IT'S WHAT THE **PROS** USE

# CLEAN LIKE A PRO – Use Hotsy Pressure Washer Detergents

**Tired of spending valuable time cleaning with your pressure washer only to be left with unsatisfactory results? The issue could be the soap you're using, if you are using any at all.**

**A** pressure washer is most effective when detergent is used is specifically formulated to work with both hot and cold-water pressure washers. These types of detergents are made to withstand high pressures and are even made to work best at higher temperatures. Hotsy has a complete line of pressure washer detergents that not only makes your cleaning more efficient, but also extends the lifespan of your equipment.

Hotsy detergents are tailored to specific cleaning applications. You'll find over 40 products to choose from, which means you're sure to find one designed to tackle your specific cleaning challenge. Many are Kosher and NSF approved and several are biodegradable. Most Hotsy detergents contain the **Hotsy Continuous Clean (HCC)** additive. This additive works to prevent hard water and soap build-up in your equipment. HCC also contains rust and corrosion inhibitors to protect the metal surfaces being washed.

Hotsy Detergents contain wetting agents for fast action in virtually any water condition. They contain high levels of water conditioning agents that allows our products to be effective in the some of the hardest water conditions, which provides superior results.

Hotsy soap works extremely well at the suggested dilutions. They are super concentrated...a little goes a long way.

***Available in a size to meet your needs:***

- Quart
- Gallon
- 5-gallon buckets
- 55 gallon drums
- Large bulk size totes

## Detergents Formulated for Your Specific Needs

*Hotsy makes detergents for all types of cleaning jobs. Whether you want your aluminum to shine, cleaning the grime off outdoor equipment or making a restaurant kitchen ready to handle the next day's crowds – **Hotsy has a pro solution for that.***

**Hotsy All Purpose Detergents** clean safely and effectively in several different applications. These industrial-strength, all-purpose detergents are concentrated to go a long way. Includes Breakthrough! AF, which is great for auto and construction industry and Super XL, popular in agriculture and trucking.

**Hotsy Transportation Detergents** are specially formulated for use on cars, trucks, and heavy equipment of all types.

Hotsy offers **Specialty Transportation** cleaners that are designed for more specific cleaning applications within the transportation industry. Examples are aluminum brighteners and other products to produce attractive finishes and keep dirt from adhering on surfaces.

**Hotsy Degreasers** are popular for removing caked-on grease and grime from a variety of surfaces, including restaurants, floors, automotive shops, and more.

Among Hotsy's wide variety of cleaning detergents are a select few designed exclusively for use in **Food Preparation, Food Manufacturing and Institutional Cleaning.**

Hotsy **Aqueous Parts Washer Detergents** reduce foam in automatic parts washers and have a corrosion inhibitor to protect against rust on wetted surfaces.

**Hotsy Specialty Detergents** cover a wide assortment of needs – including paint stripping, recycle systems, and coil conditioners. These also include disinfectants that sanitize and eliminate odors. Depending on what you're cleaning, there's bound to be a specialty product in the Hotsy detergent line.

## Store to Door Delivery – Never Run Out!

Ask about our convenient detergent filling program so you don't have to worry about running out of soap. This is a great program for businesses that use a lot of detergent.

Whether you use detergent drums or large size bulk tanks, **we will set up a delivery plan to best meet your needs**, delivered store to door.

## Foam Cannons Fast Facts

We offer a variety of foaming applicators used to dispense soap. The facts:

- Increased dwell time on vertical surfaces
- Dispenses soap up to a 30 feet radius
- Meter the soap being applied, monitor what you use
- Works with hot or cold water pressure washers

## Take the Detergent Challenge

As your local Hotsy dealer, we can perform an evaluation of your current detergent usage. We compare detergents in an “apples to apples” visual way, and not strictly on a price per gallon assessment, utilizing these four important tools:

- Water Hardness Test Strips
- pH Test Strips
- Water Softener
- Flow Meter
- Brix Refractometer

### Contact us today and take the Hotsy Detergent Challenge!

You CAN save money and time with Hotsy detergents.

## The Hard Facts About Water

Using soft water will reduce detergent usage and provide better cleaning results, without leaving water spots. Consider a water softener, which are available in different sizes.
