- Lower initial investment
- Lower service and repair costs

HDS - HOT WATER BENEFITS

- Removes sticky residue, grease, oil
- Cleans and dries faster
- May be more effective at reducing and killing germs

ELECTRIC VS GAS / DIESEL POWERED

ELECTRIC BENEFITS

- No exhaust - can be used indoors/outdoors
- Less maintenance
- Quieter
- Run-time not limited by tank size

GAS / DIESEL BENEFITS

- Portable - can move machine to the job
- Easy to obtain fuel

DIRECT DRIVE VS BELT DRIVE

DIRECT DRIVE BENEFITS

- Pump is driven directly by engine
- Compact design
- Fewer moving parts - so lower initial cost

BELT DRIVE BENEFITS

- Pump is driven by belt
- Longer life - Lower RPM, lower operating temperature
- Better for heavy use applications

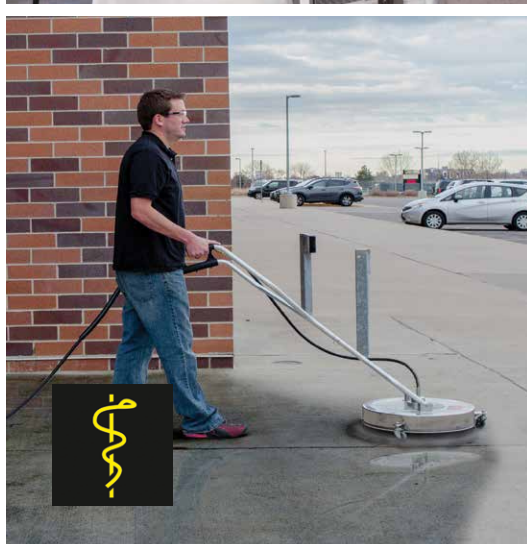

FOR PROFESSIONALS. BY PROFESSIONALS.

Where we clean.

Professionals today need targeted solutions that complete specific tasks efficiently. Preferably a complete solution, as a functional, balanced system. For this reason, we constantly analyze the needs of all relevant industries in order to understand them better and recognize trends at an early stage. This results in innovative and efficient solutions that fulfill their purpose in an exemplary manner. We have cleaning solutions for every industry from schools to construction sites, farms to grocery stores. In this brochure we will highlight solutions for the following industries: automotive, commercial kitchens, food processing facilities, manufacturing, healthcare, hospitality and municipalities.

HDS - HOT WATER.

Ideal for removing grease and oil, and may be more effective at reducing and killing germs.

Kärcher's hot water pressure washers take water from the tap and heat it up to as much as 210o F at pressures up to 4000 PSI. This allows a reduction of the working pressure, cleaning and drying time and the amount of detergent to be used. The advantages of the HDS units include: shorter cleaning and drying times add to labor cost savings, proper water heat temperature may be more effective at reducing and killing germs, and reduced pressure needed to clean - gentler to sensitive surfaces. Kärcher offers both electric-powered or gas/diesel-powered models.

GAS POWERED

HDS P / PE CAGE

- Up to 3.5 GPM / 3500 PSI
- Up to 389 CC, commercial grade Honda GX or Vanguard engine
- Direct drive Kärcher pump with 7-year warranty
- 12V DC burner
- Stainless steel coil wrap
- Flat-free tires
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down

JALAPAO SERIES

- Up to 8.0 GPM and up to 3500 PSI
- Up to 688 CC
- Belt-drive Kärcher tri-plunger pump with 7-year warranty
- Electric start Honda, Vanguard, and Kubota engines
- Stainless steel coil wrap
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down

Shown with optional hose reel

TULE SERIES HDS 3.5/40 GE MT

- 3.5 GPM / 4000 PSI
- 389 CC, Honda GX390 engine
- Direct-drive Kärcher KS pump with 7-year warranty
- Electric start with manual start backup
- 8-gallon diesel fuel tank
- Manual parking brake
- Adjustable bracket and multiple hitch configurations for various vehicle heights
- Controls located on the curb side for safety and convenience
- Manual parking brake
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down

