

KÄRCHER

makes a difference

ALL OR NOTHING

Cleaning solutions for restaurants and catering

CLEANLINESS IS NOT EVERYTHING...

...But without cleanliness, nothing means a thing. Whether in restaurants or catering companies: high hygiene and cleanliness standards make the difference, create trust and play a decisive role in customer satisfaction. It is therefore only logical that caterers worldwide rely on Kärcher's efficient and effective cleaning solutions. Our customized machines for indoor, outdoor, kitchen and sanitary facilities are just as impressive as our diverse service portfolio, which stretches from maintenance all the way to financial services.

LOVE AT FIRST SIGHT

Cleaning professionals know how important the first impression is. In these first moments, customers instinctively decide whether they feel comfortable or not. Clean and well-kept patios, entrance areas, paths and parking spaces create trust and a sense of well-being in those initial moments.

KM 35/5 C sweeper

If you need a quick clean-up this battery-operated sweeper is as an alternative which is significantly faster than traditional sweeping with a dustpan and broom. Without annoying cords, thorough right into the smallest corners, and able to be operated without bending over thanks to the practical foot-operated switch, you can comfortably clean all hard surfaces. For textile surfaces, an antistatic roller brush is also available as an optional extra.

FR Basic surface cleaner

Whether indoor or outdoor, our surface cleaner will give you the upper hand when it comes to dirty floors. Connected to our compact high-pressure cleaner, the FR Basic will ensure quick cleaning results.

KM 70/20 C sweeper

Sweeping outdoor areas can even be fun! You can cover up to 2,800 m² per hour up to six times faster than with a broom – almost completely without dust, thanks to the intelligent and controlled airflow and filtering. The height-adjustable main roller enables the compact and manoeuvrable machine to be easily adjusted to suit different surfaces.

NT 27/1 Me wet/dry vacuum cleaner

Whether indoor or outdoor, leaves, cigarette butts, breadcrumbs or spilt drinks – the compact, flexible and robust all-rounder easily sucks up every kind of dirt and filth.

CLEANING IS A NEVER- ENDING TASK.

The entrance and dining area are the most heavily frequented areas of a restaurant and require a high level of attention for cleaning. Furniture often makes it difficult to reach corners or angles. Thorough cleaning after closing time can therefore be quite a task. A task that you will master easily with our machines, which are specially adapted to these conditions. And your guests will love it!

T 12/1 dry vacuum cleaner

Compact, manoeuvrable and extremely powerful: this vacuum makes cleaning work a breeze. The eco!efficiency version even offers energy savings of 40% and is extremely quiet (56 dB[A]).

EB 30/1 Li-ion electric broom

This cable-free, battery-driven electric broom is quick and easy to use. It can be stowed away just as quickly.

BR 30/4 C Bp Pack scrubber drier

This scrubber drier combines great cleaning results with easy operation and manoeuvrability. A roller spinning at 1,300 rpm, contact pressure that is around ten times higher compared with conventional mopping, as well as efficient suction ensure clean and dry hard floors that can be walked on again immediately. The machine is available both as a cable-free version fitted with high-performance lithium-ion batteries, or as a power supply version.

BD 38/12 C Bp Pack scrubber drier

Where space is limited but small and heavily furnished areas need to be cleaned, our battery-powered scrubber drier really shines. The lithium-ion batteries are absolutely maintenance-free, quick to recharge and have a service life around three times longer than lead batteries. The standard eco!efficiency mode has even lower energy requirements, and is 3 dB(A) quieter. On top of this, the machine is extremely easy to operate and extremely mobile thanks to its low weight.

BY PROFESSIONALS, FOR PROFESSIONALS

The kitchen. The heart of every restaurant and catering company. Everything is decided here. This is where the cooking, frying, sautéing and flambéing happens, in order to satisfy the guests and customers. Less appetising, however, are the inevitable side effects of these processes. Grease films on surfaces, burnt material on stoves and splatters of sauce on the floor do not stand a chance against our innovative solutions.

