

Protective equipment

Pressure range up to 3,000 bar

Wearing professional personal protective equipment is absolutely essential for high-pressure water jets and ultra-high pressure water jets. The safety clothing provides protection against moisture and mechanical loads and also protection in accordance with PPE Ordinance (EU) 2016/425 category III.

Special features

- The products have CE marking – and they indicate the PROTECTION LEVEL for rotary nozzles (ROTOR), flat spray nozzles (FLAT) or point jet nozzles (SINGLE) (see label)
- Comfortable working
