

# KÄRCHER

makes a difference

A close-up photograph of a Kärcher logo on a machine. The logo is a silver, brushed-metal rectangular plate with rounded corners, featuring the word 'KÄRCHER' in bold black letters above a yellow horizontal bar. The plate is mounted on a dark grey or black plastic surface. In the background, a bright yellow curved surface is visible, likely part of the machine's body. The lighting creates highlights and shadows, emphasizing the metallic texture and the sleek design of the machine.

**Home & Garden**

## **THE BATTERY IS CONQUERING THE CLEANING MARKET. WITH KÄRCHER, YOU ARE PREPARED.**

The lives of your customers are becoming more and more cordless – also when cleaning. The demand for and supply of battery-powered devices on the market are constantly increasing. In 2018, Kärcher is not only moving with this trend but, as usual, is also setting new standards. For example, with cleaning devices including an exchangeable battery system: Pressure washers (medium- and high-pressure) and multi-purpose vacuum cleaners are operated with 18 V or 36 V exchangeable batteries, depending on the performance requirement. Indoors, the new cordless compact vacuum cleaner impresses with the perfect combination of high suction power and a long battery running time. The new autonomous RoboCleaner vacuums all by itself, giving its customers more time for the nicer things in life. Very much in keeping with the motto: Why work when you can have fun? We have, of course, also improved our products for garden maintenance and offer our customers an even bigger selection of pumps. Such as the new SP 5 Dual, which changes from a dirty water pump to a submersible flat suction pump in a matter of seconds and, as a result, can pump out both dirty and clear water. **Discover the difference. With Kärcher.**

# FOR US, EVERYDAY LIFE IS THE BEST CHALLENGE IN THE WORLD.

Every day, we at Kärcher work towards making a difference. Whether it is a simple driveway or Mount Rushmore – outstanding cleaning performance matters to us – down to the last centimetre. Because we do not simply clean. We do everything to make everyday life better. In this way, we help our customers to make a difference. Every day.

**1 Customer orientation**

With our Home and Garden solutions, we help to make the daily tasks of our customers easier. Our products are not only used because they are extremely quiet, energy-saving and efficient. They also look great and are so intuitive to operate that one thing is clear: The bigger the task, the greater the enjoyment.

**2 Innovation**

Kärcher cleaning appliances combine functionality, ease of use and a sophisticated appearance. This has meant that our products have already won more than 150 national and international prizes for exemplary design. In addition, more than 1,700 patents and utility models are evidence of the company's ingenuity and love of innovation. Our focus is always on the needs of our customers.

**3 Quality**

However, our customers can only make a difference themselves - every day - if the quality is right. Before a new device is launched on the market, it is thoroughly tested: for maximum functionality and safety, environmental compatibility and low consumption values. A new device only goes into series production once it has passed every test. Only when all quality requirements have been fulfilled - from production to sales - will our name stand for the level of excellence that our customers are accustomed to.

**4 Our brand**

We are proud to be a unique brand that is appreciated by our customers because they know that they can always expect something special from us. Whether it is with our products, our advertising, our presence at trade fairs or with our social commitment. With our campaigns, we show how we make a difference - Kärcher makes a difference.

## BE THE DIFFERENCE

Sustainable, people-oriented company development is the central focus of our activities. Our primary goal is the creation of values for our customers, our employees and the company. In order to achieve this, we must deliver top performance in relation to sustainability. On the one hand, with the continued existence of the company through successful products and an honest and reliable partnership with our customers, employees and suppliers. On the other, by creating attractive working conditions, reducing the ecological footprint of our business activities and making efficient use of resources.

### 1 Responsibility for culture, nature and society

What distinguishes a company that claims to be a good corporate citizen? Is it the support of cultural initiatives? Environmental protection? Donations of money or donations in kind for those in need? We think being a good corporate citizen means taking responsibility: We want to make the world a better place to live in for as many people as possible.

### 2 Responsibility for the supply chain and products

Consumers are critical these days. They now ask more questions before purchasing than they used to. What they want to know is: Where was the product manufactured, by whom and in what conditions? What materials is it made of? And can it be recycled afterwards? How efficiently does the device operate? Kärcher takes these consumer interests seriously, responds to questions and has the right answers. This is because Kärcher is not only the market leader in cleaning technology but also a benchmark in terms of sustainability.

### 3 Responsibility for employees

Company founder Alfred Kärcher took up the cause of sustainable, people-oriented corporate management. His attitude is still the guiding principle and basis of a corporate policy in which the reconciliation of career and family, the health of employees and their professional development and training play a central role. We treat our employees in an appreciative and caring way. Thanks to its strong commitment, Kärcher has been able to become the global market and technological leader in cleaning technology.

**BE THE  
DIFFERENCE**

[www.kaercher.com/CSR](http://www.kaercher.com/CSR)

## NO CABLE. NO LIMIT.

Is there no power connection in the outside area or in the workshop? Not a problem for the new battery-powered cleaning devices with an exchangeable battery system. Thanks to 2 different battery platforms, 18 V or 36 V, the appropriate device is available for every performance requirement and every application.

NEW

### 1 KHB 5 Battery

The Kärcher battery-powered medium-pressure washer KHB 5, including 18 V li-ion exchangeable battery, is flexible and quickly ready to use. The maximum cleaning time is 10 or 20 minutes, depending on the battery. Just connect the hose, and you are ready to go. The remaining battery running time can be easily read on the integrated LCD display. The handheld device is ideal for the quick intermediate cleaning of garden furniture, garden tools, bikes and for other applications around the home. Sensitive surfaces can also be easily cleaned with the efficient, but gentle, cleaning jet. In addition, the compact cleaning device can be easily stowed away.

### 2 K 2 Battery

The battery-powered pressure washer K 2 Battery is perfect for the versatile cleaning of smaller cars, motorbikes, bikes and boats, as well as for smaller cleaning tasks around the home. The running time of the 36 V / 5.2Ah battery is up to 17 minutes. In order to suction water from containers, the device can also be connected to a Kärcher suction hose. Depending on the cleaning task, the operator can switch between standard and boost mode. The selected mode is always shown on the analogue display of the high-pressure gun during cleaning.

### 3 WD 3 Battery

The WD 3 Battery, including 36 V li-ion exchangeable battery, is just as functional as a multi-purpose vacuum cleaner with cable, but more mobile, flexible and can be used for even more applications. The device runs for 15 to 30 minutes, depending on the battery, holds 17 litres and has a cartridge filter for wet and dry vacuum cleaning without filter replacement. The flow-optimised suction hose and the clever clips floor nozzle with mixing insert optimally absorb dirt. The removable handle is also practical for attaching accessories directly to the suction hose. The suction tube and floor nozzle can be conveniently parked temporarily thanks to a parking position. Additional extras include the blower function, the "Pull & Push" locking system, the ergonomic carrying handle and the extremely practical accessory storage.

### 1 18 V and 36 V li-ion exchangeable battery system

18 V li-ion exchangeable batteries can be used in all 18 V devices, and the 36 V li-ion exchangeable batteries can be used in all 36 V devices. All batteries can be changed quickly and easily and can therefore be used flexibly at any time.

### 2 Innovative Real Time Technology

The LCD display integrated into the battery shows the current battery status at any given time. The display also provides information about the current charging state, the remaining running time, depending on the device being used, as well as the remaining charging time.

### 3 Powerful lithium-ion battery

The lithium-ion cells guarantee constant power and prevent self-discharge and memory effect.

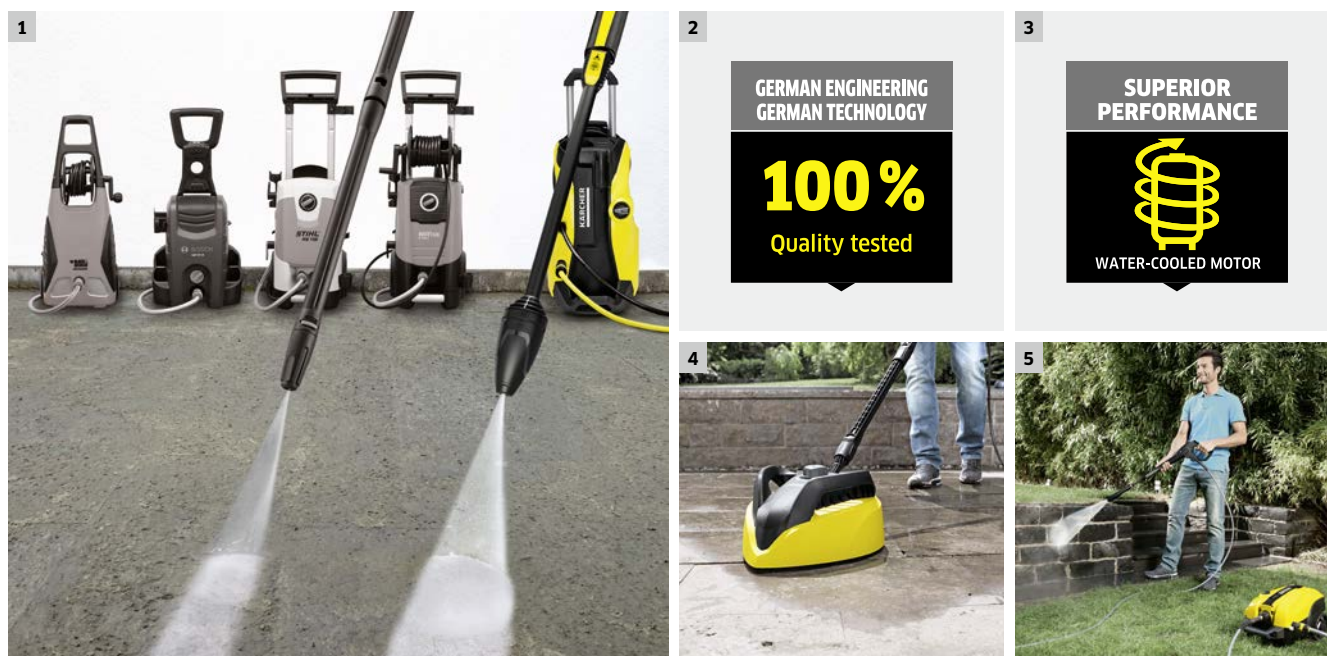

## FROM POWERFUL TO GENTLE: ALWAYS "MADE-TO-MEASURE".

Kärcher pressure washers offer the perfect solution for every cleaning task. Where previously dirt reigned supreme, afterwards there is nothing but cleanliness. With Kärcher, you upgrade your home environment and restore value to your possessions: From old to new, from shabby to chic. Passionate engineering, the highest standards of quality and decades of experience in developing innovative pressure washers make this possible.

### Table of contents: Pressure washers, mobile cleaning and sweepers

### 1 Outstanding cleaning performance

Compared with the competition, Kärcher pressure washers are distinguished by greater cleaning performance and efficiency. In short: Cleaning is much faster, saving up to 50 per cent time and therefore 50 per cent energy and water, as confirmed by regular tests carried out by Kärcher. The Kärcher test design was scientifically supported by the Fraunhofer IPA Institute.

### 2 Quality products - made in Germany

As the inventor of high-pressure cleaning, Kärcher has unique specialist knowledge, the breadth and depth of which is unrivalled in the marketplace. For over 60 years, Kärcher has been perfecting the art of high-pressure cleaning and is constantly in the spotlight on account of its outstanding innovations. As the global market leader, we offer the most reliable pressure washers on the market. We manufacture all of our devices in our own factories to the highest production standards. Before the products leave the factories, their functionality and performance are fully tested. That is why we can always guarantee to our customers that they are purchasing perfect products which speak for themselves in terms of their performance capabilities and long service life.

### 3 Advanced motor technology

The Kärcher Full Control and Compact range classes K 4 – K 7 are equipped with innovative water-cooled motor technology and set new standards. Instead of a cooling fan, water is used to cool the motor. Before the water is used for cleaning, it flows around the motor casing, providing constant cooling. The benefits: High performance and durability.

### 4 Versatility is the name of the game

Kärcher offers the largest range of accessories and detergents on the market, and therefore opens up unlimited application possibilities for high-pressure cleaning. Kärcher has the right solution for almost any cleaning challenge. One good example: The Kärcher surface cleaners, which cut cleaning times for horizontal and vertical surfaces in half – and without annoying spray water.

### 5 Customer orientation

In order to understand our customers' needs, we regularly carry out large-scale customer surveys. The findings we gain from this are then systematically used to develop new products. We also work towards the constant improvement of our devices. The result is innovation: 90 per cent of all Kärcher products on the market are less than 5 years old. In addition, Kärcher is a system provider – pressure washers of different performance classes, a diverse range of detergents and appropriate accessories offer the ideal package for every task.

# PERFORMANCE CLASSES AND PRODUCT RANGES FOR EVERY NEED

Kärcher offers variety – with pressure washers in different performance classes and different product ranges. Every range has its own unique concept to fulfil specific customer wishes such as ease of use, compactness, sustainability, weight, noise reduction and mobility. In short: At Kärcher, we have the perfect pressure washer for everyone – guaranteed.

1

## 1 The right performance class

The cleaning performance of a pressure washer is determined by the combination of water pressure and water volume. The better these two factors are aligned, the easier it is to remove stubborn dirt and the quicker large surface areas can be cleaned. Kärcher puts its devices into specific performance classes based on different cleaning requirements. The larger the surface area to be cleaned and/or the more stubborn the dirt, the higher the performance class recommended. To clean large surface areas such as façades, a K 7 device with matching accessories is recommended. As well as offering better performance, higher performance classes also offer practical additional functions.

These include longer hose lengths for a considerably greater working radius. This ensures short set-up and dismantling times and considerably more comfort, especially in the case of frequent use.

### 1 Full Control Plus and Premium Full Control Plus range

Pressure setting at the touch of a button: With the control buttons on the trigger gun, the thumbs can control the desired pressure stage and detergent dosage. The 3-in-1 Multi Jet contains a dirt blaster, flat spray and detergent nozzle and removes the need to change the spray lance. The Premium model includes a hose reel.

### 2 Full Control and Premium Full Control range

Always the correct setting, always the best result – this is ensured by the new Kärcher Full Control range with pressure regulation on the spray lance and a pressure indicator on the trigger gun. The products also feature a telescopic handle for optimal storage, the tried-and-tested Plug 'n' Clean system for simple use of detergents and the Premium version also has a hose reel.

### 3 Compact range

Small and powerful: Kärcher's Compact range convinces with its compact dimensions, low space requirements, easy storage and high mobility.

### 4 Kärcher cleaning devices with state-of-the-art exchangeable battery technology

The mobile and flexible pressure washers with exchangeable battery and innovative Real Time Technology offer impressive cleaning power without a power connection. With the Kärcher handheld device, pressure cleaning is now available in a completely new design.

## THE RIGHT SETTING FOR EVERY TASK

Kärcher turns high-pressure cleaning into an experience: The trigger gun with LCD display for pressure level display, as well as the 3-in-1 Multi Jet with dirt blaster, flat spray nozzle and detergent mode, actively support the user with the right setting. Many additional well-thought-out functions round off the product concept – ensuring the best and most convenient handling ever.

### 1 Full Control Plus and Full Control range

With the Full Control Plus devices, it is all about the Full Control Plus Power Gun – because it is the important interface between user and pressure washer. Kärcher has moved all of the important functions onto the Full Control Plus Power Gun and spray lance for maximum control during every use. Multiple spray types are covered using a single spray lance with the 3-in-1 Multi Jet. Furthermore, the device also features a central and easily accessible parking position, allowing the Full Control Power Gun with mounted spray lance to be compactly stowed during work breaks and after the work is completed. The devices in the K 2 to K 4 performance classes also have application consulting: The pressure is regulated here via the spray lance and the pressure level is displayed on the trigger gun (K 3/K 4) or the spray lance (K 2).

### 2 Perfect hose storage

The K 3 to K 7 Premium model devices are equipped with a high-quality hose reel. And the standard range has a generous hose hook. This allows the hose to be stowed tidily after the work is completed.

### 3 Plug 'n' Clean (K 4 - K 7)

Quick, easy, convenient – thanks to the Plug 'n' Clean system, Kärcher detergent can be replaced with just one simple movement.

### 4 Telescopic handle

The robust, telescopic handle allows convenient transport and ergonomic work. And, for optimal storage, it can be completely retracted.

### 5 Stability and transport

The hose guide through the device and the stability foot ensure particularly high stability. The stability foot also serves as a second carrying handle, making transporting the device easier.

### 6 Water-cooled motor

The K 4 through K 7 Full Control devices are equipped with a water-cooled motor for high performance and durability.

### 1 Full Control Plus Power Gun

Pressure stages and detergent dosing can be adjusted using the +/- buttons on the innovative Full Control Plus Power Gun on the new Full Control Plus pressure washers. The clearly arranged LCD display on the Full Control Plus Power Gun permanently shows the selected setting so that the operator is constantly in control of all of the settings.

### 2 3-in-1 Multi Jet

Changing the spray lance is no longer necessary with the 3-in-1 Multi Jet because there are already three different nozzles on this one spray lance. The flat spray nozzle for all three pressure ranges enables the thorough removal of dirt from a wide variety of surfaces. Hard mode: e.g. concrete, granite or garden tools. Medium mode: e.g. vehicle paintwork. Soft mode: e.g. wooden surfaces or bikes. Stubborn dirt can be removed from resistant surfaces quickly and easily with the dirt blaster nozzle. The detergent nozzle is ideally suited for using detergents for any surfaces. The detergent concentration can be adjusted to any one of three dispensing levels depending on the requirement.

