Drive/Engine	VM R754 diesel engine, DPF, EURO 6 / VM R754 diesel engine, DPF, STAGE V
Power	<b>kW</b> 75.0 at 2,300 rpm / 54.5 at 2,300 rpm
Driving speed	<b>km/h</b> 60
Turning circle (inner radius)	<b>mm</b> 1,030
Dimensions (sweeper)	<b>mm</b> 4,491 × 1,300 × 1,999
Total permissible weight	<b>kg</b> 6,000
Unladen weight of sweeper	<b>kg</b> 3,800
Waste container volume	<b>l</b> 2,200
Fresh water tank	<b>l</b> 195
Water-recycling tank volume	<b>l</b> 400
Sweeping width	<b>mm</b> 2,500* / 2,660**

Equipment	
Heating and air-conditioning unit	Standard
Automatic climate control	Optional
Deluxe comfort seat	Optional
Sweeping system	Standard
3-brush system/weed brush	Optional
Wander hose	Optional
High-pressure cleaner	Optional

\* 2-brush system    \*\* 3-brush system

- 1

**Get in and feel comfortable**

The generously dimensioned two-person comfort cab offers you an unparalleled feeling of spaciousness and a perfect view of your working environment. The deluxe comfort seat, which is easy on your back, and the optional automatic climate control make even all-day deployments easy and relaxed. Access from both sides and doors with sliding windows that can be opened forwards and backwards result in even greater comfort and safety.
- 2

**Proven and familiar operation**

Using the ergonomic control terminal integrated in the armrest, you can operate the MC 250 intuitively right from the start. The brush arms can be controlled individually with the two-joystick system and come with optional brush tilting adjustment. Just press the ECO button to start the sweeping mode. The central display is integrated in the steering wheel hub so that you can always keep an eye on all functions without losing sight of your working environment.
- 3

**Largest waste container in its class**

The flow-optimised stainless-steel waste container has a capacity of over 2 m³ and makes it possible to work for very long intervals when combined with the standard water-recycling system and a separate water tank.
- 4

**Both fast and manoeuvrable**

Time is money. With a top speed of 60 km/h, you can cover the distance between different work locations in no time. Thanks to the all-wheel steering function when working, the MC 250 is still extremely manoeuvrable despite the large waste container and is particularly well suited to deployments in the city centre.
- 5

**Extremely comfortable safety suspension**

The hydropneumatic suspension guarantees comfortable suspension characteristics at all times – regardless of the load. The independent front-wheel suspension minimises the impact of road bumps on the steering system.
- 6

**Service made easy**

All the relevant cleaning and maintenance components for your MC 250 are quickly and easily accessible. This is ensured by the service flaps at the side and the hinged fresh water tank, for example.
