## MEMANG LEBIH BERKUASA

HIGH PERFORMANCE FOR EFFECTIVE CLEANING

 **GERMAN TECHNOLOGY**  
POWERFUL & RELIABLE

## PRESSURE CLEANER MAKES CLEANING EASY

Kärcher Pressure Cleaners offer the perfect solution for every cleaning task. Where previously dirt reigned supreme, afterwards there is nothing but cleanliness. With Kärcher, you upgrade your home environment and restore value to your possessions: from old to new, from shabby to chic. Passionate engineering, the highest standards of quality and decades of experience in developing innovative pressure cleaners make this possible. With the wide range of accessories and detergents, it opens up unlimited application possibilities for the high pressure cleaning.

### 1 Power Control and Premium Power Control range

Always the correct setting, always the best result – this is ensured by the new Kärcher Power Control range with pressure regulation on the spray lance and a pressure indicator on the trigger gun. The products also feature a telescopic handle for optimal storage, the tried-and-tested Plug 'n' Clean system for simple use of detergents and the Premium version also has a hose reel.

### 2 Compact range

Small and powerful: Kärcher's Compact range convinces with its compact dimensions, low space requirements, easy storage and high mobility.

### 3 Foam Jet nozzle for cleaning with powerful foam

Foam nozzle with extra powerful foam for easy cleaning of all surfaces such as paint, glass and stone. Ideal for vehicles, garden furniture, façades, stairways, caravans, paths, walls, venetian blinds, terraces, driveways etc. Suitable for all Kärcher pressure washers of the K 2 to K 5 classes. Ideal for use with Kärcher ultra foam cleaner.

## COMPACT AND VERSATILE

Ideal for tradesmen, building service providers, small businesses and anyone else who needs to work in a mobile way: The handy and powerful high-pressure cleaners. Their rugged design, practical carrying handle and integrated accessory storage guarantee maximum flexibility of use with minimal weight. Kärcher quality on the go.

### 1 Robust. Compact. Powerful Pressure Cleaner

Cold water compact class – for fast and thorough cleaning. Light and powerful: these compact, all-round cleaning machines clean courtyards and workshops in next to no time. They excel with pressure, flow rate and working time. Patented Kärcher power flat jet nozzles, cleaning up to 40% more impact force than conventional nozzles. High area coverage and thorough dirt removal.

The HD 5/11 P portable high-pressure cleaner impresses with its compact construction style, low weight and outstanding mobility. The machine features a reliable three-piston axial pump with brass cylinder head. An additional carrying handle and the extendable push handle make it easier to transport the machine and store it in small spaces.

### 2 For independent use

Petrol or diesel-powered high-pressure cleaners from Kärcher can be used anywhere there is no power supply available. This means that the machines are ideal for use in agriculture, construction or in the public sector.

### 3 Target group-specific solutions

In addition to the standard range, Kärcher also offers target group-specific cold water high-pressure cleaners, which are tailored to specific customer requirements. The HD 7/11-4 C Classic, for example, is used in the car wash industry. Extra large crankshafts and connecting rods with robust ball bearings. Ceramic pistons for reduced wear and tear. High performance sealing packages for longer working times.

# HIGH SUCTION POWER VACUUM CLEANER

Kärcher multi-purpose vacuum cleaners are extremely powerful and designed to vacuum up regardless of whether it is dry, wet, coarse or fine dirt. For cleaning car interiors, households or hobby workshops - any type of dirt can be removed easily, quickly and conveniently with the Kärcher specific vacuum cleaners, thanks to their maximum suction power and matching accessories.

## 1 First-class floor nozzles

Dry, wet, coarse or fine dirt - it doesn't matter! The in-house developed floor nozzles guarantee perfect dirt pick-up, impress with optimal sliding behaviour and can be quickly and easily adapted to dry or wet dirt. With the clips floor nozzle, the changeover is effected by changing the inlay and, with the switchable floor nozzle, the changeover is carried out using the foot switch. The special floor nozzles guarantee all-round cleaning satisfaction.

And overview of the advantages: Fast and residue-free dirt removal, ideal for dry and wet dirt, effortless vacuuming.

## 2 Consistently high suction power

Thanks to the integrated filter cleaning function, dirty filters in all the top machines WD 5 can be cleaned quickly and efficiently simply by pushing the filter cleaning button. This means that even with difficult cleaning tasks, consistently high suction power is available. (see illustration).

The advantages at a glance: no manual cleaning required, no contact with dirt.

## 3 The optimal vacuum cleaner for all cleaning tasks

Kärcher NT vacuum cleaners are ideal for all wet and dry cleaning tasks. With universal and special tools.

- TACT vacuum cleaner: for liquids, coarse and fine dust. With the capacity for larger jobs.
- Ap vacuum cleaners: powerful universal vacuums for liquid or wet dirt and medium-fine dusts.
- Standard wet and dry cleaners: designed to pick up large quantities of liquid and coarse dirt.

## 4 Tact - the automatic filter cleaning system

Our professional wet and dry vacuum cleaners with the patented tact system allow uninterrupted operation, even with large quantities of fine dust. The filter automatically cleans itself with targeted, powerful blasts of air. The procedure is triggered automatically whilst maintaining constant high suction power. Other benefits include low maintenance costs and a long filter service life.

# PROFESSIONAL WET & DRY VACUUM CLEANER

As a professional user, you know there's much more to a good wet and dry vacuum cleaner than suction power alone. The overall design - with all filters and control elements, ergonomics, stability and optimal accessories - is the deciding factor. For decades, we have been continuously setting new standards in this area with our innovative technologies - at an excellent price-performance ratio too.