### 3 Versatile application possibilities

Thanks to the variety of settings, surfaces with different levels of sensitivity, such as wood, stone or painted surfaces, can always be cleaned gently and effectively with the appropriate pressure. The Kärcher application consultant suggests which pressure and nozzle setting is best suited for which surface.

### 4 Detergent for increased shine

An even better cleaning result can be achieved by applying detergent. To do so with the 3-in-1 Multi Jet, simply select the detergent nozzle – and the Plug 'n' Clean system draws the detergent right from the attached bottle and applies it to the item you are cleaning through the water stream. Often overlooked, using detergents when high-pressure cleaning is a critical part of the cleaning process. Kärcher detergents are not only first rate for all your dirt removal needs, they also contain maintenance components that protect against both resoiling and the elements.

# K 7 PREMIUM FULL CONTROL PLUS

## The right setting for every job

Pressure level control and detergent dosing at the push of a button on the Full Control Plus Power Gun - the K 7 Premium Full Control Plus with hose reel offers greater control than ever before. Area performance approximately 60 m<sup>2</sup>/h.

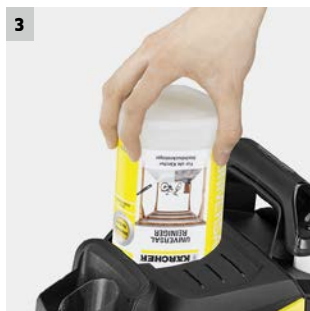

**1 Full Control Plus Power Gun**

- With buttons for pressure regulation and detergent dosing, as well as LCD display. Includes Quick Connect.

**2 3-in-1 Multi Jet spray lance**

- Easily switch between flat spray, rotary and detergent nozzle by turning the spray lance.

**3 Plug 'n' Clean**

- The detergent can be replaced quickly and conveniently in just one simple motion.

**4 Hose reel**

- With a practical reel, the high-pressure hose can always be stored neatly.

# K 7 COMPACT

## Small and powerful

The compact K 7 is ideal for frequent use against the most stubborn dirt. Space-saving, easy to store and easy to transport. Area performance approximately 60 m<sup>2</sup>/h.

### 1 Easy to transport

- The high-quality aluminium telescopic handle can be adjusted to a convenient height for transport and easily retracted again for storage.
- The small, robust devices in the Compact range have two carrying handles and can easily be taken with you, wherever you go.

### 2 Outstanding performance

- The state-of-the-art water-cooled motor impresses with its long service life and high level of performance.

# K 5 PREMIUM FULL CONTROL PLUS

## The right setting for every job

Pressure level control and detergent dosing at the push of a button on the Full Control Plus Power Gun - the K 5 Premium Full Control Plus with hose reel offers greater control than ever before. Area performance approximately 40 m<sup>2</sup>/h.

**1 Full Control Plus Power Gun**

- High-pressure gun including LCD display and buttons for controlling pressure and detergent. With Quick Connect.

**2 3-in-1 Multi Jet spray lance**

- Spray lance with flat spray, rotary and detergent nozzle as well as application icons to indicate each nozzle.

**3 Plug 'n' Clean**

- For quick, convenient and comfortable application of detergents with the pressure washer.

**4 Hose reel**

- With a practical reel, the high-pressure hose can always be stored neatly.

# K 5 FULL CONTROL

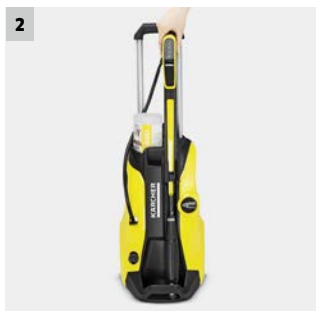

## The right setting for every job.

The K 5 Full Control gives you more control than ever before. The pressure can be regulated on the spray lance to suit the surface, and the pressure level set can be checked on the Full Control Power Gun with a quick glance at the LED display. This means you always have the right setting at hand – for every cleaning task. Suitable for regular use against medium dirt. Area performance approximately 40m<sup>2</sup>/h.

### 1 Full Control Power Gun and spray lances

- Three pressure settings and a detergent setting ensure the optimal setting for every surface.
- The pressure can be regulated by twisting the Vario Power spray lance until the desired level is shown.
- The LED display on the Full Control Power Gun allows easy checking of the setting.

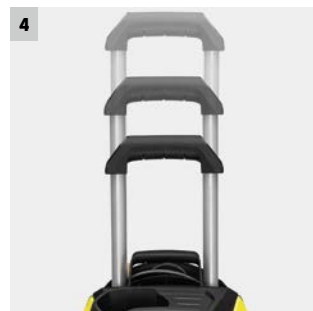

### 2 Parking position for easy accessory storage at all times

- The Full Control Power Gun and the connected spray lance can be stored conveniently in the device during work breaks.
- The Full Control Power Gun is always ready to hand and easily accessible.
- After the work is done, the Full Control Power Gun and the spray lance can be stored on the device to save space.

### 3 Plug 'n' Clean

- Quick, easy and convenient application of detergents with the pressure washer.
- Thanks to Plug 'n' Clean, the detergent can be replaced quickly and conveniently with just one simple movement.
- Kärcher detergents increase efficiency and help protect and care for the surface being cleaned.

### 4 Telescopic handle

- Made of high-quality aluminium.
- For a convenient pulling height.
- Completely retractable for optimal storage.

# K 4 SILENT

## Ultra-quiet

The silent K 4 is ideal for occasional use against medium dirt. Its PremiumFlex hose with anti-twist system allows comfortable work without tangles or tripping. Area performance approximately 30m<sup>2</sup>/h.

### 1 Innovative silent function

- 50% reduction in perceived noise level compared to conventional devices in the same performance class.

### 2 PremiumFlex hose with anti-twist system

- Easy winding and unwinding of hose without tangling.
- The PVC-free material and special construction of the PremiumFlex hose ensure the necessary flexibility.

### K 4 Silent

- Very quiet (max. 81 dB (A))
- Elastic storage strap with clip-in function
- Small and robust thanks to aluminium telescopic handle and compact design

## K 2 PREMIUM FULL CONTROL

### The right setting for every job.

Pressure regulation and control on the Full Control Click Vario Power spray lance to fit the surface - the K 2 Premium Full Control with detergent tank offers greater control than ever before. Area performance approximately 20m<sup>2</sup>/h.

#### 1 Full Control Click Vario Power spray lance and dirt blaster

- Three pressure settings and a detergent setting ensure the optimal setting for every surface.
- Turning the Full Control Click Vario Power spray lance selects the settings.
- The pressure level is displayed by symbols on the respective spray lance.

#### 2 Supports for accessories, high-pressure gun and cable

- After the work is done, the spray lances can be stored on the device to save space.

#### 3 Telescopic handle

- For a convenient pulling height.
- Retractable for optimal storage.

#### 4 Clean tank solution

- The practical detergent tank simplifies the application of detergents.

# K 2 COMPACT

## Compact and versatile

The compact K 2 is suitable for occasional use against light dirt. Extremely space-saving thanks to the carrying handle and easy to transport thanks to the low weight. Area performance approximately 20 m<sup>2</sup>/h.

### 1 Hooked on tidiness

- Generous hook for tidy storage of the hose and cable directly on the device.

### 2 Full cleaning power

- An integrated suction mechanism for detergents is included in the Kärcher K 2 Compact and K 2 Compact Home.

## THE PETROL-RUN RANGE - FOR INDIVIDUAL REQUIREMENTS.

Maximum flexibility - without using any electricity at all. The G range makes this possible. Powerful petrol engines make the devices independent of the electricity supply. With solid frames and large wheels, the G range is also suitable for applications on challenging terrain. The G range - ideal, for example, for trailers, trucks, boats, ramps and lots more.

### The petrol-run range

Cleanliness with no limits: The petrol-run G range makes completely self-sufficient work possible, far away from the nearest plug socket, and also impresses with excellent performance data. With the help of the suction function, the water can also be supplied, e.g. from barrels or canisters, independent of the mains water supply. Thanks to solid frames and large wheels, the G range is also suitable for applications on challenging terrain. Some tried-and-tested applications include, for example, trailers, trucks, boats and ramps.

## GAS RANGE

### For individual requirements

Maximum flexibility – without electricity. The G range makes it possible. Thanks to their powerful petrol engines, these devices do not require an electricity supply. And thanks to sturdy frames and large wheels, the G range is also suitable for use on challenging terrain. The G range – ideal for trailers, lorries, boats, driveways and much more.

#### 1 Petrol operation

- The powerful petrol engine is easy to start and enables mains-free cleaning.

#### 2 Injector

- The G-range devices feature a special injector which dispenses detergent during low pressure operation.

## K 2 BATTERY

**No power cable means even more flexible high-pressure cleaning.**

This cordless pressure washer with a running time of up to 17 minutes is suitable for many different applications in and around the home – regardless of whether there's a power source available. Trigger gun with analogue display included.

### 1 Battery powered

- Cleaning without a power connection.
- With innovative Real Time Technology: Remaining running and charging time is shown on the battery display.
- Compatible with the batteries of the 36 V Kärcher li-ion battery platform.

### 2 Trigger gun with analogue display

- Displays the selected cleaning mode.
- Displays the detergent mode.

### 3 Capable of suction

- Compatible with the Kärcher suction hose for cleaning regardless of whether a water connection is available.

### 4 Detergent suction hose

- For applying detergent.

36-52 li-ion battery	2.445-003.0	36 V / 5.2 Ah li-ion exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level. Suitable for use with all devices in the 36 V Kärcher battery platform.	
36 V fast charger	2.445-008.0	Full again in no time: With the fast charger, the 36 V / 2.6 Ah li-ion exchangeable battery can be charged to 80% in just 45 minutes. Also suitable for all other batteries in the 36 V Kärcher battery platform.	

# KHB 5 BATTERY

## Always handy.

Connect the hose and it's ready to go: The innovative Kärcher KHB 5 Battery with 18 V li-ion exchangeable battery for quick, versatile intermediate cleaning in and around the home, without the need for a power connection.

1

2

3

4

### 1 Innovative device design

- The cleaning device is handheld. For excellent flexibility and freedom of movement.
- Can be stored compactly.

### 2 Battery powered

- Cleaning without a power connection.
- With innovative Real Time Technology: Remaining time is shown on the battery display.
- Compatible with the batteries in the 18 V Kärcher li-ion battery platform.

### 3 More efficient and optimally adjusted medium pressure

- Medium pressure is advantageous because it is efficient but also gentle on the surface.
- Adapted flat spray nozzle in the single spray lance and rotary nozzle for cleaning objects that do not require high pressure.

### 4 For cleaning surfaces

- The PS 20 Handheld Power Scrubber Surface Cleaner has a splash guard with bristles and can be rotated by 90°.
- Ideal for cleaning small surfaces and staircases.
- Optionally available as an accessory.

## PERFECT EQUIPMENT - PERFECT CLEANLINESS

Kärcher's range of special accessories and detergents offers the right solution for every cleaning task. Whether it is brushes, spray lances, surface cleaners or special applications - dirt stands no chance against our versatile and powerful cleaning aids.

### 1 Great help for hard-to-reach corners

Close-range nooks and crannies are best accessed using the Vario Power Jet Short 360°. The 360° nozzle head and short spray lance ensure convenient cleaning. The optimum working angle reduces spray water to a minimum. The pressure can be continuously adjusted for sensitive surfaces.

### 2 FJ 10 C, Foam Jet Connect 'n' Clean

The innovative foam jet for producing and applying powerful foam is ideal for cleaning cars, motorbikes, etc. The foam jet is available in a set with various detergents. Thanks to the practical quick-change system, the user can swap between the detergents with just a simple click.

### 3 Splash guard

The splash guard protects people and the environment from spray water and removed dirt. The transparent colour ensures surfaces that still need to be cleaned are easily visible at all times. This feature helps to achieve efficient cleaning results. The three adapters enable it to be quickly and easily used with all new Vario Power jets, the dirt blaster and the Multi Jet. Compatible for all K 2 - K 7 class pressure washers.

### 4 Power Brush WB 150

Gentle cleaning at full power: The innovative wash brush with 2 rotating flat spray nozzles cleans sensitive areas without splashing water - from paint to glass through to plastic. With its intelligent combination of high-pressure jet and manual brushing action, it saves energy, water and up to 30 per cent time.

### 5 Full Control Plus Trigger Gun and Multi Jet

With the Full Control Plus Trigger Gun, the pressure can be individually adapted depending on the cleaning task and surface - for even more control when cleaning. The 3-in-1 Multi Jet spray lance combines the flat jet, the rotating nozzle and the detergent jet, removing the need to interrupt the work flow to change the spray lances.

### 6 T-Racer surface cleaner

The T-Racer surface cleaners break down dirt across large areas with their twin jet rotating arm. This allows you to clean around twice as fast compared with a spray lance. The hood protects the operator and surroundings from spray water, and sensitive surfaces can be treated gently using pressure regulation.

# QUALITY FROM TAP TO DEVICE

Kärcher garden hoses, adapters, universal connectors, etc. are ideally adapted to different applications and the corresponding device. Accessories designed specifically for Kärcher systems optimise high-pressure cleaning and garden watering. With their outstanding quality and durability, as well as convenient handling, they never fail to impress. All solutions are ready to use straight away.

# SURFACE CLEANERS

T-Racer, the surface cleaners from Kärcher, make cleaning exterior surfaces quick, efficient and spray-free. The pressure can be adjusted appropriately for gentle cleaning of various surfaces, such as wood or stone. Thanks to the innovative corner cleaning nozzle and the triangular shape, even corners and edges can be cleaned without any spray. With their twin jet rotating arm, Kärcher T-Racers are capable of removing dirt from a large area and clean twice as fast as a spray lance. Thanks to the so-called hovercraft effect, T-Racers are particularly easy to manoeuvre. For cleaning areas with lots of corners and edges, such as stairs, we recommend the power scrubber with the practical squeegee blade.

		Order no.	Description
<b>Surface cleaners</b>			
T 450, T-Racer Surface Cleaner	1	2.643-214.0	For splash-free cleaning of a wide range of surfaces. With additional power nozzle for efficient corner and edge cleaning. Switching is carried out easily using the pedal button. Protection grid for gravel surfaces, adjustable nozzle clearance for cleaning different surfaces such as stone and wood, and handle for cleaning vertical surfaces, e.g. garage doors. For devices in the K 4-K 7 ranges.
T 350, T-Racer Surface Cleaner	2	2.643-252.0	For splash-free cleaning of a wide range of surfaces. Adjustable nozzle clearance for cleaning different surfaces such as stone and wood, and handle for cleaning vertical surfaces, e.g. garage doors. For devices in the K 2-K 7 ranges.
PS 40, Power Scrubber Surface Cleaner	3	2.643-245.0	PS 40 Power Scrubber with 3 integrated high-pressure nozzles. Removes stubborn dirt from a wide variety of surfaces, powerfully, reliably and quickly. Ideal for stairs and edges. Includes integrated squeegee blade to remove dirty water.
Replacement Nozzles Accessories	4	2.643-338.0	High-quality replacement nozzles for easy replacement of accessory nozzles. Suitable for changing the nozzles on T-Racer surface cleaners in the K 2-K 7 ranges (except T 350), PC 20 gutter cleaners for K 3-K 7 and chassis cleaners for K 2-K 5.
Replacement Nozzles Accessories T 350	5	2.643-335.0	High-quality replacement nozzles for easy replacement of accessory nozzles. Suitable for changing the nozzles on T-Racer T 350 surface cleaners for the K 2 - K 7 ranges.
<b>Handheld</b>			
PS 20 Handheld Surface Cleaner	6	2.644-018.0 ■	This power scrubber is the ideal addition to the KHB 5 Battery cordless pressure washer for cleaning small areas and staircases.

■ NEW ■ Included in the scope of supply □ Available accessories. You can find more Kärcher original accessories on the following pages.

# BRUSHES

A new generation of cleaning: the revolutionary Power Brush WB 150 is the first high-pressure cleaning brush! The power brush cleans all surfaces in outside areas quickly, efficiently and gently. Thanks to the clever combination of a high-pressure jet and manual brush pressure, the power brush saves energy, water and up to 30% time. The power brush is suitable for practically all materials – from paint to glass to plastic. Even sensitive surfaces such as car paint or spar varnish can be gently and effectively cleaned with the power brush. With its practical triangular shape, it also makes light work of corners and edges.

		Order no.	Description
<b>Brushes</b>			
WB 150, Power Brush	1	2.643-237.0	Power Brush WB 150 for splash-free cleaning of sensitive surfaces. The efficient combination of high pressure and manual brush pressure saves energy, water and up to 30 % time.
WB 100, Rotating Wash Brush	2	2.643-236.0	WB 100, Rotating Wash Brush with joint for cleaning all smooth surfaces such as paint, glass or plastic. Continuously adjustable 180° joint on the handle for cleaning hard-to-reach places.
WB 60, Soft Surface Wash Brush	3	2.643-233.0	WB 60, Soft Surface Wash Brush for cleaning larger surfaces such as cars, caravans, boats, conservatories and blinds. Good area performance with a working width of 248 mm.
Wheel Washing Brush	4	2.643-234.0	Wheel washing brush for effective 360° cleaning, even in hard-to-reach places. Uniform water distribution over 360° for even, all-round cleaning results.

