Kärcher's pressure washers
showed the widest and thus most
efficient cleaning tracks in a lab test
with competitor models

DATE: November 2025

SLG CONFIRMS WIDEST CLEANING TRACK IN ALL K CLASSES!

An independent lab test by SLG confirmed Kärcher pressure washers have the widest cleaning track and thus the highest cleaning efficiency in all K classes.

Classes Covered: K 2, K 3, K 4, K 5, K 6 and K 7.

Geographic Restriction: This label can **only** be used for specific ***EU** and ***CH** devices listed in this document. Other country versions are *not* included.

PURPOSE AND USE OF THE SLG TEST LABEL

What is the purpose of Kärcher's use of the SLG test label?

Our internal tests frequently show that the **excellent cleaning performance of our pressure washers** is better than that of competitor machines. By testing externally with SLG we have an independent evaluation which may lead to even **higher credibility towards our customers**.

What does the SLG test label communicate?

The label confirms that a lab test was performed with Kärcher's pressure washers and competitor models in which the **Kärcher devices showed the widest cleaning track with a rotating nozzle** and thus the highest cleaning efficiency.

DEVICES FOR WHICH THE SLG TEST LABEL CAN BE USED

The label can only be used for **devices with identical technical specifications** for the pump and nozzle sizes

K Class	Tested devices	Devices with identical technical configuration (incl. variants with additional accessories)
K 2	K 2 Power Control	All K 2 *EU and *CH devices (with dirt blaster!)
K 3	K 3 Power Control	All K 3 *EU and *CH devices
K 4	K 4 Power Control K 4 Universal Edition	All K 4 *EU and *CH devices with asynchronous motors and universal motors
K 5	K 5 Premium Power Control K 5 Premium Smart Control	All K 5 *EU and *CH devices with asynchronous motors and *EU devices with universal motor (update 11/2025)
K 6	K 6 (Modular) K 6 Comfort	All *EU and *CH K 6 (Modular) devices and K 6 Comfort-Range
K 7	K 7 Power *EU K 7 Compact *CH K 7 Smart Control *EU K 7 Smart *CH	All K 7 *EU and *CH devices

TESTED COMPETITORS

Avoid comparative advertising - **do not share which competitors were tested** in advertising targeted at consumers.

K Class	Tested devices	Tested competitors
K 2	K 2 Power Control	Competitor devices with 110 bar: Bosch EasyAquatak 110, Wap Nilfisk AQUA 1100.2, Ryobi RY110PWA, Greenworks G20
K 3	K 3 Power Control	Competitor devices with 120 bar: Bosch EasyAquatak 120, Wap Nilfisk AQUA 1200.2B, AVA P40 Go, Black+Decker BXPW 1600PE
K 4	K 4 Power Control	Competitor devices with 130 bar or more: Lavor NINJA PLUS 130, Nilfisk Core 130-6 Powercontrol, BOSCH UniversalAquatak 130, Black+Decker BXPW 1700PE, Parkside PHD 135 D5, AVA P50 Smart
K 5	K 5 Premium Power Control K 5 Premium Smart Control K 5	Competitor devices with 145 bar or more: Nilfisk E 150.2-9 P X-tra, Bosch Advanced Aquatak 150; Ava Master P60, Parkside PHD 170 C2
K 6/7	K 6 (Modular) K 6 Comfort K 7 Power *EU K 7 Compact *CH K 7 Smart Control *EU K 7 Smart *CH	Competitor devices with 180 bar or more: Lavor Stargate 180, Annovi 3.S PE, Parkside PHDP 180 B2, Scheppach HCE 2600 <i>Note: K 6 was later (Feb. 2026) added to the same report and also our K 6 devices have a higher performance than the mentioned competitors.</i>