## FOR THOROUGH CLEANING RESULTS

A beautiful carpet makes the home feel cosy, emphasises features, and keeps your feet warm. The textile floor covering not only looks good, but it also improves slip-resistance, and dampens the noise of footsteps. The length of the pile determines how easy or demanding it is to maintain a carpeted floor. The maintenance effort is also determined by how often the carpet is used. For all carpets, regular and thorough cleaning is recommended: This maintains the appearance, increases the lifetime and, furthermore, ensures hygiene, since heavily ingrained dirt is loosened and pet hair and harmful mites are removed.

### 1 Kärcher nozzle technology

Kärcher spray extraction cleaners are not only ideal for allergy sufferers but also household with pets. With the right accessories, Kärcher SE 4001 can also be used as fully functional multi-purpose vacuum cleaners.

### 2 Quick-drying

Puzzi machines use a powerful suction turbine that leaves fabrics almost dry within minutes. They dry up to 50% faster than comparable products. This not only saves time but also reduces the risk of mold growth. Properly airing out the mattress, sofas or car seat within 24 hours of deep cleaning is important to prevent mold growth.

### 3 The spray extraction principle

With the spray extraction method, the water and cleaning agent are sprayed deep into the carpet while simultaneously vacuuming the dirty solution back again. Dirt is dissolved and removed in a single pass. Due to the low residual moisture, carpets are dry in next to no time.

### 4 Benefits D-RM760 carpet cleaner agent

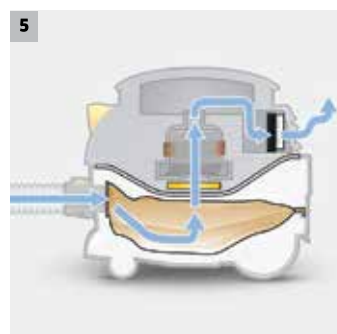

The CarpetPro Cleaner iCapsol D-RM 760 tablet features innovative iCapsol technology for quick cleaning and drying. It's easy to dispense and safe to use due to individually packaged tabs in water-soluble film. Suitable for all floor coverings with Woolsafe certification and phosphate-free.

# OUTSTANDING FUNCTIONALITY VACUUM CLEANER

Kärcher vacuum cleaner comes with its own unique features that makes your life more convenient and stylish. The bagless VC 3 multi cyclone vacuum cleaner fits perfectly into the modern family home with its elegant design and practical size while it offers consistent high power without loss of suction. And, the surprisingly affordable T 8/1 Classic vacuum cleaner offers excellent cleaning performance and 8 litre catch pan for long work intervals, professionally designed vacuum cleaner for home use.

## 1 The cordless vacuum cleaner

Kärcher cordless vacuum cleaner offers maximum freedom of movement and a long battery running time - for a very high level of comfort. Thanks to state-of-the-art technology, the device offers powerful cleaning performance. And the innovative design ensures compact storage.

## 2 Long-lasting, powerful and safe

The ash and dry vacuum cleaner impress with their long-lasting and high level of suction power due to the integrated filter cleaning. With special accessories, the AD 4 Premium can also be used as a high-quality dry vacuum cleaner.

## 3 The starter canister vacuum cleaners

Kärcher floor vacuum cleaner are canister vacuum cleaners for the practical cleaning of flats or small homes. Well-equipped for many applications thanks to diverse accessories.

## 4 Multi-cyclone technology

The yellow VC 3 Plus multi-cyclone vacuum cleaner without filter bag is powerful and economical. With its transparent waste container, the cleaning effect can be seen at a glance.

## 5 The six-stage filter system including HEPA

The six-stage filter system with three-ply fleece filter bag, permanent main filter, motor protection filter and exhaust/HEPA filter ensures a separation degree of up to 99.997 per cent for optimal dust separation in HEPA quality.

# STEAM CLEANING WITHOUT CHEMICAL

One for everything: the steam cleaner. The Kärcher steam cleaners ensure cleanliness in the entire household and your family can be sure that everything is cleaned fibre-deep – completely without chemicals. Thanks to the top cleaning performance, the steam kills up to 99.99%\* of coronavirus and all bacteria and ensures maximum hygiene and a healthy living environment. Whether in the kitchen, bathroom, on floors or even for the ironing, Kärcher really goes full steam and delivers top results.

## 1 Deep cleanliness without chemical

Scientific test confirm: Kärcher steam cleaners kills up to 99.99% of all household bacteria on hard surface, and they do this entirely without chemicals, using only steam.

\* The high temperature of the steam and excellent moisture penetration of the cloths reliably eliminate bacteria. For a healthy and child-friendly living space.

## 2 Clean better than a traditional wiping mop\*\*

The Kärcher steam cleaners achieve better results on hard floors than traditional, manual floor cleaning methods such as a wiping mop with detergents. This has been tested according to international performance standards.

\* When thoroughly cleaning with the Kärcher steam cleaner, 99.99% of all common household bacteria will be killed on common household hard surfaces.

\*\* When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.

## 3 Cleanliness throughout the house

Put a stop tiresome scrubbing and scouring! Kärcher's highly efficient steam cleaners make cleaning effortless and ensure impeccable cleanliness throughout your entire home. The devices are extremely versatile and can replace a variety of conventional cleaning utensils thanks to the wide range of available accessories. Typical areas of use include common hard surfaces throughout the home - in kitchen (eg. fittings, sinks, exhaust hood and work surfaces) and bathrooms (e.g. shower cabins, fittings, sinks, tiles and crevices).

## 4 Hot and tough on dirt

Kärcher professional steam cleaners prove that steam is more than just hot air. For cleaning reliably without the use of chemicals, these machines are efficient and hygienic. With vapoHydro function, you can adapt the steam flow and saturation to the respective surface. And with corresponding accessories you can also clean both hard surfaces and textile surfaces without chemicals with the SG 4/4.