■ Included in the scope of supply    □ Available accessories.    You can find more Kärcher original accessories on the following pages.

## SPRAY LANCES AND EXTENSION PIECES

Whether it's the Multi Power Jet with five different spray types, the Vario Power Jet Short 360° for optimum accessibility in close, angled areas, the dirt blaster with its rotating detail nozzle for particularly stubborn dirt, or the four-metre long telescopic spray lance for effective and convenient cleaning of elevated areas – Kärcher offers the right spray lance with the right accessories for every application.

		Order no.	Description
<b>Spray lances</b>			
Telescopic Spray Lance	1	2.642-347.0	Telescopic spray lance (1.2-4 m) for easy cleaning of hard-to-reach areas. With shoulder strap, bayonet connection and integrated adjustable ergonomic trigger gun. Weight: approx. 2 kg.
Splash Guard	2	2.642-706.0	Transparent splash guard for Kärcher pressure washers of classes K 2-K 7, protects operator and environment from spray water. Ideal for cleaning corners and edges.
Angled Spray Lance	3	2.638-817.0	The angled spray lance is an extra long (around 1 m) angled spray lance for convenient cleaning of hard-to-reach places such as gutters and vehicle underbodies.
1-Step Lance Extension	4	2.643-240.0	Lance extension for 0.4 m extension. For more effective cleaning of hard-to-reach places. Suitable for all Kärcher accessory parts.
VP 180 S, Vario Power Jet Short 360° for K 2-K 7	5	2.643-254.0	The Vario Power Jet Short 360° with continuously adjustable pressure regulation and adjustable 360° joint is ideal for cleaning areas that are difficult to reach.
MJ 180, 3-in-1 Multi Jet Full Control for K 7 FC Plus and K 7 Premium FC Plus	6	2.643-907.0	The 3-in-1 Multi Jet combines a continuously adjustable high-pressure flat jet, rotary nozzle and detergent jet in one. Conveniently select the right jet by turning the Multi Jet, pressure regulation is via the G 180 Q Full Control Plus trigger gun.
MJ 145, 3-in-1 Multi Jet Full Control for K 5 Premium FC Plus	7	2.643-906.0	
MP 180, Multi Power Jet for K 6-K 7	8	2.643-238.0	Multi Power Jet with 5 spray types: detergent jet, high-pressure flat jet, rotary nozzle, point jet and wide, reduced pressure flat jet. Simply twist to select the right jet.
MP 145, Multi Power Jet for K 3-K 5	9	2.643-239.0	
VP 180, Vario Power Jet for K 7	10	2.642-726.0	From low-pressure detergent jet to high-pressure jet with continuous pressure regulation by simply turning the spray lance.
VP 145, Vario Power Jet Full Control for K 4-K 5	11	2.642-725.0	
VP 120, Vario Power Jet Full Control for K 2-K 3	12	2.642-724.0	
DB 180, Dirt Blaster for K 7	13	2.642-729.0	Dirt blaster with powerful rotary nozzle (rotating point jet) for especially stubborn dirt. Ideal for mossy or weather-worn surfaces.

## HOSES

Whether you need a replacement hose or extension hose for more flexibility, Kärcher's high-quality range of hoses can meet all your needs. They are available either with Quick Connect or with the traditional screw connection. With the upgrade set, old devices can be fitted with the easy-to-use Quick Connect system at a later date, with the sole exception of hose reel devices.

		Order no.	Description
<b>High-pressure replacement hose: With anti-twist system and Quick Connect system</b>			
H 10 Q, PremiumFlex Anti-Twist	1	2.643-585.0	Innovative PremiumFlex high-pressure hose with anti-twist system for twist-free work. 10 m long. Includes Quick Connect adapter. For devices in the K 2-K 7 ranges. Not suitable for hose reel devices or for Full Control devices in the K 4-K 7 ranges.
<b>High-pressure replacement hose: system from 2009 with Quick Connect system</b>			
H 10 Q, High-Pressure Hose with Quick Connect and for hose reel devices	2	2.643-633.0	Replacement hose with Quick Connect connectors for quick attachment. For all devices in the classes K 4 - K 7 with hose reel (manufactured 2009 or later). 10 m, 180 bar, 60°C.
H 9 Q, High-Pressure Hose Quick Connect	3	2.641-721.0	For devices in the K 2 - K 7 ranges with Quick Connect. For Kärcher Consumer pressure washers from 2009 or later, on which the hose is attached to the trigger gun and device with quick coupling. 9 m, 180 bar, 60°C.
<b>High-pressure replacement hose kit: system from 1992</b>			
HK 12, High-Pressure Hose Kit	4	2.643-909.0	Upgrade set with 12 m high-pressure hose, high-pressure gun and Quick Connect adapter for the K 2-K 7 ranges. Suitable for all Kärcher pressure washers manufactured between 1992 and 2017 without a hose reel.
HK 7.5, High-Pressure Hose Kit	5	2.643-910.0	Upgrade set with 7.5 m high-pressure hose, high-pressure gun and Quick Connect adapter for the K 2-K 7 ranges. Suitable for all Kärcher pressure washers manufactured between 1992 and 2017 without a hose reel.
HK 4, High-Pressure Hose Kit	6	2.643-912.0	Accessory kit with a 4 m high-pressure hose, ergonomic high-pressure gun and adapter for retrofitting the practical Quick Connect system for the K 2 range. Suitable for any Kärcher pressure washers manufactured after 1992. Not for hose reel devices.
Extension Hose Adapter Set	7	2.643-037.0	Two-part adapter set for connecting an extension hose with screw thread to a pressure washer with a Quick Connect system. Not for hose reel devices.
<b>High-pressure extension hose: system up to 2007 and for devices without Quick Connect system</b>			
XH 10, Extension Hose	8	2.644-019.0	High-pressure extension hose for greater flexibility. For devices in the K 2 to K 7 ranges with a screw connection (without Quick Connect). High-quality 10m long hose. With hose kink protection and brass coupling for a long service life. Connects device and high-pressure hose.
<b>High-pressure extension hose: system from 2008 for devices with Quick Connect system</b>			
XH 10 Q, Extension Hose Quick Connect	9	2.641-710.0	High-pressure extension hose for greater flexibility. 10 m robust DN 8 quality hose for excellent durability. For K 3-K 7 devices with a Quick Connect adapter which were manufactured in 2008 or later and for some K 2 devices with a Quick Connect adapter which were manufactured in 2010 or later. Connect between trigger gun and high-pressure hose.

OUTDOOR

# SPECIAL APPLICATIONS

The right accessory can transform a Kärcher pressure washer into a multi-purpose device and make it suitable for a number of additional applications, such as wet blasting and sandblasting or for cleaning pipes and gutters. The Vario joint makes even hard-to-reach places easy to clean. The suction hose with filter allows water to be drawn from various sources such as ponds, water barrels and pools.

		Order no.	Description
<b>Special applications</b>			
SH 5, Suction Hose	1	2.643-100.0	Allows the intake of water from alternative sources, such as water butts. 5 m long with filter backwash function, phthalate- and PVC-free, up to 90% recyclable and with extremely eco-friendly packaging. For devices in the K 4-K 7 ranges.
FJ 6, Foam Jet	2	2.643-147.0	Suitable for the generation and application of a powerful foam for the cleaning and care of cars, stone and wood surfaces and façades.
FJ 10 C, Foam Jet Connect 'n' Clean, Ultra Foam Cleaner 3-in-1	3	2.643-143.0	Quick-change system for detergent application. Change between different detergents with just 1 click. Available in a set with different detergents.
FJ 10 C, Foam Jet Connect 'n' Clean, Car Shampoo 3-in-1	4	2.643-144.0	
PC 20, Roof Gutter and Pipe Cleaning Kit, 20 m	5	2.642-240.0	The 20 m roof gutter and pipe cleaning kit works independently using high pressure. Drains, pipe blockages and roof gutters can be cleaned effortlessly.
PC 7.5, Pipe Cleaning Kit, 7.5 m	6	2.637-729.0	Pipe cleaning kit with 7.5 m long, flexible hose for cleaning pipes, drains and downpipes, and effective removal of blockages.
PC 15, Pipe Cleaning Kit, 15 m	7	2.637-767.0	Pipe cleaning kit with 15 m long, flexible hose for cleaning pipes, drains, and downpipes, and effective removal of blockages.
Sand and Wet-Blasting Kit	8	2.638-792.0	Sand and wet-blasting kit for removing rust, paint and stubborn dirt in combination with Kärcher spray agents.
Vario Joint	9	2.640-733.0	180° continuously adjustable Vario joint for cleaning hard-to-reach places. To be connected between high-pressure gun and accessories or lance extension and accessories.
Organiser	10	2.641-630.0	Kärcher organiser - the practical wall bracket for tidy storage of Kärcher accessories. With 2 modules for flexible installation. Ideal for preserving the shape of the wash brushes.

Available accessories. You can find more Kärcher original accessories on the following pages.

## OTHER ACCESSORIES, BATTERIES AND BATTERY CHARGERS

Kärcher offers a comprehensive range of accessories to ensure that operators are well prepared and can work conveniently on all cleaning tasks. The G 180 Q Full Control Plus high-pressure gun with Quick Connect, for example, allows even better control when cleaning with Full Control Plus devices – thanks to an LCD display and control buttons for pressure and detergent. The G 180 Q sister version has also been extended by a few centimetres, thus allowing more ergonomic working. And with the garden hose adapter, all Kärcher brushes can be connected in no time directly to garden hoses with quick-coupling systems.

		Order no.	Quantity	Description
<b>Miscellaneous</b>				
G 180 Q, Quick Connect Trigger Gun and Full Control Plus	1	2.643-992.0		The replacement trigger gun with buttons for pressure levels and detergent dosing, including LCD display and Quick Connect. For Full Control Plus devices in the K 5 Premium, K 7 and K 7 Premium ranges, starting 2017.
G 145 Q, Full Control Trigger Gun	2	2.643-634.0		The replacement trigger gun with LED pressure level display allows the right pressure to be selected for every cleaning task. For Full Control pressure washers K 4 – K 5.
G 180 Q, Trigger Gun Quick Connect	3	2.642-889.0		The G 180 Q trigger gun, equipped with Quick Connect, is 13 cm longer and offers even more convenience and better ergonomics for cleaning with Kärcher pressure washers.
G 160, Trigger Gun	4	2.641-959.0		Extra trigger gun for Kärcher Consumer pressure washers in the K 2 to K 7 ranges. For all pressure washers on which the high-pressure hose is attached to the trigger gun with a clip (without Quick Connect).
Water Filter	5	4.730-059.0		Water filter to protect the pressure washer pump against small dirt particles from impure water.
Adapter B	6	2.642-893.0		Adapter B, for connecting pressure washers with screw connection (manufactured up to 1989).
Adapter M	7	2.643-950.0 ■		Adapter for connecting old trigger guns (trigger guns M, 96, 97) to foam jets and new spray lances. Suitable for Kärcher Home & Garden pressure washers manufactured up to 2010.
Garden Hose Adapter	8	2.640-732.0		Adapter for garden hose connector for attaching all Kärcher brushes and cleaning sponges directly to garden hoses with quick-coupling system.
O-Ring Set	9	2.640-729.0		Replacement O-ring set for easy replacement of O-rings and safety plugs on pressure washer accessories.
<b>Batteries</b>				
18-26 li-ion battery	10	2.445-000.0 ■	1 piece(s)	18 V / 2.6 Ah li-ion exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level. Suitable for use with all devices in the 18 V Kärcher battery platform.
18-52 li-ion battery	11	2.445-001.0 ■	1 piece(s)	18 V / 5.2 Ah li-ion exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level. Suitable for use with all devices in the 18 V Kärcher battery platform.
36-52 li-ion battery	12	2.445-003.0 ■	1 piece(s)	36 V / 5.2 Ah li-ion exchangeable battery with innovative Real Time Technology incl. LCD display to show the battery level. Suitable for use with all devices in the 36 V Kärcher battery platform.
<b>Battery chargers</b>				
18 V fast charger	13	2.445-004.0 ■	1 piece(s)	The fast charger charges the 18 V / 2.6 Ah exchangeable battery to 80% in just 45 minutes and can be used for all 18 V li-ion Kärcher battery platform.
36 V fast charger	14	2.445-008.0 ■	1 piece(s)	Full again in no time: With the fast charger, the 36 V / 2.6 Ah li-ion exchangeable battery can be charged to 80% in just 45 minutes. Also suitable for all other batteries in the 36 V li-ion Kärcher battery platform.

# CLEANING SOLUTIONS IN AND AROUND THE HOUSE. KÄRCHER DETERGENTS AND CARE AGENTS FOR OUTSIDE AREAS.

For over 30 years, we at Kärcher have placed particular importance on environmental considerations and resource conservation in the development and production of our detergents and care agents, and our choice of the raw materials that go into them. The detergents, which are specifically designed for our devices, not only guarantee optimum cleaning results but also save water, time and energy. At least some degree of biodegradability is always guaranteed. In the manufacture of the new ecologic universal cleaner, however, Kärcher is going one step further by using surfactants exclusively from 100 % renewable raw materials and a bottle made of over 96 % plant-based plastic – another plus point for environmental protection.

UV colour protection formula against plastic yellowing plus material protection formula for a longer service life.

The UV protection formula prevents subsequent darkening while the intensive care ingredients treat the wood structure.

Protective formula against resoiling plus protection against wind and weather, all in one.

Product description	Application / dosing	Packaging size	PU	Order no./ quantity	Price
<b>Universal detergents</b>					
 <p><b>Universal Cleaner</b> Powerful universal cleaner for use with Kärcher pressure washers. With new active dirt remover which effortlessly removes oil, grease and stubborn mineral-bearing dirt with just cold water. For use all around the house and garden and on vehicles.</p>	<p><b>With pressure washer</b> Connect the bottle to the pressure washer, put the suction hose in the bottle or pour the detergent into the tank. 	Product description	Application / dosing	Packaging size	PU	Order no./ quantity	Price
	<b>Wood Cleaner 3-in-1</b> Powerful wood cleaner with unique 3-in-1 formula which offers exceptional cleaning performance thanks to the active dirt remover, as well as a UV protection formula and intensive care. For outstanding cleaning efficiency, care and protection in one step. Can be used on all treated and untreated wooden outdoor surfaces.	<b>With pressure washer</b> Connect the bottle to the pressure washer, put the suction hose in the bottle or pour the detergent into the tank. Dispense under low pressure, let it work in for a short while and then rinse thoroughly under high pressure. Repeated application increases the care and protection effect.	1 l	6	6.295-757.0	
						
	<b>Wood Cleaner</b> For the thorough cleaning of all treated and untreated water-resistant wooden surfaces such as garden furniture, wooden floors and decking. Very gentle on materials.	<b>With pressure washer or manually</b> Dispense using the pressure washer or mix (1:10) in a bucket and apply using a sponge. Let it work in for a short while, then rinse well.	5 l	1	6.295-361.0	
	<b>Plastic Cleaner 3-in-1</b> Powerful plastic cleaner with unique 3-in-1 formula which offers exceptional cleaning performance thanks to the active dirt remover, as well as a colour and material protection formula. For outstanding cleaning efficiency, care and protection in one step. Can be used on garden furniture, PVC window frames and other plastic surfaces.	<b>With pressure washer</b> Connect the bottle to the pressure washer, put the suction hose in the bottle or pour the detergent into the tank. Dispense under low pressure, let it work in for a short while and then rinse thoroughly under high pressure. Repeated application increases the care and protection effect.	1 l	6	6.295-758.0	
						
	<b>Plastic Cleaner</b> For the thorough cleaning of garden furniture, PVC window frames, children's slides and other plastic surfaces. Very gentle on materials.	<b>With pressure washer or manually</b> Dispense using the pressure washer or mix (1:10) in a bucket and apply using a sponge. Let it work in for a short while, then rinse well.	5 l	1	6.295-358.0	
	<b>Glass Finisher 3-in-1</b> Saves time and effort: the 3-in-1 glass finisher ensures lasting cleanliness without spots or streaks and is particularly suitable for large, hard-to-reach windows (such as winter gardens and glass façades). With protective formula to keep surfaces cleaner for longer. Not effective on coated glass surfaces.	<b>With pressure washer</b> Connect wash brush to pressure washer and preclean glass surfaces with universal cleaner. Rinse off detergent with pressure washer. Apply glass finisher with the pressure washer and then rinse off with the pressure washer. Leave surface to dry.	1 l	6	6.295-474.0	
						
	<b>Patio &amp; Deck Concentrate</b> Patio & deck concentrate for a material-friendly cleaning of balcony and terrace (wood/stone). Removes oil, grease, pollution and soot. Makes 5 l of diluted detergent.	<b>With pressure washer</b> This makes 5 litres of ready-to-use patio cleaner. Mix half a litre of terrace cleaner with 4.5 litres of tap water (1:9) and dispense using a pressure washer with low pressure or using the foam jet. <b>Manual</b> Mix 150 ml concentrate with 5 litres of tap water.	500 ml	8	6.295-842.0	
						
	<b>Spray Bottle</b> Detergents and care agents can be applied effortlessly using the Kärcher pump spray bottle. With continuously variable adjustment of the spray jet and angle.	<b>Manual</b> Pour in detergent or care agent, apply pressure to the bottle by pumping, adjust spray jet and dispense.	1 l	3	6.394-374.0	

# ERADICATE DIRT: KÄRCHER DETERGENTS AND CARE AGENTS FOR VEHICLES.

So that cars and motorcycles shine with cleanliness, Kärcher offers a wide range of cleaning solutions for this diverse application area. Detergents exactly calibrated to the device remove even stubborn dirt in combination with the right accessories, saving time, water and energy in the process. Regular cleaning with our special detergents gives a new lustre and contributes to the longevity of the various materials.

