✓ **Affordability** ✓ **Reliability** ✓ **Availability**

Sweep or move grain, rubbish, sand, gravel, rocks, glass, plastic, cans, metal swarf, dirt, dust, sawdust, snow and mud, leaf debris and many other materials.

Sweep materials such as plastic shrink wrap and welding wire which cannot be swept with rotary brooms or vacuum sweepers.

Pre-sweep larger debris before using your mechanical sweeper.

Suitable for applications in every industry including farming, agriculture, grain handling, waste, recycling, concrete, construction, demolition, landscaping, plastics, mining, sandblasting, etc.

“

Rugged industrial steel frame & hard wearing polypropylene bristles.

”

Economical and practical with a powerful sweeping action at a fraction of the cost of a mechanical sweeper.

Low maintenance:
No moving parts to break, repair or wear.

Versatile mounting for rapid and simple attachment to your forklift, loader, tractor or telehandler.

Sweeps equally well going forward or reverse.

Easy, simple cleaning with a hose or high pressure cleaner.

Phone SWEEPEX AUSTRALIA on 1800 680 337

Three models plus a full range of sizes available to suit most applications:

- Mega Broom
- Pro Broom
- ValuSweep Broom

Easy bristle replacement: simply slide out the old and slide in the new.

Excellent economy!
Get up to 400 km of sweeping for every 100 mm of bristle length.

Solid, one-piece rolled steel frame with fully welded channels for maximum strength on Mega & Pro Brooms.

“

Made in the USA, imported and distributed by SWEEPEX AUSTRALIA.

”

Low cost, high performance sweeping for interior and exterior applications.

Mounting kits available for forklifts, loader buckets, telehandlers, three-point hitches and skid-steer pivots.

Optional magnetic front bar for rapid removal of metallic debris *before you get a puncture*.

Optional dust mop for use inside with the ValuSweep broom for rapid fine dust control.

Productivity boost.
20 - 30 times faster than sweeping with a broom.