SG 4/4 steam cleaner

The SG 4/4 works entirely using the power of steam, without chemical additives. Floors, work surfaces, wall tiles and kitchen equipment are hygienically cleaned thanks to 4-bar steam pressure. You can easily adjust the steam flow and steam saturation to suit the task at any time, thereby achieving optimal results.

BR 40/10 C Adv scrubber drier

Thorough floor cleaning in restaurant kitchens is very difficult. The dirt is often stubborn and the area is often narrow, but everything still has to be clean. The BR 40/10 is perfectly suited to working in kitchens. It cleans with a high contact pressure and is extremely powerful – both forwards and backwards. It is also compact, manoeuvrable and suitable for passing under low objects.

HD 7/10 CXF high-pressure cleaner

Our HD 7/10 CXF high-pressure cleaner was specially developed and approved for use in kitchens. The food-safe high-pressure hose allows water temperatures of up to 80 °C. Even the abrasion-resistant wheels have been especially designed for kitchen floors. If required, you can also smoothly adjust the cleaning agent dosage directly into the high-pressure jet, removing even the most stubborn of dirt.

HYGIENE. WITHOUT IFS AND BUTS.

Untidy or even dirty sanitary areas are an absolute nightmare for caterers and guests, and this alone is enough to put the whole restaurant visit in a bad light. We want to avoid this. Therefore, we offer you a wide range of machines, manual tools and cleaning agents which allow you to clean sanitary facilities more effectively and more easily. Your guests will rest easy knowing that they chose just the right place in all respects.

Manual cleaning

Even in the age of highly efficient, thorough and economical cleaning machines, manual cleaning remains indispensable in the restaurant and catering industry. It is quick and easy to carry out – especially in areas that are hard to reach with machines. For this reason, we are always developing better, more innovative manual cleaning tools and environmentally-friendly cleaning agents.

Mechanical cleaning

For deep cleaning of furnishings, tiles and floors in your sanitary rooms, we recommend the SG 4/4 steam cleaner as well as the battery-powered BR 30/4 C Bp scrubber drier. While the SG 4/4 reliably removes limescale from fittings, for example, the BR 30/4 C Bp shines in small spaces thanks to its manoeuvrability.

YOU MANAGE YOUR BUSINESS. WE PROVIDE THE SUPPORT.

Things can be much easier when people combine their talents. It is far easier to achieve success by pursuing one's goals together, complementing one another and learning from one another. One could call it the principle of progress. We call it Kärcher Services. A promise of partnership. By professionals, for professionals.

Kärcher Services:
The complete range of services from a world market leader. And the perfect continuation of the advanced Kärcher system with innovative tools, a tailored range of services and efficient software solutions.

Kärcher Fleet - Fleet management
Branch-specific data acquisition and evaluation. Evaluation of machine data enables the documentation of services provided to clients as well as business planning and evaluation.

Kärcher Service - Customer service
Service means trust. Anytime. Services you really need. Fast reaction for maximum availability. Maximum value retention and compliance with all statutory requirements.

Kärcher Lease - Leasing
Tailor-made. Flexible. Safe. We provide the flexibility you need: with leasing and financing models to suit every need.

Kärcher Rent - Rental
Precisely the machine you need. Rent instead of buy. And get more: know-how and the Kärcher Full Service package.

Kärcher Maintain - Service packages
Every service package is exactly tailored to a defined requirement. Services include inspections as part of mandatory safety checks, timely maintenance and flat-rate full service.

Kärcher Used - Used machines
If used is what you need. New start-up? Or just saving costs? We have the right used machine for you. Used, generally overhauled, good and affordable. Our range is constantly changing. Just ask us.

Kärcher Manage - Facility Management
The innovative web application for real-time recording of all facility management activities on-site. Paperless mobile documentation. Recorded data is available directly in the system.