Car shampoo for thoroughly cleaning off dirt picked up while on the road. With 3-in-1 formula for quick drying and a perfect shine.

Removes even stubborn dirt quickly and gently.

Cleaning on two wheels - one for all purposes. The gel formula ensures that it adheres well to dirt during cleaning and is optimised for use on the materials found on motorbikes and even bicycles.

Product description	Application / dosing	Packaging size	PU	Order no./ quantity	Price
<b>Vehicle care</b>  <b>Car Shampoo 3-in-1</b> Powerful car shampoo with unique 3-in-1 formula which offers exceptional cleaning performance thanks to the active dirt remover, as well as a quick-drying and ultra-shine formula. To gently clean all vehicle types.	<b>With pressure washer</b> Connect the bottle to the pressure washer, put the suction hose in the bottle or pour the detergent into the tank. Dispense under low pressure, let it work in for a short while and then rinse thoroughly under high pressure. Repeated application increases the care and protection effect.	1 l	6	6.295-750.0	
 <b>Car Shampoo</b> Slightly alkaline, foaming detergent for thorough vehicle cleaning. Environmentally friendly and particularly gentle on all painted and plastic surfaces.	<b>With pressure washer or manually</b> Dispense using the pressure washer or mix (1:10) in a bucket and apply using a sponge. Let it work in for a short while, then rinse well.	5 l	1	6.295-360.0	
 <b>Car Shampoo Concentrate</b> Car shampoo concentrate for material-friendly vehicle cleaning. Removes oil, grease, and winter and street grime from paint, glass, plastic and chrome. Makes 5 l of diluted detergent.	<b>With pressure washer</b> This makes 5 litres of ready-to-use car shampoo. Mix half a litre of car shampoo with 4.5 litres of tap water (1: 9) and dispense using a pressure washer with low pressure or using the foam jet. <b>Manual</b> Mix 150 ml concentrate with 5 litres of tap water.	500 ml	8	6.295-843.0	 
 <b>Ultra Foam Cleaner 3-in-1</b> With extra foam booster for an even deeper clean. Thanks to the new active dirt remover, it effortlessly and quickly removes even oil and greasy dirt, as well as typical vehicle dirt and road dirt. Phosphate-free and gentle on materials.	<b>With foam jet</b> Fill the foam jet tank with ultra foam cleaner or connect to Connect 'n' Clean, adjust the dosage to min. or max. depending on the level of dirt and dispense. Let it work in for a short while, clean with a brush and then rinse under high pressure. Do not allow to dry.	1 l	6	6.295-743.0

## KÄRCHER TO GO. ANYTIME. ANYPLACE.

Kärcher finally offers mobile solutions for people on the go. These solutions are for those who want to clean their bicycles or their hiking boots while out on the trail. The new mobile cleaners are compact, easy to transport and ready to use immediately – wherever and whenever they are needed.

### 1 Highly versatile

From hiking boots to buggies: Anything that can get dirty on the go can be cleaned easily and flexibly, which keeps the inside of your car clean when stowing it all away. The mobile cleaners are also a flexible and independent solution for everyone without access to an outdoor water or power connection.

### 2 Efficient yet gentle cleaning

Sensitive components can also be cleaned using low pressure without the risk of anything being damaged. Even bicycles with sensitive seals and bearings can be cleaned gently.

### 3 Extensive accessory options

Three specific accessory boxes enable better cleaning results for different applications. The boxes can be attached quickly and easily to the device to ensure that everything can be stowed compactly.

### 4 Increase your water volume

Devices can be operated using a suction hose for larger cleaning tasks with more water. This makes it possible to easily use alternative water sources such as wells or water canisters.

### 5 Gently washing the dog

The right accessory for a gentle shower stream makes even washing paws a breeze. Thanks to the low pressure and pleasant spray pattern of the cone jet nozzle, washing your pets is absolutely harmless.

# MOBILE OUTDOOR CLEANER

## Mobile cleaning has never been this compact.

The extremely compact Mobile Outdoor Cleaner with built-in battery and water tank is easy to transport and stow. For a wide variety of applications with electrical and water connection anywhere, anytime.

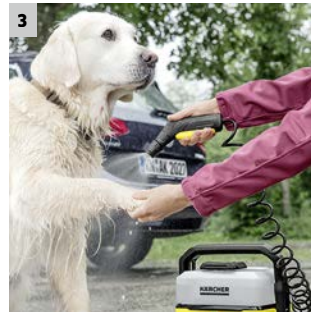

### 1 Compact instrument design

- Convenient stowage of the spiral hose and spray gun below the removable water tank.
- Easy to transport and space-saving to store.

### 2 Integrated lithium-ion battery

- Mobile cleaning independent of the power source.
- Long battery running time enables multiple uses before recharging is needed. The LED signals a low battery charge level.

### 3 Efficient but gentle low pressure

- Low pressure cleaning has the advantage of being efficient, but gentle at the same time.
- The standard nozzle with flat stream enables visible cleaning performance. The cone-spray nozzle is ideal for more sensitive cleaning of dog paws.

### 4 Wide variety of accessory configurations

- Different applications can be expanded and enhanced by adding accessories.
- An Adventure Box, Bike Box or Pet Box, each available as a practical storage box that can be attached to the device. All accessories are also available individually.

## ACCESSORY OPTIONS FOR VERSATILE EXTENSIONS

Kärcher has added another level of versatility to the universally applicable mobile cleaner with its various accessory options. A Bike Box for cyclists, a Pet Box for pet owners and an Adventure Box are separately available for anyone interested in cleaning their equipment on the go.

#### 1 Adaptable cleaning brush

The cleaning brush, that can be connected to the spray gun, removes and washes away stubborn dirt.

#### 2 Additional water volume

A suction hose can be connected to the device to use alternative water sources such as wells or water canisters for more water volume.

#### 3 Suitable nozzles

The cone jet nozzle for washing dogs and other pets creates a soft shower stream that gently cleans even sensitive animals.

#### 4 Car adapter

With the car adapter, the OC 3 can be conveniently operated via the car battery.

#### 5 Microfibre drying towel

The objects being cleaned can be dried with the high-quality fleece microfibre cloth before being stowed away.

#### 6 Pet cleaning brush

The pet cleaning brush gently removes stubborn dirt from animal fur.

#### 7 Extensive accessory options

Three different accessory boxes are available as complete sets for Bike, Pet and Adventure.

#### 8 Storage box

A suitable box for the storage of accessories is provided with each complete set. The box can be clipped to the bottom of the device.

## EXPANSION THANKS TO A VARIETY OF ACCESSORIES

The universal Mobile Outdoor Cleaner can be expanded optimally using a variety of accessory boxes and individual accessories. The Adventure, Bike and Pet accessory boxes offer exactly the right accessories for simplifying and enhancing the respective cleaning operation. All accessories are available individually.

		Order no.	Description
<b>Mobile Cleaning</b>			
Car adapter	1	2.643-876.0 ■	Never run out of power on the go: With the car adapter, the OC 3 Mobile Outdoor Cleaner can be conveniently operated via the car battery.
Adventure Box	2	2.643-857.0	With the Adventure box's optimally tailored accessories, outdoor equipment can be cleaned effortlessly, anywhere. Ideal for anyone who is on the road a lot.
Bike Box	3	2.643-858.0	With the Bike box's optimally tailored accessories, bikes and bike equipment can be cleaned effortlessly, anywhere.
Pet Box	4	2.643-859.0	With the Pet box's optimally tailored accessories, pets/dog paws can be cleaned effortlessly, anywhere.
Universal Brush	5	2.643-870.0	The universal brush is adapted to the trigger gun of the pressure washer, breaks up stubborn dirt and is gentle on sensitive components.
Suction Hose	6	2.643-871.0	The suction hose for mobile cleaning is adapted to the pressure washer and enables the use of alternative water sources such as wells or water canisters.
Cone Jet Nozzle	7	2.643-875.0	The cone jet nozzle makes cleaning your pet fast and easy. It is adapted to the trigger gun of the pressure washer and generates a soft shower jet.
Microfibre Cloth	8	2.643-872.0	The objects being cleaned can be dried with the high-quality fleece microfibre cloth before being stowed away.
Pet Towel	9	2.643-873.0	Special microfibre cloth for drying off dogs. Absorbs a lot of water and eliminates unpleasant odours.
Pet Cleaning Brush	10	2.643-874.0	Thorough cleaning of animal fur: the pet cleaning brush removes even stubborn dirt from fur.

## **SWEEPING - FIVE TIMES FASTER THAN WITH A BROOM.**

Sweeping really can be that simple. With Kärcher sweepers, footpaths, driveways and garage entrances or patios can be cleaned quickly, conveniently and reliably. All exterior surfaces are cleaned spotlessly in no time - without the effort of bending down. No broom can match their cleaning performance.

### 1 Quick, quicker, Kärcher

With our sweepers, users clean up to 5 times faster than with broom and dustpan – without any effort and stress. This makes sweeping fun!

### 2 Cleanliness down to the last detail

The long bristles on the side brushes of our manual sweepers ensure thorough cleaning on edges.

### 3 Easy removal

The waste container reliably picks up the dirt when sweeping. It can be easily removed for emptying: Lift up, empty, done! Without any contact with the dirt.

### 4 Flexible and comfortable

The push handle of the sweepers is height-adjustable and can be completely folded down if necessary.

### 5 Uncomplicated and compact

All our sweepers can be stowed in a space-saving manner with just a few hand movements: Simply fold up the push handle and place the sweeper in an upright position. Done!

### 6 Stand-alone

The waste containers can be removed easily and are designed so that they can stand on their own.

# SWEEPERS

## Faster than any broom

Who would have thought that sweeping could be so simple? With Kärcher sweepers, pavements, roads, driveways and yards can be swept up to five times faster than with a dustpan and broom. The waste is reliably drawn into the waste container: easy, quick and tidy. This is how to sweep today!

### 1 Two pairs of side brushes (S 650 2-in-1)

- Standard side brushes for dry waste, plus side brushes with harder bristles for wet waste.
- Greater flexibility with two side brushes. The long bristles ensure thorough cleaning even on edges.

### 2 No contact with dirt

- Side brushes and a roller brush transport the waste directly to the waste container, which is protected against the wind.
- It's easy to stay clean: Lift, empty and that's it. No contact with the dirt.

### 3 Space-saving storage

- With its fold-down push handle, the sweeper can be stored upright, thus taking up very little space.

### 4 Adjustable push handle with comfortable grip

- Convenient, thermally coated handling surface on the push handle ensures that it remains at a comfortable temperature, no matter the weather.
- No back strain thanks to a height adjustable push handle (features a single extension adjustment, 2 angle settings).

# CLEANING DEVICES FOR MULTI-FUNCTIONAL APPLICATIONS

With the multi-functional vacuum cleaners from Kärcher, your customers are ideally equipped for all possible cleaning situations. Special filter systems and individual accessories enable these robust vacuum cleaners to pick up different types of dirt quickly and thoroughly or remove stubborn stains from textile surfaces. Where once countless implements such as dustpans, buckets, detergents, cleaning cloths and brushes had to be used, perfect cleaning results are now easy to achieve with one single device.

## Table of contents: Multi-functional vacuum cleaners

Devices at a glance	Page	84	Specific vacuum cleaners	Page	96
Product advisor for multi-purpose vacuum cleaners	Page	87	Ash and dry vacuum cleaners	Page	104
Multi-purpose vacuum cleaners WD range	Page	88	Spray extraction cleaners	Page	106
Cordless multi-purpose vacuum cleaners	Page	94	Accessories	Page	108

### 1 Multi-purpose vacuum cleaners – for cleanliness in and around the house

Kärcher multi-purpose vacuum cleaners are extremely robust and ideally equipped for quick and thorough cleaning of all areas around the house or outside, such as cellars, garages or terraces. Whether it is fine, coarse, wet or dry: Thanks to the ideal equipment, every type of dirt is reliably removed. And the exceptionally high suction power and specially developed nozzles enable even larger dirt particles to be easily picked up.

### 2 Specific vacuum cleaners – for specific applications

The new Kärcher specific vacuum cleaners are perfect for specific cleaning tasks. Based on the standard multi-purpose vacuum cleaner range, these specific vacuum cleaners come with a range of useful accessories. They ensure optimal results in specific applications, e.g. around the home, in the car or hobby workshop or on a private construction site. Their special features give the most thorough cleaning results every time.

### 3 Cordless multi-purpose vacuum cleaners – for maximum freedom of movement

If there is no power outlet nearby, the cordless multi-purpose vacuum cleaners from Kärcher are the perfect solution. Depending on the battery, they have a running time of 15 or 30 minutes and are just as functional as mains-operated multi-purpose vacuum cleaners. They are ideal for use in extended application areas such as the terrace, shed or carport. Available from spring 2018.

### 4 Ash and dry vacuum cleaners – for reliable ash removal

Whether in the barbecue or in the fireplace: The new Kärcher ash and dry vacuum cleaners remove ash quickly and effortlessly – with a high degree of safety. The integrated Kärcher ReBoost filter cleaning ensures high and long-lasting suction power without any work interruptions. Thanks to a one-piece filter system, the new ash vacuum cleaners can be emptied and cleaned comfortably without any contact with dirt. With the floor nozzle and an additional exhaust filter, the AD 4 Premium can also be used as a high-quality dry vacuum cleaner.

### 5 Spray extraction cleaners – for fibre-deep cleaning of textile surfaces

Kärcher's spray extraction cleaners clean textile surfaces, such as carpets, upholstered furniture, carpeted stairs, mattresses, textile wall hangings and car seats, deep into the fibres. Water and Kärcher Carpet Cleaner RM 519 detergent are worked deep into the textile surfaces under pressure and then removed along with the dislodged dirt. In this way, grease, dirt and odours are efficiently removed. By the way: Kärcher spray extraction cleaners are not only suitable for allergy sufferers but also a good choice for pet owners.

## EXTREME SUCTION POWER

Kärcher multi-purpose vacuum cleaners, with their universal range of applications, offer extreme suction power, low power consumption, specially developed floor nozzles and accessories for maximum convenience. Dry, wet, coarse or fine dirt – it doesn't matter! This generation of devices always ensures optimal dirt pick-up, perfect cleaning results and maximum user convenience.

INDOOR

### More powerful than ever

The strength of multi-purpose vacuum cleaners is expressed by the technical variable suction power (W). The higher this value, the more power the vacuum cleaner has. The suction power of a device is measured in accordance with the standardised measuring method in IEC 60312. It is comprised of both air flow (l/s) and vacuum strength (mbar) metrics. The aim during the development of the new Kärcher multi-purpose vacuum cleaners was to create extremely powerful devices with significantly more power than the predecessor models of 2010. The improved performance of the new WD devices is based on new motors with higher energy efficiency, completely redeveloped floor nozzles and hoses, optimal sealing of the device and the accessory connections, as well as a flow-optimised vacuum design. There is far more suction power on these suction nozzles than before as a result of the collaboration of these factors. For example, the most powerful model today, the WD 6 P Premium, has a suction power of 260 watts. The most powerful predecessor model from 2010, the WD 5.600 MP, had only 220 watts of suction power.

Other technical variables such as air flow (l/s) and vacuum strength (mbar) are not metrics for the power of a multi-purpose vacuum cleaner. The same is true for the often highly praised watt values on other brands' multi-purpose vacuum cleaners. This watt value usually represents the rated input power of the device; that is to say, how much energy the device consumes. The higher this watt value is, the more current is required.

### 1 More convenient than ever

With innovative filter removal technology, available in the middle- and top-class ranges, the filter can be removed in seconds. In addition, the flat pleated filter, made popular in our Professional cleaner range, is contained in a filter box in the machine head – which means extra-quick removal in two easy steps. Just open up the filter box and remove the filter – done!

An overview of the advantages: Faster and more convenient filter removal, no contact with dirt, no dust distribution.

### 2 First-class floor nozzles

Dry, wet, coarse or fine dirt – it doesn't matter! The in-house developed floor nozzles guarantee perfect dirt pick-up, impress with optimal sliding behaviour and can be quickly and easily adapted to dry or wet dirt. With the clips floor nozzle, the changeover is effected by changing the inlay and, with the switchable floor nozzle, the changeover is carried out using the foot switch. The special floor nozzles guarantee all-round cleaning satisfaction.

An overview of the advantages: Fast and residue-free dirt removal, ideal for dry and wet dirt, effortless vacuuming.

## CORDLESS - UNLIMITED POSSIBILITIES

The battery-powered and powerful multi-purpose vacuum cleaner from Kärcher ensures thorough cleaning where mains-operated multi-purpose vacuum cleaners cannot reach or in areas that are difficult to access – be it in the car under the carport, in the shed or on garden paths. It offers the same functionality as a device with a cable. The WD 3 Battery is available from spring 2018.

