Resilient, coated, high-gloss?  
Detergents for every application

### Perfect harmony

Whether hotels, hospitals or shopping centres, floors in commercial spaces are put through a great deal and need to be cleaned regularly. Not only is regular cleaning good for hygiene and aesthetics, it also helps to keep the floor covering looking its best for longer. We formulate our detergents to suit each requirement and ensure that they work in perfect harmony with our machines.

### Standard, specialist and everything in between

Our portfolio includes solutions for maintenance cleaning of a wide range of floor coverings as well as products bearing the EU Ecolabel. It also features specialist cleaners, industrial cleaners and deep cleaners as well as coatings. High concentrations are very effective in application, while low-foam formulas ensure efficient work. See our core portfolio of maintenance cleaning products in this overview - or find the full range online.