TRK-3500

- High-density, polyethylene 200-gallon water tank with a 12-inch access port, 3/4-inch float valve and a 50-mesh inlet filter; and two 5/16-inch chains for additional safety
- Electric brakes and break away kit
- Electrical wiring recessed within the heavy-duty frame
- Saddle boxes, lighted license plate holder and recessed tail lights
- 1,000 lb. swivel jack with a 2-inch ball coupler for quick and easy hook up of the trailer
- Optional hose reels hold up to 100 ft. of high-pressure hose and quick connects to chassis

ELECTRIC POWERED

MOJAVE SERIES

- Up to 5.0 GPM / 3000 PSI
- Up to 389 CC, commercial grade Honda GX or Vanguard engine
- Kärcher pump with 7-year warranty
- Flat-free tires
- Standard auto start/stop

- Equipped with EASY!Force accessories, hour meter, status LED, crane hook, and other upgraded features
- Steam stage, Servo Control, and stainless steel side panels included on Premium units
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down

HDS SPECIAL CLASS

- Up to 3.3 GPM / 2520 PSI
- Kärcher pump with 7-year warranty
- Flat-free tires
- Intuitive operation with large single-button selector dial

- eco!efficiency mode - economical and environmentally friendly, even during longer periods of use
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down

HD - COLD WATER.

Ideal for removing loose dirt and cleaning large areas.

Kärcher's cold water units' impact pressure is decisive for the cleaning result. For removing stubborn dirt, grease and oil, good results are generally achieved by using detergents. The advantages of HD units include: less expensive, no water heating energy costs, low service and repair costs, fewer components, and some select electric-powered units can be used indoors for cleaning. Kärcher offers both electric-powered or gas/diesel-powered models.

GAS POWERED

TETON SERIES

- Up to 5.0 GPM / Up to 4000 PSI
- Direct and belt drive Kärcher engines with 4-year warranty
- Crankcase pump with 7-year warranty
- VRT3 unloader with bypass loop
- Durable, corrosion resistant aluminum frame
- Modular design - weld free frame easily converts from cart to skid
- CARB compliant
- Flat-free tires

HD SERIES GAS

- Up to 5.0 GPM / Up to 4000 PSI
- Belt or direct drive models with a reliable Honda or Vanguard engine
- Crankcase pump with a 7-year warranty
- VRT3 Unloader with bypass loop
- Durable, corrosion resistant aluminum frame
- Modular design - weld free frame easily converts from cart to skid
- Flat free tires

HD PB / PEB / D CAGE

- Up to 4.5 GPM / 5000 PSI
- Powerful Vanguard, Honda or Kohler engines
- Belt drive commercial-grade pump with 7-year warranty
- Flat-free tires
- PB & PeB models with rugged steel chassis & roll cage. D cage models with corrosion-resistant stainless steel frame
- Optional skid kit available - covert cart to skid
- Optional 100' hose reel available

JARVIS SERIES

- All-in-one surface cleaner and pressure washer
- 2.4 GPM / 2500 PSI
- 200 CC, Honda GX 200 engine
- Direct-drive KP3035G pump with 7-year warranty
- 21" corrosion-resistant stainless steel surface cleaner housing and a professional grade swivel design for extended, effortless use
- Flat free tires
- Folding handle for easy storage and transport
- Simple on / off operation
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down

ELECTRIC POWERED

HD WALL MOUNTED

- 1.8 GPM / 1400 PSI
- 2 HP, 120V / 1 ph, 20 AMPs
- Direct-drive Kärcher pump with 7-year warranty
- Accepts hot water up to 180 degrees
- Remote on/off switch
- Optional wall mount bracket (8.920-952.0)
- Electric start on select models

HD SERIES ELECTRIC

- Up to 3.5 GPM / Up to 2000 PSI
- Up to 5 HP, Up to 203V / 1 ph, Up to 22 AMPs
- Direct-drive Kärcher pump with 7-year warranty
- VRT3 Unloader with bypass loop - pump protection
- Modular design - weld free frame easily converts from cart to skid
- Durable, corrosion resistant aluminum frame
- Flat free tires