### 1 Maximum freedom of movement

No more annoying extension leads or irritating cable clutter: Thanks to the battery, this multi-purpose vacuum cleaner can also be used in places where there is no power connection or in places that are difficult to reach. For superb comfort when vacuuming in the shed, on the terrace or under the carport or for interior car cleaning and many more applications.

### 2 Full functionality

No compromises when vacuuming dry dirt or liquids: This vacuum cleaner is just as versatile as every other multi-purpose vacuum cleaner. Thanks to the practical blower function, areas which are difficult to reach can also be easily cleaned. And with the Kärcher accessories, maximum working comfort and flexibility are guaranteed when vacuuming.

### 3 36 V exchangeable battery

A powerful 2.6 Ah exchangeable battery with lithium-ion technology ensures high suction power with a running time of 15 minutes. And if a longer running time is required, the additional 5.2 Ah exchangeable battery from the Kärcher 36 V battery platform provides a running time of 30 minutes. Real Time Technology makes the battery intelligent and displays the battery status at any time via the LCD display.

### 4 Special cartridge filter

Wet and dry vacuuming with the same filter – without the annoying filter change. A paper filter can also be used for dry vacuuming.

# WD 3 BATTERY

## Cordless and limitless.

The battery-powered WD 3 Battery Premium Set allows you to work independently of the mains power while still enjoying the full functionality of a multi-purpose vacuum cleaner. The running time of the lithium-ion battery that is included in the set is 15 minutes, and the exchangeable battery can be effortlessly removed.

INDOOR

### 1 Battery-powered

- The battery operation means that you can work independently of the mains power and therefore achieve maximum freedom of movement.
- With a 36 V li-ion exchangeable battery from the 36 V Kärcher battery platform, the device achieves a running time of 15 to 30 minutes.

### 2 Special cartridge filter

- For wet and dry vacuuming without filter replacement.

## FOR REALLY LARGE AMOUNTS OF DIRT

Kärcher offers the right vacuum cleaner for every type of dirt. From the WD standard range, we have developed individual multi-purpose vacuum cleaners that are extremely powerful and designed to cope with specific cleaning tasks. For cleaning car interiors, households, hobby workshops or private construction sites – any type of dirt can be removed easily, quickly and conveniently with the new Kärcher specific vacuum cleaners, thanks to their maximum suction power and matching accessories.

### 1 Renovation vacuum cleaner

The ideal multi-purpose vacuum cleaner for the private construction site. Effortlessly removes coarse dirt such as stones and masonry remnants as well as fine dust. The special renovation kit even removes coarse dirt without clogging, thanks to the enlarged diameter of the floor nozzle, suction tubes and suction hose. When vacuuming fine dust, the clogged filter can be cleaned efficiently, at the push of a button, via the integrated filter cleaning function – without contact with dirt. In this way, full suction power is quickly restored.

### 2 Car vacuum cleaner

The best multi-purpose vacuum cleaner for interior car cleaning. Whether it is for sensitive surfaces such as the car dashboard, heavily soiled areas such as the footwell, large areas such as the boot or narrow gaps between the seats – any part of the vehicle interior can be cleaned easily and thoroughly, thanks to special brushes and nozzles.

### 3 Workshop vacuum cleaner

The versatile specific vacuum cleaner for the hobby workshop. Featuring a special floor nozzle, this vacuum cleaner quickly and thoroughly removes sawdust and wood shavings. Sensitive surfaces such as woodwork or a cluttered workbench can be cleaned easily with the suction brush. Where vacuuming is not possible, the practical blower function can be used to remove the dirt. Another practical feature: When working with power tools, these can be connected to the integrated power outlet. The dust produced when working can be vacuumed immediately, removing the need for subsequent cleaning of the surrounding area.

### 4 Household vacuum cleaner

An all-rounder for indoors: The Kärcher household vacuum cleaner. The switchable special floor nozzle thoroughly cleans carpets and hard floors. With upholstery nozzle for upholstered furniture. And thanks to the special filter system, it even vacuums up water and shards – making tiresome cleaning with cloths and a dustpan a thing of the past. The compact design of this vacuum cleaner makes for easy storage.

# THE RENOVATION VACUUM CLEANER

## Thorough cleaning during renovations

Ultra-powerful suction and ideal for renovation work. With coarse dirt accessories, integrated power outlet, removable filter box and efficient filter cleaning for fine dust.

INDOOR

### 1 Special accessories for removing coarse dirt during renovation work

- Fast, easy and thorough coarse dirt removal without dust dispersion.
- For maximum vacuuming convenience and flexibility.

### 2 Patented filter removal technology

- Quick and easy removal of the filter from the filter box - without contact with dirt.
- For wet and dry vacuuming without filter replacement.

# ASH AND DRY VACUUM CLEANERS

## Long-lasting, powerful and safe

The ash and dry vacuum cleaners impress with their sustainable and high level of suction power due to the integrated filter cleaning. They offer the highest safety standards when removing ash from the chimneys or charcoal barbecue. With the floor nozzle, the AD 4 Premium can also be used as a high-quality dry vacuum cleaner.

### 1 Kärcher ReBoost filter cleaning

- Integrated filter cleaning at the push of a button.
- For high and long-lasting suction power.
- Suitable for vacuuming large quantities of dirt.

### 2 1-component filter system

- Consisting of flat pleated, metal and coarse dirt filter. Additional separate exhaust filter (only AD 4 Premium).
- Maximum comfort thanks to simple filter removal and container cleaning without contact with dirt.

### 3 Flame-resistant material, metal container and jacketed metal hose

- For maximum safety while vacuuming ash - even when used incorrectly.

### 4 Special accessories for use as a dry vacuum cleaner

- Also suitable for vacuuming hard floors.
- Can be used in different applications.

# SPRAY EXTRACTION CLEANERS

## For thorough cleaning results

Kärcher spray extraction cleaners clean carpets, upholstery, mattresses, textile wall hangings and car seats deep into the fibres. Detergent is sprayed under pressure deep into textile surfaces and then suctioned away, together with the dissolved dirt. Grease, dirt and odours are effectively removed.

INDOOR

### 1 2-tank system

- Separate tanks for clean and dirty water.
- Easy filling and emptying.

### 2 Kärcher nozzle technology

- Cleaned surfaces dry 50% faster.

## SE 5.100

- 2-in-1 comfort system with integrated spray extraction hose
- Kärcher nozzle technology: 50 per cent faster drying time
- Flat pleated filter for non-stop wet and dry vacuuming

### Technical data

## ACCESSORIES – FOR GREATER CONVENIENCE AND CLEANLINESS

Kärcher offers an extensive and useful range of multi-functional vacuum cleaner accessories for everyday use, as well as for special applications. From the right suction nozzle and the appropriate hose to specialised filter systems, all our components are designed to work together in the best possible way. Kärcher multi-functional vacuum cleaners consistently meet the demands of specific cleaning tasks in all areas with outstanding cleaning results.

### 1 Drill dust catcher

The removal of drill dust is now just as fast as the drilling of holes. The new accessory for the Kärcher Home & Garden WD 2 - 6 multi-purpose vacuum cleaners allows for safe and dust-free drilling into all common wall and ceiling surfaces by suctioning the drill dust away directly at the hole. Thanks to the patent-pending two-chamber system and the foam rubber seal, the drill dust catcher stays in place on all surfaces, for example tile, wallpaper, plaster, stone, concrete or wood, and leaves no drilling residue behind. The operator can drill holes alone and unaided. Working overhead is also possible without any problems. The drill dust catcher is suitable for all common drills with a drill size of up to 15mm.

### 2 36 V exchangeable battery

The powerful exchangeable battery with lithium-ion technology has a running time of up to 30 minutes - maximum freedom of movement and effortless vacuuming are now also possible where there is no power outlet. The battery with soft grip haptic can be changed easily and quickly. Thanks to Real Time Technology, the intelligent battery can display the battery status at any time via the integrated LCD display.

### 3 Car interior cleaning kit

The tried-and-tested accessories kit for all interior car cleaning tasks, such as the cleaning of floor mats, car seats, small gaps and delicate surfaces. Kärcher has made the set even better: The extra-long crevice nozzle can now work into even narrower gaps. There are also 2 new suction brushes. The suction brush with soft bristles is perfect for the gentle cleaning of sensitive surfaces such as your car dashboard. Also included is a suction brush with hard bristles, which guarantees excellent cleaning results on materials that are hard to clean such as floor mats. The tried-and-tested accessory kit leaves impeccable cleaning results in the interior of your vehicle.

## SPECIAL APPLICATIONS

Special application problems require specific solutions. So, for example, a Kärcher ash filter made of high-grade metal can be used with a Kärcher multi-purpose vacuum cleaner to easily remove ash residue from chimneys, wood ovens or grills. Other very practical features are the 3.5-metre-long suction hose extension, which guarantees optimal freedom of movement when working, or the new drill dust catcher, which allows holes to be drilled quickly and without dust.

INDOOR

		Order no.	Quantity	Price	Description
<b>Special applications</b>					
Drill dust catcher	1	2.863-234.0			It does not take long to drill a hole, but removing the fine drill dust takes considerably longer. The new accessory for our WD 2-6 multi-purpose vacuum cleaners enables safe and dust-free drilling on all common wall and ceiling surfaces. Suitable for all common drills with a drill size of up to 15 mm.
Ash filter/coarse dirt filter Basic	2	2.863-139.0			Ash filter/coarse dirt filter Basic consisting of 1 × 20 l metal container and 1 × 1 m flexible metal suction hose with removable metal tube. Particularly suitable for cleaning chimneys, sauna ovens and barbecues. Also suitable for removing coarse dirt. For all multi-purpose vacuum cleaners from the Home & Garden range.
Ash filter/coarse dirt filter Premium	3	2.863-161.0			Ash filter/coarse dirt filter Premium consisting of 1 × 20 l metal container, 1 × 1 m flexible metal suction hose with removable metal tube and a fine filter that holds the finest dust. Particularly suitable for cleaning chimneys, sauna ovens and barbecues. Also suitable for removing coarse dirt. For all multi-purpose vacuum cleaners from the Home & Garden range.
Metal crevice nozzle (for ash filter/coarse dirt filter)	4	2.640-951.0			Extra long metal crevice nozzle (360 mm), can be plugged into the ash/coarse dirt filter. For vacuuming cold ash from hard-to-reach places, e.g. chimneys, tiled stoves or grills.
3.5 m suction hose extension	5	2.863-001.0			The 3.5 m suction hose extension is suitable for all Kärcher Home & Garden range multi-purpose vacuum cleaners and provides a larger operating radius and greater freedom of movement.
Extension suction tube	6	2.863-148.0			This practical extension suction tube (0.5 m) is particularly suitable for use in hard-to-reach places such as high ceilings.

INDOOR

## ACCESSORY KITS AND SUCTION NOZZLES

Extremely practical and versatile: Kärcher accessory kits and suction nozzles. The extensive range of equipment options enable the devices to be used almost everywhere. The car interior cleaning kit can be used for complete interior car cleaning, for example.

INDOOR

		Order no.	Quantity	Price	Description
<b>Accessory kits</b>					
Renovation kit	1	2.863-220.0	4 -part		Brand new accessory kit for convenient and effective removal of all kinds of coarse dirt. Contents: 1.7 m suction hose with handle, 2 x 0.5 m suction tubes and coarse dirt floor nozzle. ID 45 mm.
Car interior cleaning kit	2	2.863-225.0	7 -part		Newly designed accessory kit for even more convenient cleaning, particularly in hard-to-reach areas. Contents: 1.5m extension hose, extra-long crevice nozzle, car nozzle, suction brush with hard bristles, suction brush with soft bristles, window cloth and microfibre all-purpose cloth.
Suction brush kit	3	2.863-221.0	2 -part		Accessory kit specially designed for cleaning car interior surfaces. The suction brush with hard bristles ensures thorough cleaning of upholstery and carpeted surfaces, e.g. foot mats. The suction brush with soft bristles ensures gentle cleaning of sensitive surfaces, e.g. car dashboard and centre console.
Household kit	4	2.863-002.0	2 -part		The floor nozzle can easily be switched using the foot switch to suit both carpets and hard floors. The upholstery nozzle allows gentle vacuuming of upholstered furniture and car seats.
Vacuum kit for power tools	5	2.863-112.0	2 -part		The vacuum kit consists of a 1 m ultra-thin, flexible tool hose with adapter for easy connection of power tools to multi-purpose vacuum cleaners (version with power outlet). Dirt is immediately suctioned away at the source.
<b>Nozzles</b>					
Switchable wet and dry floor nozzle with integrated parking nib	6	2.863-000.0	1 piece(s)		Switchable wet and dry floor nozzle for optimal dirt pick-up. Convenient adaptation to wet or dry dirt using foot switch. Side rollers for easy movement across all surfaces.
Extra-long crevice nozzle	7	2.863-223.0	1 piece(s)		Fully redesigned, extra-long crevice nozzle. Now even thinner for even better handling.
Car nozzle/suction nozzle for large areas	8	2.863-145.0	1 piece(s)		For quick and easy cleaning of car seats, carpeted surfaces, boots and footwell.
Suction brush with hard bristles	9	2.863-146.0	1 piece(s)		For thorough cleaning of upholstery and carpeted surfaces in your car. Dried-on dirt can be easily removed thanks to the sturdy bristles.
Suction brush with soft bristles	10	2.863-147.0	1 piece(s)		For gentle cleaning of sensitive car interior surfaces, e.g. car dashboard, centre console and speakers.
Extra long flame-resistant crevice nozzle	11	2.863-004.0	1 piece(s)		The extra-long crevice nozzle (350mm) is made of flame-resistant material and is ideal for removing cold ash from difficult-to-reach areas, e.g. chimneys, tiled stoves, barbecues.
Upholstery spray extraction nozzle	12	2.885-018.0	1 piece(s)		Upholstered furniture and car seats are cleaned deep into the fibres with the upholstery spray extraction nozzle. Working width: 110 mm.

## FILTERS, FILTER BAGS, BATTERIES AND BATTERY CHARGERS

Kärcher cartridge and flat pleated filters pack an impressively large filter area into a very small space. They can be easily replaced, and the Kärcher paper and fleece filter bags ensure excellent filter capacity and tear resistance. And, thanks to the exchangeable battery and quick charger from the Kärcher 36 V platform for Kärcher cordless multi-purpose vacuum cleaners, annoying working interruptions are prevented.

INDOOR

		<b>Order no.</b>	<b>Quantity</b>	<b>Price</b>	<b>Description</b>
<b>Filters</b>					
Exhaust filter	1	2.863-262.0 ■	2 piece(s)		Exhaust filter for the AD 4 Premium ash and dry vacuum cleaner (includes 2 pcs) for cleaner exhaust air with dust re-emission class "B". (out of A to G)
Paper filter bag	2	6.904-322.0	5 piece(s)		Paper filter bag with excellent filter capacity and high tear resistance.
	3	6.959-130.0	5 piece(s)		
Fleece filter bag	4	2.863-006.0	4 piece(s)		Extremely tear resistant, high degree of dust retention. Allows longer vacuuming than with paper filter bag.
Filter kit	5	6.904-143.0	5 piece(s)		Paper filter bag with excellent filter capacity and high tear resistance.
Cartridge filter	6	6.414-552.0	1 piece(s)		The Kärcher cartridge filter allows both wet and dry vacuuming without filter replacement.
Flat pleated filter	7	2.863-005.0	1 piece(s)		Contained within a filter box, the flat pleated filter can be replaced very simply and quickly - with no contact with dirt. For wet and dry vacuuming without filter replacement.
	8	6.414-498.0	1 piece(s)		For wet and dry vacuuming without filter replacement.
	9	6.415-953.0	1 piece(s)		Robust flat pleated filter for lasting suction power.
<b>Batteries</b>					
Li-ion 36-26 battery	10	2.445-002.0 ■	1 piece(s)		36 V / 2.6 Ah li-ion exchangeable battery with innovative Real Time Technology incl. LCD display to display the battery status. Suitable for use in all devices in the 36 V Kärcher battery platform.
Li-ion 36-52 battery	11	2.445-003.0 ■	1 piece(s)		36 V / 5.2 Ah li-ion exchangeable battery with innovative Real Time Technology incl. LCD display to display the battery status. Suitable for use in all devices in the 36 V Kärcher battery platform.
<b>Battery chargers</b>					
Quick charger 36	12	2.445-008.0 ■	1 piece(s)		Full again in no time: With the quick charger, the 36 V / 2.6 Ah li-ion exchangeable battery can be charged up to 80% in just 45 minutes. It is also suitable for all other batteries in the 36 V Kärcher battery platform.

## CLEANING DEVICES FOR INDOOR USE

There are always more pleasant ways to spend your time than doing tedious cleaning tasks – especially within your own four walls. This is why Kärcher has developed a wide range of intelligent solutions for interior cleaning that guarantee spotless cleaning results. Our devices are extremely powerful, saving the operator time and effort, and deliver outstanding cleanliness. So now it's time to roll up your sleeves and get started!

