PROFESSIONAL | DETERGENTS

CLEANLINESS WITH EU ECOLABEL

High-performance yet kind to the environment: detergents for everyday applications.

Passionate about sustainability

Developing detergents that are sustainable is challenging. That's because it is a matter of reducing or omitting environmentally harmful substances without compromising on cleaning performance. Kärcher has been developing cleaning chemicals for more than 40 years and has a whole line of products designed for manual cleaning that bear the EU Ecolabel.

Desks, toilets and more

Whether in ultra-high concentrate form or in a ready-to-use spray bottle, the products in the CA line are always an economical choice. What's more, the high-quality spray head can be adjusted to any degree from spray to foam. Solutions for floors, hard surfaces, glass, sanitary facilities and toilets are available. See our core portfolio in this overview - or find the full range online.

OUR TOP PICKS FOR MANUAL CLEANING

Sustainable detergents are important to us. Here are our best sellers for clean surfaces.
