**PURE
BRILLIANCE:
IN EVERY
SENSE**

TOP QUALITY FROM VINE TO BARREL

You are the experts in winegrowing. And we are your professionals for cleanliness! With Kärcher cleaning machines, you can systematically ensure a high level of hygiene at every stage of production – as well as immaculate quality of wine.

01 When harvesting

After work and before changing varieties, machines, tanks and rooms need to be scrupulously cleaned. The high-pressure cleaner allows you to ensure cleanliness everywhere, preventing contamination from residual juices or loss of quality in the wine.

02 In the cellar

Since the fermentation and storage tanks in the production process are filled and emptied several times, the tanks, tubes, hoses, pumps and floors must be scrupulously cleaned. Surface cleaners, tube cleaning sets and cup foam lances provide effective support here.

03 During filling

Whether in the vineyard or at the cooperative, receiving tanks and storage tanks, filling systems and bottle rinsing systems, as well as rooms must be spotlessly clean. Thanks to the hot water high-pressure cleaner, you can lay the groundwork for filling your wines into barrels in a contamination-free manner.

04 In the warehouse

Cleanliness is important for the following production stages: in empty container storage for contamination-free filling and in the wine storage for consistent cleanliness in logistics and sales. Vacuum sweepers, scrubber dryers and wet and dry vacuum cleaners ensure a high level of hygiene.

05 On the shopfloor

This is where you present your business and your high-quality wines. Scrubber dryers and wet and dry vacuum cleaners are on hand to help you with daily floor cleaning. With them, you can remove all dirt quickly and consistently.

Professional
cleaning solutions
for winegrowing:

CLEAN! FROM VINE TO SHELF

Biosafety plays a crucial role in winegrowing, for your products as well as across the whole operation. The Kärcher cleaning solutions support you with all cleaning work required, meaning you can effectively remove contamination and safeguard the quality of your work in each phase of production – from the vineyard to the shop shelves.

BE CERTAIN OF A GOOD RESULT

Perfect wine needs your specialist knowledge – as well as immaculate cleanliness. This is because contamination can have a negative impact on fermentation processes and flavour development and, at worst, can ruin a whole vintage. Kärcher cleaning machines are your professional assistants for systematic dirt removal in winemaking: for clean products and a profitable business.

SPOTLESSLY CLEAN CELLAR - PERFECT WINE

What's an important ingredient for top-quality products? Hygiene at the highest level! Kärcher cleaning solutions and accessories keep your cellar spick and span, safeguarding the quality of your grapes on their journey to becoming wine.

Thorough cellar cleaning

Dirt doesn't stand a chance against our high-pressure cleaners. Together with a surface cleaner, you can effortlessly remove even extreme dirt. Cup foam lances are here to help you apply the cleaning foam in a targeted manner. The short spray lances can also reach into narrow nooks and corners. With a scrubber dryer, you can regularly clean hard floors quickly and sustainably.

EASY!Force high-pressure gun

Maximum hygiene and biosafety - with ease. Our innovative EASY!Force high-pressure gun uses the recoil force of the high-pressure jet to reduce the holding force for the operator to zero. This saves you from straining your muscles, as well as enabling long cleaning applications to be completed effortlessly.

Tailored accessories

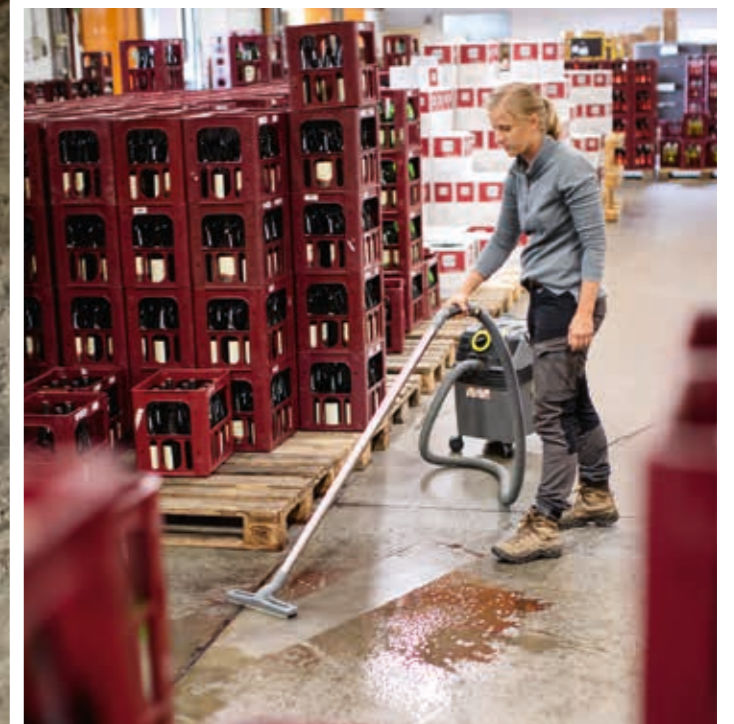

You can rely on our comprehensive range of sector-specific accessories. A small investment can make your cleaning work significantly easier and more efficient. Surface cleaners, barrel cleaners and the short lance are excellent additions here - they are your professional assistants in the wine cellar for convenient, thorough cleaning of your floors, plants and tanks.

FIRST-CLASS WINE: TOP CUSTOMER EXPERIENCE

From the vine to the wine rack, a consistently high level of hygiene is the top priority. This is the only way to guarantee your customers have an excellent purchasing experience and can enjoy their wine to the full. Keep your retail spaces looking spick and span all over with the right cleaning solutions from Kärcher.

Solutions for all cleaning tasks

Our sweepers, wet and dry vacuum cleaners and steam cleaners are specialists for hygiene measures in your retail spaces, warehouses and respective outside areas. Using them, you can remove dirt effectively and create a hygienic, inviting environment for your business partners and customers.

Sweeping outside areas proactively

Clean outside areas significantly minimise the risk of carrying germs into inside spaces. Our sweepers help you to strictly monitor cleanliness. Regularly sweeping your paths and yards is a simple, effective way to eliminate food sources for rodents and reliably remove rodent droppings or other dirt harmful to health.

Keeping warehouses and retail spaces clean

The high-quality products in your wine cellar and retail space require an immaculately clean environment. With our wet and dry vacuum cleaners and steam cleaners, you can create and maintain meticulously clean, distinguished retail areas.