### 1 Space-saving and thorough

Snagging and replugging the cables during vacuuming is now a thing of the past with the new cordless vacuum cleaner VC 5 Cordless. Instead, dirt can be easily eliminated from the entire apartment thanks to maximum freedom of movement and a long battery running time. The tried-and-tested product features of the mains-operated VC 5 are as follows: Extreme compactness, bagless filter system, high level of user convenience and diverse applications.

### 2 More freedom thanks to autonomous floor cleaning

Simple vacuuming – with the new RC 3 RoboCleaner. Its high-quality camera-laser navigation system guides it safely and precisely over wood, stone and low pile carpets and makes possible completely independent, thorough and effortless cleaning. Super smart: The RC 3 can be conveniently controlled via smartphone or tablet using a practical app.

### 3 Wiping and vacuuming in a single step

The FC 5 Floor Cleaner completes 2 steps in one: It collects both wet and dry dirt and vacuums them up at the same time. This means the tiresome step of vacuuming before wiping is no longer necessary, and wiping is even easier and more thorough than ever before. Thanks to its innovative self-cleaning function, the FC 5 keeps its rollers clean during the entire floor cleaning process. Also, the incredibly low level of residual moisture on the floor means that you will be able to walk on it in less than two minutes. The FC 5 is suitable for all hard floors (wood, stone, plastic, etc.).

### 4 Clean, streak-free windows, three times faster

Window cleaning made easy: The Kärcher Window Vac offers an easy, fast and impressively thorough solution for radiantly clean windows. The cleaning process is unbelievably easy: Dirt is initially dissolved by means of the spray bottle and the microfibre wiping cloth. Next, the dirty water is vacuumed up via a suction process with the Window Vac, streak-free and drip-free – giving you sparkling clean windows every time. In addition, the innovative Window Vac is also ideal for shower cubicles and glass tables. It always leaves behind a perfect shine – without streaks or drips.

### 5 Powerful depth effect without chemicals

Kärcher steam cleaners ensure hygienic, fibre-deep cleanliness throughout the home in a natural way. Thanks to the superheated steam temperature, the intense steam generation and the excellent moisture penetration of the cloth eliminates 99.99 per cent of the bacteria found on typical hard surfaces in the household. Whether it is small and handy, with non-stop steaming function or with a VapoHydro function: Kärcher offers the right model for every requirement and thus the ideal alternative to traditional cleaning. Kärcher steam cleaners are suitable for nearly all floor coverings and carefully and effectively loosen greasy dirt on surfaces in the kitchen and bathroom. The ergonomically designed accessories guarantee an all-round convenient cleaning experience.

\* When thoroughly cleaning with the Kärcher steam cleaner, 99.99 % of all common household bacteria will be killed on common household hard surfaces.

## THE NEW KÄRCHER VACUUM CLEANER LINE

This year, Kärcher has expanded its portfolio of vacuum cleaners once again: In addition to the well-known vacuum cleaners VC 6, VC 3, VC 2 and DS 6, the VC 5 now has a battery-powered partner – the VC 5 Cordless. From September 2017, the new DS 6 vacuum cleaner with water filter will appear with the new energy label. It doesn't matter whether you have a large or small living or storage space, are single or a family, or want a vacuum cleaner that comes with or without a bag, or one that is mains-operated or cordless – at Kärcher, you can find the vacuum cleaner that meets your needs perfectly and will ensure an atmosphere of wellness.

### 1 The new cordless vacuum cleaner

The new VC 5 Cordless offers maximum freedom of movement and a long battery running time - for a very high level of comfort. Thanks to state-of-the-art technology, the device provides powerful cleaning performance. And the innovative design ensures compact storage.

### 2 The compact vacuum cleaner

The Kärcher VC 5 is an extremely compact upright vacuum cleaner that provides excellent cleaning results at the same level as a good large canister vacuum cleaner. The special size of the VC 5 makes stowing it away just about anywhere a breeze. Perfect for small households with limited storage space.

### 3 The starter canister vacuum cleaners

The new VC 2 and VC 3 models are canister vacuum cleaners for the practical cleaning of flats or small homes. Well-equipped for many applications thanks to diverse accessories.

### 4 Top-class canister vacuum cleaners

Our tried-and-tested VC 6 is the perfect helper for large households and families. Even large surfaces can be quickly and easily cleaned with the numerous comfort features.

### 5 The optimised solution for allergy sufferers

Our new DS 6 Waterfilter is ideally suited for allergy sufferers due to its special water filter. In addition to floors being thoroughly cleaned, the room air is also fresh and clean. For an enjoyable indoor climate without a bag.

## MORE COMFORT THANKS TO MAXIMUM FREEDOM OF MOVEMENT.

Snagging and replugging the cables during vacuuming is now a thing of the past with the new cordless vacuum cleaner VC 5 Cordless. Instead, dirt can be easily eliminated from the entire apartment thanks to complete freedom of movement and a long battery running time.

### 1 Maximum freedom of movement

No annoying cables, no hoses and no device to pull along: The VC 5 Cordless ensures maximum freedom of movement and optimal comfort when vacuuming. The long battery running time of up to 60 minutes (VC 5 Cordless Premium) is enough to vacuum the entire apartment.

### 2 Space-saving design

Similar to the VC 5, the VC 5 Cordless also impresses with its innovative and compact design. The clever component layout allows for a small-volume basic device. Thanks to the patented triple-telescopic suction tube, the vacuum cleaner can be reduced to half its size and thus stored in a space-saving manner, such as in a cupboard or in a drawer. There is now more space available for the nicer things in life.

### 3 Amazing cleaning performance

The VC 5 Cordless impresses with its amazing cleaning performance – thanks to its powerful lithium-ion battery, as well as the highly efficient brushless motor, among other things. In addition, the switchable floor nozzle adapted to the device ensures powerful cleaning results on hard floors and carpet.

### 4 Bagless filter concept

The filter system, comprising main filter and long-life filter, reliably picks up all types of dirt. The removable filter box with filter cleaning function allows rapid and simple emptying. The VC 5 Cordless Premium also has a HEPA hygiene filter\* that ensures clean exhaust air. The subsequent purchase of expensive filter bags has come to an end.

\* EN 1822:1998

# VC 5 CORDLESS VACUUM CLEANER

## Follows wherever you go.

With no cable and a running time of up to 60 minutes, the VC 5 Cordless Premium guarantees optimum comfort while vacuuming. In addition, this slim and innovative vacuum cleaner can be stored away compactly.

INDOOR

### 1 Long operating time

- Up to 60 minutes running time at the lowest power level.
- Up to 15 minutes running time at the highest power level.
- Three-stage battery level indicator shows the remaining running time.

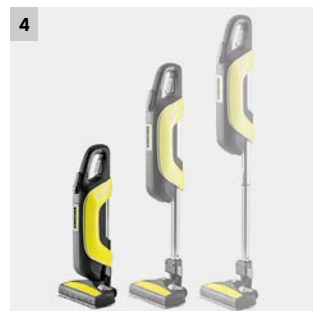

### 2 Three-stage power control

- The power can be adjusted quickly and easily to suit the particular application.

### 3 Convenient charging

- Three-stage battery level indicator.
- Battery can be fully recharged in just three hours.
- Charging stop function and overload protection ensure that the battery is protected.

### 4 Triple-telescopic suction tube

- The device can be reduced to half its size at the push of a button.
- Easily stored in the smallest of spaces.
- Optimum adjustment of the suction tube to suit the user's height or the task being carried out.

# THE NEW ENERGY LABEL FOR VACUUM CLEANERS

The energy label for vacuum cleaners introduced in 2014 has been revised and tightened up. The nominal power of mains-operated dry vacuum cleaners has been limited to a maximum of 900 W. New criteria include a minimum motor running time of 500 hours, a volume level limit of max. 80 dB(A), and a durability value for suction hoses. From September 2017, all vacuum cleaners must be marketed with the new energy label. Kärcher has converted its vacuum cleaners in the EU accordingly.

**A+** **Energy efficiency class at a glance**  
The new energy label now has a new energy efficiency scale. It ranges from A+++ to D. The maximum nominal power has been limited to 900 W; vacuum cleaners can no longer consume more power, effective immediately.

**20.0** **Annual energy use**  
kWh/annum  
The average annual energy use limit has also been tightened up with the new energy label. The upper limit is now 43 kWh/a.

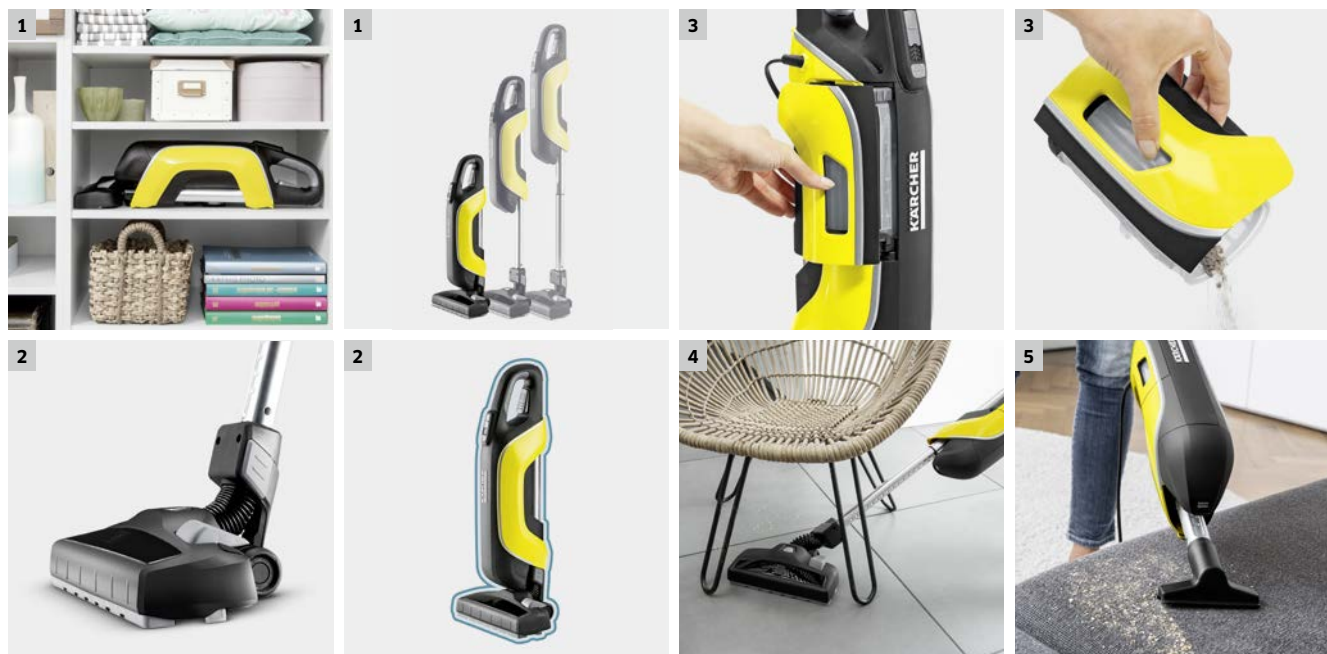

**77** dB **Sound power level**  
Not only is saving energy good for the environment, but so is noise reduction. Noise has been further restricted with the new standard and is now set at a maximum of 80 dB(A).

**ABCDEFG** **Dust re-emission class**  
How clean the exhaust air of a vacuum cleaner is can be identified in the classes A to G. There is no change here compared to the previous label.

**ABCDEFG** **Cleaning class performance for hard floors/carpets**  
How well or how poorly a vacuum cleaner cleans on carpet and hard floors is still defined in 2 separate classes with a scale from A to G. With the new standard, however, the lower limit for both categories has been increased, i.e. the vacuum cleaners must vacuum better to achieve the lowest label value G.

## EXTREMELY COMPACT AND STILL POWERFUL: THE VC 5

The Kärcher VC 5 vacuum cleaner proves that a vacuum does not have to be large to be powerful. In spite of its extremely compact design, it does everything a conventional canister vacuum can do. Thanks to its size, there is always space to store this vacuum cleaner in a household of any size, and its cleaning performance is on par with large vacuum cleaners.

### 1 Space-saving design

This upright vacuum cleaner features a particularly compact design thanks to a sophisticated component arrangement, smart design and innovative motor technology. Additionally, the vacuum cleaner can be reduced to half its normal size at the push of a button thanks to the patented triple-telescopic suction tube. This makes it possible to store it easily using almost no space at all – even in a drawer. This allows you to have more storage space for the finer things in life, even in a smaller home.

### 2 Extremely high performance

The adjustable Kärcher dry floor nozzle with a flexible joint has been specifically designed for the VC 5 and is perfectly tailored to the device. It is particularly efficient and gets the most power out of the device thanks to its particularly tightly sealed design and special air channel – giving excellent cleaning performance on hard floors and carpets. Thanks to this patented technology, the VC 5 vacuums as thoroughly as a large canister vacuum cleaner and, with its top energy label, is among the best cleaning vacuum cleaners on the market.

### 3 Filtered without a bag in the smallest of spaces

The innovative, three-stage bagless filter system eliminates the burdensome purchase and replacement of expensive filter bags. The main filter for coarse dirt and lint and the long-life filter for fine dust are in a removable filter box. In conjunction with the HEPA hygiene filter,\* the device ensures 99.98 per cent clean exhaust air in accordance with its dust re-emission class.

### 4 Especially convenient

The magnetic parking position makes it possible to disconnect the device quickly and safely during work breaks, transport and after use. The flexible joint makes the floor nozzle agile and eases cleaning around obstacles or under furniture. Thanks to the upright vacuum cleaner design, there is no need to drag anything behind you or carry anything. The power can be adjusted between four levels to fit the amount of dirt and the floor covering.

### 5 Incredibly versatile

The VC 5 is also equal in every way to the classic canister vacuum in terms of application diversity. The switchable floor nozzle ensures optimal cleaning results on carpets and hard surfaces. Additionally, its squeegees prevent the build-up of fluff and hair, which cuts down on the need for manual cleaning. Dirt and dust can be removed from upholstered furniture, hard-to-reach areas and sensitive objects without any problems thanks to the extensive range of accessories, such as an upholstery nozzle, a crevice nozzle and a soft dusting brush.

\* EN 1822:1998

## VC 5 COMPACT VACUUM CLEANER

### The little vacuum with a lot of power

It is exceptionally compact, can be stored anywhere to save space and features cleaning performance equal to a canister vacuum. The bagless compact vacuum is a true mini powerhouse.

#### 1 Triple-telescopic suction tube

- The device can be reduced to half its size at the touch of a button.
- Easily stored in the smallest of spaces.
- Individual size adjustment.

#### 2 Switchable dry floor nozzle with flexible joint

- Excellent cleaning performance, just like large canister vacuum cleaners.
- Excellent manoeuvrability and easy to clean under furniture.

#### 3 Three-stage bagless filter system

- No need to buy replacement filter bags.
- Reliable dirt absorption in the device.

#### 4 Two-stage filter cleaning function

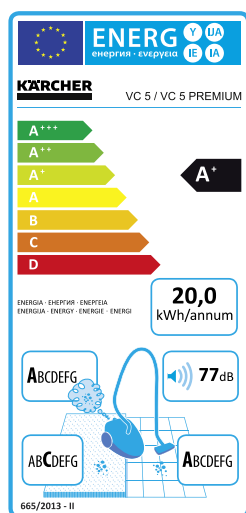

- Automatic filter cleaning when filter cover is opened.

# VC 6 VACUUM CLEANER

INDOOR

## Smart, energy-saving vacuum cleaners

Vacuuming is especially quick and easy with the energy-saving devices from the VC 6 series. The vacuum cleaners, in energy efficiency class A, combine outstandingly high suction power with exceptional added features. These include the QuickClick system, the only one of its kind in the world, for quick and easy nozzle changing and the practical EasySlider obstacle guide, which protects furniture and the vacuum cleaner from scratches.

### 1 EasySlider obstacle guide

- The 360° rotating ring ensures the vacuum cleaner automatically avoids obstacles on contact.
- Furniture and vacuum cleaner stay scratch-free.

### 2 Unique QuickClick system

- Rapid switching between the floor nozzle and accessories (crevice nozzle, upholstery nozzle, soft dusting brush).

# VACUUM CLEANER WITH WATER FILTER

## Vacuuming without filter bags

The DS 6 vacuum cleaner with water filter doesn't just guarantee clean floors. With its energy-saving 650-watt power and energy efficiency class A rating, the DS 6 has excellent suction power and, thanks to its water filter, it filters 99.5% of all particles larger than 0.3 µm out of the air. Leaves nothing behind but a feeling of freshness in the air. Unlike standard filter bag vacuum cleaners, the DS 6 Waterfilter works using the natural power of water.

### 1 Multi-stage filter system consisting of innovative water filter, washable intermediate filter and HEPA 12 filter (EN 1822:1998)

- Filters 99.5% of dust from the air for fresh, clean air and a pleasant indoor climate.
- Particularly suitable for allergy sufferers.

### 2 Removable water filter

- Easy to fill and clean.

## DS 6 Waterfilter

## THE NEW RC 3 ROBOCLEANER – SMART HELPER FOR AUTONOMOUS FLOOR CLEANING.

No need to lift a finger when vacuuming! The new RoboCleaner makes this possible. The smart robot is equipped with a high-quality camera-laser navigation system and thoroughly cleans floors – all by itself. Whether it is wood, stone or low pile carpet: The RC 3 sparkles on all floors with excellent cleaning results. The RC 3 can be operated conveniently in the home network via smartphone or tablet with the user-friendly app.

