CleanWave

NEW INNOVATION
FOR PRESSURE WASHERS

Unleash the power, without the cord.

CleanWave rides the wave of innovation to propel us towards a cleaner, greener future with zero emissions. Kärcher, the global leader in cleaning equipment, introduces a battery-powered professional cold water pressure washer to usher in a new era of efficiency and flexibility. The innovative CleanWave provides a cordless solution to tackle heavy-duty cleaning with an unrivaled runtime of up to 4 hours.

The Deluxe model features auto start/stop, pump protection and ECO mode operation. CleanWave delivers robust cleaning performance without compromise.

1 Battery power

- CleanWave Deluxe's lithium-ion battery requires zero maintenance, providing 3,000 charge cycles. Lithium-ion batteries have excellent charge efficiency and low self-discharge.
- CleanWave Classic's AGM battery is non-gassing, non-spillable, and maintenance-free. Absorbent fiberglass mat material allows for efficient energy conversion.
- Charge time from flat to full in 8 hours (AGM) and 10 hours (L-ion)
- Saves approximately \$5,000 in fuel costs annually when compared to gas-powered pressure washer usage against annual cost of electricity* to fully charge the batteries.

2 Flexible controls

- ECO mode extends battery life up to 240 minutes
- Turn-key start

3 Smart features

- Forklift compatible frame
- Direct drive triplex crankshaft pump
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down - so, no more sore hands after hours of use

Technical data and equipment.

TECHNICAL DATA

Model	Part No.	GPM	PSI	Battery	Volts	Max Runtime (mins)	Full Charge Cycle (hrs)	Pump	Ship Weight (lbs)	Ship Dimensions (L x W x H) Inches
