## AS IF BY MAGIC...

Whether it's marks on upholstery or well-trodden tracks on carpets: we've got the magic touch for clean results.

### Cleaning to save time and money

In standard maintenance cleaning, carpeted floors are usually vacuumed, while upholstered furniture might be wiped with a damp cloth at most. But if you get rid of marks and stains with a time-saving process of interim-cleaning, you achieve two goals at once, giving yourself more time until the next deep clean, and thorough cleanliness is good for every space.

### Clever tricks of the trade

Kärcher has been developing its cleaning formulas for over 40 years. That's why it has the perfect cleaning solutions formulated specially for carpets and textiles. Our products for intermediate and deep cleaning often remove the need for rinsing, and our range also includes stain removers and universal cleaners. See our core portfolio in this overview - or find the full range online.

\* For more order numbers relating to different sized packs, please visit our [website](#).

\*\* iCapsol: iCapsol detergents encapsulate the dirt. It then crystallises as it dries, so the dirt can be vacuumed up. The benefits: no need to rinse and shorter drying time.

\*\*\* QA: odour absorber products don't simply mask odours with a fragrance, they absorb them. That way, they can no longer be perceived.