### 1 More leisure time

The RC 3 cleans the apartment autonomously, even when there is nobody at home. The smart helper cleans regularly, thus providing permanent cleanliness for a carefree, feel-good atmosphere. This leaves more time available for the more important things in life.

### 2 Good cleaning performance

The efficient dual brush system cleans thoroughly and can effortlessly pick up dirt through the interaction of the spiral brush and the lamella brush and transport the dirt to the removable waste container – for excellent cleaning performance on all household hard floors and low pile carpets.

### 3 Intelligent camera-laser navigation system with map function

The RC 3 scans and maps the room and in doing so plans the most efficient cleaning route. Several infrared sensors and fall sensors also help it to avoid falling on staircases and colliding with other objects in the room. The RC 3 recognises obstacles in advance and brakes gently so that it can travel around them effortlessly. When the battery is dead, the RC 3 automatically goes to the charging station. Thanks to the mapping function, once charged it continues its path, starting from the place it cleaned last.

### 4 Smart app control

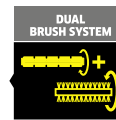

The RC 3 can be controlled conveniently in the home network via smartphone and offers two cleaning modes. In automatic mode, it cleans your entire living area reliably, whereas spot mode is used to thoroughly clean a specifically selected area.

## RC 3 – THE SMART HELPER

### More freedom thanks to autonomous cleaning

Efficient, thorough intermediate cleaning – at any time. The smart RC 3 with camera-laser navigation system and convenient app control cleans floors autonomously and systematically.

#### 1 Good cleaning performance

- Efficient cleaning thanks to a systematic cleaning strategy using camera-laser navigation technology.
- Thorough dirt pick-up thanks to the combination of two special brushes and an additional side brush for cleaning corners and edges.

#### 2 Smart product with attractive functions

- Convenient selection of multiple cleaning times using the timer function in the user-friendly app.
- Information on cleaning progress and the position of the RoboCleaner thanks to the temporary cleaning map.

### RC 3

- Intelligent camera-laser navigation system for autonomous cleaning
- Thorough pick-up thanks to the dual brush system
- User-friendly app control

## HARD FLOOR CLEANING HAS NEVER BEEN SO EASY.

The Kärcher FC 5 is the perfect solution for fast and easy hard floor cleaning. Its innovative 2-in-1 function means there is no need for the hassle of vacuuming before wiping. The combination of wiping and vacuuming in one step means that the floor cleaner picks up damp and dry dirt at the same time. It doesn't matter whether it's on wood, stone or plastic - the FC 5 shines with exceptional cleaning results on all standard hard floors.

**PATENT**  
PENDING

### 1 Up to 50% time savings\*

The FC 5 is second to none in terms of efficiency because it combines 2 work steps into one. Wiping without vacuuming beforehand saves a lot of effort and a great deal of time.

### 2 85% water savings\*\*

The FC 5 saves precious water. For an approx. 60 m<sup>2</sup> apartment, the floor cleaner uses only 600 ml of water. Conventional cleaning using a wiping mop, however, uses at least 5 to 10 litres.

### 3 20% better cleaning performance\*\*\*

The automatic rollers effortlessly glide the floor cleaner across the hard floors and, with 500 revolutions per minute, are able to generate numerous wiping movements in a single pass. The rollers, combined with their innovative self-cleaning function, are able to generate a 20% better cleaning result compared to a conventional wiping mop.

### 4 Suitable for all hard floors

Whether it is wood, stone or plastic: Thanks to the fast floor drying time, the FC 5 can be used on all hard floors. The wide variety of Kärcher detergents and care agents also provide the perfect level of protection.

\* Due to the combination of vacuuming and wiping into one single step when cleaning the floor with the FC 5.

\*\* For cleaning a 60m<sup>2</sup> floor area with the FC 5 (consumption: 0.6l) compared with traditional wiping mop and bucket, filled with 5 litres (consumption: 5.0l).

\*\*\* The FC 5 compared to a conventional wiping mop with wiping cloth cover in the "Wiping" test category.

Refers to average test results for cleaning efficiency, dirt pick-up and edge cleaning.

# FC 5

## Wiping and vacuuming in a single step

Never again have the hassle of vacuuming before wet wiping. The FC 5 and its innovative self-cleaning function cleans your hard floor faster, cleaner and more effortlessly than ever before.

reddot award 2017  
winner

INDOOR

### 1 2-in-1 function

- Wiping without vacuuming beforehand by picking up wet and dry dirt in a single step.

### 2 Self-cleaning function through automatic removal of dirt from the rollers

- Continuously clean rollers for best cleaning results.
- Floors dry in less than 2 minutes thanks to the low residual moisture.

### 3 High-quality microfiber rollers

- Mounting and removing the microfiber rollers is quick and easy.
- Machine washable at up to 60°C.

### 4 Innovative drive concept

- With forward rotating rollers, the machine moves across the floor almost by itself - for effortless cleaning.

## THE GENERATION OF WINDOW VACS.

As a result of their practical suction function and easy handling, window cleaning with Kärcher's Window Vacs is much easier and three times faster than conventional cleaning by hand. Dripping water and puddles are a thing of the past. The devices are also ideal for other smooth surfaces such as mirrors or tiles. The result is always the same: Sparkling cleanliness without streaks or residue.

<p><b>1</b></p>  <p><b>WV 5</b> The untiring</p> <p><b>WV 2</b> The all-rounder</p> <p><b>WV 1</b> The compact</p>	<p><b>1</b></p> <p>CLEANING WINDOWS WITH THE KÄRCHER WV</p> <p><b>3×</b> <b>FASTER</b></p> <p>THAN WITH TRADITIONAL METHODS</p>	<p><b>3</b></p> <p><b>NO DRIPS</b></p> 
<p><b>2</b></p>  <p><b>WV 5</b> Spray bottle</p> <p><b>WV 2</b> Spray bottle</p> <p><b>WV 1</b> Spray bottle</p>	<p><b>2</b></p> <p><b>NO STREAKS</b></p> 	<p><b>4</b></p> <p>FROM THE INVENTOR OF WINDOW VACS</p> <p><b>THE ORIGINAL</b></p>

### **1 Wide selection: The Window Vacs from Kärcher**

WV 5 - The long-lasting device. With longer battery running time and an exchangeable battery.

WV 2 - The all-rounder. The convenient device that does it all.

WV 1 - The compact model. Small and handy.

### **2 Specific spray bottles**

The models for the WV 2 and WV 5 also make it possible to quickly and easily change the pad, thanks to the hook-and-loop system. Additionally, the version for the WV 5 features a size-adjustable wiper that can be used to wipe large, standard windows just as easily as small lattice windows.

### **1 Three times faster**

Window cleaning is three times faster with the Kärcher Window Vac compared to traditional window cleaning.

### **2 No streaks**

The high-quality blade, together with the suction function, ensures streak-free, sparkling clean windows.

### **3 No dripping**

The Window Vacs quickly and reliably vacuum the water from the pane without any drips. Neither your hands nor the surrounding area or objects will come into contact with dirty water.

### **4 The original**

Kärcher is the inventor of the Window Vac. No one has more expertise or experience in this area than Kärcher.

### 1 Versatile application possibilities

No matter how the Window Vacs from Kärcher are used, vertical or horizontal, for windows or mirrors, tiles or glass tables: The perfectly tailored suction effectively prevents dripping water. Even high-up windows like those found in conservatories, for example, can be cleaned thoroughly with little effort using the Window Vac. This is made possible with the practical extension kit from our range of accessories.

### 2 Spray it

First, moisten the window pane with the detergent. For best results, use the spray bottle from the Window Vac set.

### 3 Clean it

Next, use the microfibre wiping cloth on the spray bottle to clean the window.

### 4 Vacuum it

Finally, vacuum up the dirty water using the Window Vac - you're done! The result? Smear, smudge and streak-free windows.

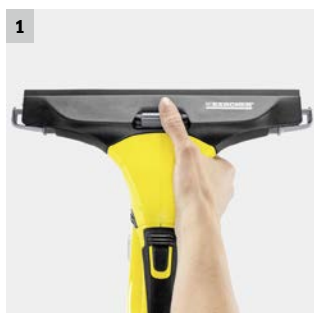

## WV 5 - THE UNTIRING

### The first Window Vac with exchangeable battery

The WV 5 features an extended battery running time and a practical replaceable battery system. For cleaning large and small windows without pauses - without streaks and without drips.

INDOOR

#### 1 Convenient edge cleaning

- The manually adjustable distance holders enable perfect streak-free cleaning results right up to the edges.

#### 2 Removable battery

- Thanks to the removable and optional exchangeable battery, all windows can be cleaned without interruption.

#### 3 Exchangeable suction nozzle

- Choose between a large or small suction nozzle, based on the size of the cleaning surface.

#### 4 Comfortable handle with battery level indicator

- The soft grip handle makes the device even more comfortable to use.
- 3 LEDs indicate the current battery charging status.

# WV 1 - THE COMPACT

## The compact, handy Window Vac

The WV 1 makes washing windows quick and easy. The new model is much smaller than its predecessor and allows optimal suction, right down to the bottom window edge – without the need to change your grip.

### 1 Low weight

- Sits comfortably and easily in your hand without making it ache.

### 2 Compact and handy

- The small, handy device makes cleaning smooth surfaces even easier.
- Even the bottom window edge is easy to reach with the Kärcher Window Vac.

## STEAM CLEANERS: DEEP CLEANING ENTIRELY WITHOUT CHEMICALS.

The new steam cleaner range from Kärcher offers the perfect steam cleaner for every task. The devices clean without the use of chemicals and can be used virtually anywhere. Whether it is in the bathroom, kitchen or lounge, they kill 99.99% of all common household bacteria on hard surfaces.\* The devices ensure greater hygiene and better cleaning performance than conventional manual cleaning methods with detergent.\*\* Powerful steam and diverse accessories ensure that fittings, tiles, hobs, exhaust hoods and even tiny crevices and niches are cleaned thoroughly.

**3**

**CLEANS BETTER THAN A MOP!** \*\*

**More hygienic and better cleaning performance**

**4**

**MULTI-FUNCTIONALITY**

**EFFORTLESS**

**5**

### 1 Wide selection: The versatile SC range

SC 5 EasyFix - The strongest. Thanks to the VapoHydro function, it removes even the most stubborn dirt.

SC 4 EasyFix - The convenient. With detachable tank.

SC 3 EasyFix - The ready-to-use. With the shortest heat-up time.

SC 2 EasyFix - The beginner. The perfect introduction to steam cleaning.

SC 1 - The compact. Handy and ready to use immediately.

### 2 Fibre-deep cleanliness without chemicals

Scientific tests confirm: Kärcher steam cleaners remove 99.99 per cent of all household bacteria on hard surfaces, and they do this entirely without chemicals, using only steam.\* The high temperature of the steam and excellent moisture penetration of the cloths reliably eliminate bacteria. For a healthy and child-friendly living space.

### 3 Cleans better than a traditional wiping mop\*\*

The steam cleaners from Kärcher achieve better results when cleaning hard floors than traditional, manual floor cleaning methods such as a wiping mop with detergents. This was tested according to international performance standards.

### 4 Cleanliness throughout the house

Put a stop to tiresome scrubbing and scouring! Kärcher's highly efficient steam cleaners make cleaning effortless and ensure impeccable cleanliness throughout your entire home. The devices are extremely versatile and can replace a variety of conventional cleaning utensils thanks to the wide range of available accessories. Typical areas of use include common hard surfaces throughout the home - in kitchens (e.g. fittings, sinks, exhaust hoods and work surfaces) and bathrooms (e.g. shower cabins, fittings, sinks, tiles and crevices).

### 5 Comfortable work thanks to new accessories

Thanks to the new floor cleaning set EasyFix with hook-and-loop system, the microfibre floor cloth can be fastened to the floor nozzle without having to bend down - simply by pressing it on. After cleaning, the floor cleaning cloth can be removed without any contact with dirt: Simply step on the foot tab and pull the floor nozzle away. The same applies to the carpet glider. The floor cleaning set EasyFix can be easily inserted into and removed from the carpet glider. In this way, carpets can be easily refreshed. The entire range is now also equipped with high-quality microfibre cloths so that cleaning by hand is even easier.

\* When thoroughly cleaning with the Kärcher steam cleaner 99.99 % of all common household bacteria will be killed on common household hard surfaces.

\*\* When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.

## SC 5 EASYFIX - THE STRONGEST

### Outstanding power. Outstanding handling

In combination with the floor nozzle EasyFix, cleaning with the powerful SC 5 EasyFix Steam Cleaner is extremely ergonomic and convenient. The VapoHydro function also offers a high level of cleaning convenience: hot water can be added as required and the dirt that has been loosened by the steam is simply and conveniently washed away. It really is that easy.

DEEP CLEANING

performance

MULTI-  
FUNCTIONALITY

#### 1 VapoHydro function

- Adds hot water to steam. Dirt is removed more easily and simply washed away.
- For even better cleaning results.

#### 2 Floor cleaning set EasyFix with flexible joint on the floor nozzle and convenient hook-and-loop fixing for the floor cleaning cloth

- Optimal cleaning results on all types of hard floors around the home thanks to efficient lamella technology.
- Contactless cloth changing without coming into contact with dirt, and convenient attachment of the floor cleaning cloth thanks to the hook-and-loop system.
- Ergonomic, effective cleaning with full floor contact, regardless of the user's height, thanks to the flexible nozzle joint.

#### 3 Variable steam flow control

- The steam flow can be individually adjusted to the surface and dirt.

#### 4 Continuously refillable, detachable water tank

- For non-stop cleaning and convenient water filling.

\* When thoroughly cleaning with the Kärcher steam cleaner 99.99 % of all common household bacteria will be killed on common household hard surfaces.

\*\* When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.

## SC 1 - THE COMPACT

INDOOR

### Always ready and perfect for occasional use

The Kärcher handheld steam cleaner is extremely compact. As a result, it can be stored practically and exactly where it will be used - for example in small kitchen or bathroom cupboards. This means that the SC 1 is always within easy reach and therefore ideal for spontaneous cleaning. The device is very powerful, despite its compact size, and ensures fibre-deep, hygienic cleanliness.

#### 1 Powerful 3.0 bar steam pressure

- Easily removes all types of dirt - even in hard-to-reach areas.

#### 2 Small, handy and easy to store

- The device can be stored at the location of use for easy access.

#### 3 Floor cleaning set EasyFix with flexible joint on the floor nozzle and convenient hook-and-loop fixing for the floor cleaning cloth

- Optimal cleaning results on all types of hard floors around the home thanks to efficient lamella technology.
- Contactless cloth changing without coming into contact with dirt, and convenient attachment of the floor cleaning cloth thanks to the hook-and-loop system.
- Ergonomic, effective cleaning with full floor contact, regardless of the user's height, thanks to the flexible nozzle joint.

#### 4 Child safety lock on device

- A locking system offers reliable protection against improper use by children.

\* When thoroughly cleaning with the Kärcher steam cleaner 99.99 % of all common household bacteria will be killed on common household hard surfaces.

\*\* When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.

# SI 4 EASYFIX IRON - IDEAL FOR IRONING

## Twice as versatile: ironing and steam cleaning in one

In addition to floor cleaning, Kärcher steam cleaners can also be used for ironing. The SI 4 EasyFix Iron steam ironing system is designed for maximum user convenience. The tried-and-tested universal SC 4 EasyFix Iron steam cleaner, together with the AB 1000 active ironing board, delivers first-class ironing and cleaning results.

### 1 Active steam extraction

- Active steam extraction for improved steam penetration.
- The suction function ensures clothes are cupboard dry and it also fixes them to the ironing board.

### 2 Air cushion function

- Delicate fabrics can also be ironed easily and conveniently on the air cushion, without creasing.
- Gentle on delicate fabrics and irons without leaving marks.

■ Included in the scope of supply. \* When thoroughly cleaning with the Kärcher steam cleaner, 99.99 % of all common household bacteria will be killed on common household hard surfaces. \*\* When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning manually with a mop and detergent. Tested according to international performance standards.

## SV 7 - THE FLEXIBLE

### 3-in-1: Steam cleaning, vacuum cleaning and drying

Kärcher steam vacuum cleaners combine the advantages of steam cleaners with the strengths of dry vacuum cleaners. They can vacuum crumbs from the floor whilst also wetting, wiping and then drying the floor, all in a single, convenient process. These impressive all-round devices and matching accessories are ideal for all cleaning tasks around the home - easily, conveniently, quickly and without chemicals.

#### 1 3-in-1 device

- Steaming, vacuuming and drying in a single procedure.

#### 2 Multi-stage filter system

- Water, coarse dirt, foam and HEPA filters (EN 1822:1998) remove even the smallest particles.

### SV 7

- 2-tank system for continuous use
- Steaming, vacuuming and drying in a single procedure
- Multi-stage filter system

## PART OF THE FAMILY - THE RIGHT ACCESSORY

Whether it's vacuuming or wallpapering - there is always something to do in the home. The comprehensive Kärcher original accessories make Kärcher vacuum cleaners and steam cleaners fit for all kinds of special applications. Thanks to the precisely tailored accessory parts, every tricky cleaning task can be completed in a calm and relaxed manner.

### 1 Perfect cleaning results

Clean floors and surfaces ensure a pleasant atmosphere at home. Even the strongest suction power is more or less ineffective without the right accessories. The Kärcher accessory line guarantees the best cleaning results on any given surface and ensures maximum convenience while working.

### 2 For a brilliant shine

Polished floors give rooms a brilliantly clean appearance. With the FP 303, Kärcher offers a complete solution for the optimal care and maintenance of hard floors: Floor polisher, polishing pads and different care agents – we have the right combination for every type of flooring. The polishing pads for the FP 303 ensure that floors are polished and protected to the highest standard. The polishing pads are made of a high-quality material that is gentle on floor surfaces and leaves them looking like new.

### 3 For optimal dirt removal

With its microfibre wiping cloth, the spray bottle for the Kärcher Window Vac ensures that smooth surfaces are thoroughly cleaned. The microfibre wiping cloth is ideal to remove dirt from all kinds of smooth surfaces, such as windows, mirrors, tiles and so on. Combined with the Kärcher Window Vac and Kärcher window cleaner concentrate, it quickly delivers outstanding cleaning results. Thanks to the microscopically thin microfibres, removing dirt is extremely easy and requires minimum exertion.

### 4 Cleanliness down to the last detail

Whether it is on stainless steel surfaces, mirrors, shower cabins or floors – Kärcher microfibre cloths eliminate stubborn dirt in no time. The special “bathroom” and “kitchen” cloth kits ensure outstanding cleanliness – with no ifs or buts. Together, the high-quality microfibre cloths and Kärcher steam cleaners make an unbeatable team – without detergents. For convenient cleaning that saves you time and energy, Kärcher also offers a wide range of other interesting accessories for its steam cleaners that considerably extend their range of possible uses. For example, the carpet glider, which can be used to refresh carpets. Or various special brush kits made from different materials, which make light work of even the most stubborn dirt.

### 5 Clever combination

Wet wiping without vacuuming beforehand? No problem for the FC 5, which wipes up and simultaneously vacuums damp, dry and loose dirt. As a result, hard floor cleaning is up to 50% faster with the FC 5 than it is by hand.

## VACUUM CLEANERS, VACUUM CLEANER WITH WATER FILTER, ROBOTIC VACUUM CLEANER, FLOOR CLEANER, FLOOR POLISHER

Even the strongest suction power does not help without the right accessories. That is why Kärcher offers an extensive accessory line and special nozzles for all areas of use. Using the right accessories ensures the best cleaning results on diverse materials, with maximum convenience.

		Order no.	Quantity	Price	Description
<b>Nozzles</b>					
Soft dusting brush	1	2.863-241.0	1 piece(s)		Soft dusting brush with extra-soft bristles. For gently removing dust on furniture, lamps and other sensitive surfaces and electronic devices.
Parquet nozzle	2	2.863-242.0 ■	1 piece(s)		Exclusive parquet nozzle for the bagless VC 5 compact vacuum cleaner. With soft bristles made of natural hair for soft, gentle cleaning on delicate hard floors such as parquet and laminate. Suitable for all other hard floors as well.
	3	4.130-172.0	1 piece(s)		Parquet nozzle with natural bristles for gently cleaning parquet floors and other hard surfaces.
Turbo suction nozzle	4	4.130-177.0	1 piece(s)		Air-driven suction nozzle. Ideal for high-pile carpets and for vacuuming pet hair. For particularly intensive and thorough cleaning.
Mattress nozzle	5	6.906-755.0	1 piece(s)		Special mattress nozzle for vacuuming mattresses and hard-to-reach areas in and around beds.
Turbo upholstery nozzle	6	2.903-001.0	1 piece(s)		Practical nozzle with rotating air-driven brush. Cleans upholstered furniture and textile surfaces with particular thoroughness. Ideal for removing pet hair. Working width: 160 mm.
<b>Filters</b>					
Long-life filter	7	2.863-239.0	1 piece(s)		The VC 5 long-life filter reliably filters fine dust. Located in one filter box, it is easy to remove and clean.
HEPA hygiene filter*	8	2.863-240.0	1 piece(s)		The HEPA hygiene filter* (EN 1822:1998) safely and reliably filters the finest dirt, such as pollen and allergy-triggering particles. We recommend exchanging the filter once a year.
Motor protection filter	9	6.414-631.0	1 piece(s)		This washable intermediate filter retains tiny airborne particles such as dust particles and allergens from the condensed humid air.
HEPA 13 filter*	10	2.860-273.0	1 piece(s)		Special high-performance filter which reliably filters 99.99 % of all particles larger than 0.3 µm. With sophisticated seal for protection against pollen, fungal spores, bacteria and dust mite faeces. *(EN 1822:1998)
HEPA hygiene filter	11	2.863-237.0	1 piece(s)		The HEPA 13 high-performance filter (EN1822:1998) can be relied upon to capture pollen, fungal spores, bacteria and dust mite faeces. It filters 99.95% of all particles larger than 0.3 µm. *(EN: 1822: 1998)
	12	2.863-238.0	1 piece(s)		
HEPA 12 filter*	13	6.414-805.0	1 piece(s)		The HEPA 12 high-performance filter reliably retains pollen, fungal spores, bacteria and dust mite faeces. It filters 99.9 % of all particles larger than 0.3 µm. *(EN 1822:1998)

# MAKE YOUR HOME SHINE: KÄRCHER DETERGENTS AND CARE AGENTS FOR INSIDE THE HOME.

For over 30 years, we have placed particular importance on environmental considerations and resource conservation in the development and production of our detergents and care agents, and our choice of the raw materials that go into them. The detergents, which are specifically designed for the devices, not only guarantee optimum cleaning results but also save water, time and energy.

Deep cleaning of textile surfaces.

Kärcher detergents are optimally formulated for use on different floorings.

Streak-free results for window cleaning when used with Kärcher detergents.

INDOOR

Product description	Application / dosing	Packaging size	PU	Order no./ quantity	Price
<b>Detergents and care agents for textile surfaces</b>					
 <p><b>Carpet Cleaner RM 519</b> Liquid detergent with quick dry formula for interim cleaning. Suitable for carpets, rugs, upholstery, car seats, etc.</p>	<p><b>Spray extraction cleaners</b> Depending on the level of dirt, add 100-200 ml of carpet cleaner to the fresh water tank and fill with water (&lt; 50 °C). Then spray and vacuum simultaneously. Do not rinse. Wash with clear, warm water if needed. Spray in for heavy dirt, leave to work for at least 5 minutes and then vacuum off. Vacuum again after cleaning absorbent textiles (wool).</p>	1 l	6	6.295-771.0	
 <p><b>Textile Impregator Care Tex RM 762</b> Highly effective, long-lasting protection for all textile coverings. Carpets, upholstery and car seats are covered with a dirt-repellent protective film which helps to prevent dirt accumulating in future. Therefore, dirt can be vacuumed up more easily and thoroughly.</p>	<p><b>Spray extraction cleaners</b> Clean textile surfaces in advance. Mix 500 ml of carpet impregator with 2 litres of water. Add impregnating solution to the fresh water tank, spray evenly at a distance of 30 cm with the spray extraction nozzle and allow to dry.</p>	500 ml	8	6.295-769.0	
<b>Defoamers for vacuum cleaner with water filter and steam vacuum cleaners</b>					
 <p><b>FoamStop neutral</b> Troublesome foam is quickly broken down with this liquid defoaming agent.</p>	<p><b>Vacuum cleaner with water filter and steam vacuum cleaners</b> Add 1 cap of FoamStop (2 ml) to the water-filled tank of the vacuum cleaner with water filter or of the steam cleaner. For excessive amounts of foam, a further capful can be added.</p>	125 ml	6	6.295-873.0	
 <p><b>FoamStop citrus</b> This liquid defoamer with an allergen-free citrus scent quickly breaks down troublesome foam.</p>	<p><b>Vacuum cleaner with water filter and steam vacuum cleaners</b> Add 1 cap of FoamStop (2 ml) to the water-filled tank of the vacuum cleaner with water filter or of the steam cleaner. For excessive amounts of foam, a further capful can be added.</p>	125 ml	6	6.295-874.0

INDOOR

## ENJOY YOUR GARDEN - WITH A CLEAR CONSCIENCE

A lush green and blooming garden needs a lot of care and water. Kärcher garden products combine innovative advanced technology with sustainability, allowing water consumption to be responsible whilst conserving resources. In practical terms, this means that the necessary water is intelligently controlled, distributed by energy-efficient means and delivered precisely where it is needed.

### Everything your garden needs

Kärcher has been working hard to make the hearts of gardening enthusiasts beat a little faster. Our pumps and watering products, designed to work in perfect unison, allow them to work responsibly with natural resources and offer convenient application solutions. With our Home & Garden pumps, for example, you can use water from alternative sources. Thanks to innovative control technology, only as much water as needed is used. Our robust, flexible and kink-resistant Kärcher quality hoses transport the desired water volume. And the seasonally installed Kärcher Rain System® enables convenient water distribution. At Kärcher, you will find everything your garden needs.

### 1 Pumps for every requirement

Whether you want to supply your home and garden with reclaimed water from alternative sources or remove unwanted water quickly and easily, Kärcher has the right pump for you.

### 2 Self-service for your plants

Whether it is on a daily basis, or when you are on holiday or out and about: You do not have to worry about your garden. Kärcher water timers automatically control your garden watering, either according to your instructions or as required by soil moisture levels.

### 3 A range of treats for the whole garden

Watering with Kärcher means systematic garden care: Our nozzles, spray guns, sprinklers, hoses, water timers and hose plug and storage systems are designed to work together perfectly.

### 4 Targeted water distribution

The easy-to-install Kärcher Rain System® is geared precisely to the needs of your plants. It blends in with hedges, bushes, vegetable patches and flower beds and brings water quickly and conveniently to wherever it is needed. The output volume can thus be adapted according to need.

## WATERING WITH A CLEAR CONSCIENCE

Watering products from Kärcher are designed to work in perfect unison, allow you to work responsibly with natural resources and ensure that precious water is used in the most effective and economical way. Innovative technology and precise sensors guarantee that your plants are provided with the exact amount of water that they require to grow. To allow you to get maximum pleasure from the natural beauty of your garden, Kärcher provides maximum-efficiency nozzles, spray guns, sprinklers, hoses, water timers, hose connection systems and storage systems.

### Table of contents - Watering systems

Nozzles and spray lances	Page 192
Sprinklers	Page 196
Hose connection systems	Page 198
Hoses	Page 201
Hose storage and hose trolleys	Page 204

#### 1 A sprinkling of options

Our varied range of nozzles, complete with turnable handles, easy water flow regulation and comfortable hand grip elements, provides the perfect solution for any requirement. In addition, our Plus and Premium product lines are bound to impress with their innovative membrane technology – without wasting a drop and making garden work even more comfortable and efficient!

#### 2 Hose connectors

Kärcher's robust, unbreakable and durable universal hose connectors are compatible with the three most popular hose diameters and all available hook-and-loop systems. The Aqua Stop function makes decoupling easy and spray-free. Kärcher sprayers, nozzles and spray lances are also compatible with all hook-and-loop systems on the market.

#### 3 For every garden

Large or small, flat or sloping – Kärcher's range of circular sprinklers offers the right solution for every garden. And in order to make setting up and adjustment easier, Kärcher's oscillating sprinklers are even equipped with a splash guard.

#### 4 Everything close at hand

The compact HR 7.300 watering station is a genius at storage, with practical attachment options for nozzles and lances as well as a spacious storage box for gardening gloves and small tools. The hose reel is easy to detach and functions either as a stationary or mobile hose storage device.

#### 5 Hose reel specifically for small areas

The CR 3.110 hose reel is the ideal solution for watering small areas such as balconies, rooftop terraces and small gardens. Thanks to the tap adapter supplied, the hose reel can be attached to both outdoor and indoor taps. It is also perfect as a supply hose for the K 2 Compact.

#### 6 Targeted watering

The new Kärcher Rain System® is very easy to install. Thanks to the adaptability of the system water is always delivered precisely where it is needed, and the output volume can be varied according to requirements and set for an individual location. In short: Maximum flexibility for ultimate watering efficiency.

#### 7 SensoTimer ST 6 ecologic

The ST 6 and ST 6 Duo ecologic water timers offer flexible adjustment options with individual control of the watering tailored to the needs of the garden. The sensor measures the moisture level around the roots of the plants and transmits it by radio to the SensoTimer. When the moisture falls below the desired level, the watering starts automatically at the next designated time.

# NEED-BASED, AUTOMATIC WATERING

Whether it is plants, vegetable patches or the lawn: The Kärcher water timers look after everything – and do the work for you. For example, the SensoTimer automatically waters your garden according to the degree of moisture in the soil. So only when it is really needed. This way you always keep the soil moisture in the green area and save water and time.

**Water Timer WT 5**

- Precise programming on weekday basis
- Start and duration of watering can be programmed to the minute (max. 120 minutes)
- Two watering sessions per day
- Manual watering possible
- Detachable display for convenient programming
- Pause mode: Deactivates watering for 24 hours
- Includes tap adapter and prefilter
- Water stops when the battery has run out

**Water Timer WT 4**

- Easy individual programming
- Max. watering duration 120 minutes
- Manual watering possible
- Detachable display for convenient programming
- Includes tap adapter and prefilter
- Water stops when the battery has run out

**Automatic watering**

# RAIN ON TAP

The new Kärcher Rain System® combines the benefits of micro-dripping and conventional watering. The system operates at pressures of up to 4 bar and includes a 1/2" PVC hose with drip and micro spray nozzles. A pressure reducer and filter for protection against excess pressure and dirt particles can also be installed. The Kärcher Rain System® can be adapted to any garden.

### Drip nozzle

- To be fitted onto the Kärcher Rain System® hose
- Easy installation thanks to nozzle with integrated needle
- Water volumes can be individually adjusted
- Drip volume adjustable from 0 to 10 l/h
- Includes 5 pieces

### Micro spray nozzles

- To be fitted onto the Kärcher Rain System® hose
- Easy installation thanks to nozzle with integrated needle
- Water volume can be adjusted individually on the nozzle head (from 0 to 55 l/h)
- Adjustable nozzles
- Includes 1 × 360°, 2 × 180°, 2 × 90°

### Sealing collar

- To be fitted onto the Kärcher Rain System® hose
- For reclosing the nozzle holes
- Simple to fit thanks to the collar
- With an interior rubber sealing surface
- Includes 5 pieces

### Hose spike

- For fixing Kärcher Rain System® hoses and trickle hoses to the ground
- With marker aids to ensure optimal depth
- Includes 5 pieces

## Kärcher Rain System® Sets - FOR TAILOR-MADE WATERING

The Kärcher Rain System® can be individually adapted to suit your garden and terrace and works perfectly together with the SensoTimer. Ready-to-use sets, which include a practical carrying case, are available for gardens of any size, with any plants. And the pot watering set is perfect for efficient watering of terraces with up to 15 plants.

**Particle filter**

- To protect the Kärcher Rain System® from small dirt particles
- The filter inlay can be removed and cleaned
- Ergonomic design for comfortable handling
- Includes the tap adapter G3/4 and an adapter for Kärcher Rain System® hoses

**Pressure reducer with filter**

- To protect the Kärcher Rain System® from small dirt particles
- The filter inlay can be removed and cleaned
- Reduced input pressure with 4 bar output pressure
- Includes filter
- Includes the tap adapter G3/4 and an adapter for Kärcher Rain System® hoses

**T-connector with water flow regulation**

- For connecting 3 Kärcher Rain System® hoses and the trickle hose
- Side outlet with regulated flow
- Allows you to establish 2 independent hose lines
- Ergonomic design for comfortable handling
- Includes 2 pieces

**I-connector**

- For connecting two Kärcher Rain System® hoses and the trickle hose
- Ergonomic design for comfortable handling
- Includes 2 pieces

**Hose stop**

- For sealing off the Kärcher Rain System® hose
- For sealing off the trickle hose
- Ergonomic design for comfortable handling
- Includes 2 pieces

# NEED-BASED WATERING

With Kärcher, watering your garden becomes a pleasure. The innovative membrane technology of our new high-quality, multi-functional metal spray gun with 4 spraying patterns prevents dripping – both when changing the spraying pattern and after switching off the flow. The practical Kärcher garden shower provides a refreshing and enjoyable shower and is also suitable for watering plants. The ergonomic Kärcher Premium spray lance is the universal all-rounder for a wide range of uses.

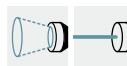

**Multi-functional Premium metal spray gun**

- Drip-proof
- Metal elements for extra robustness and durability
- Rotatable handle for individually adaptable operation
- Soft plastic elements for greater convenience and protection
- Four spraying patterns: Shower, fine mist, aerator jet, horizontal flat jet
- Ergonomic water flow regulation with one hand, from min. to max.
- Trigger can be easily locked in place for convenient, constant watering

**Premium metal spray gun**

- Rotatable handle for individually adaptable operation
- Metal elements for extra robustness and durability
- Soft plastic elements for greater convenience and protection
- Spraying pattern continuously adjustable from point jet to cone jet
- Ergonomic water flow regulation with one hand, from min. to max.
- Trigger can be easily locked in place for convenient, constant watering

**Nozzles and sprinklers**

## A GARDEN FOR THE WHOLE FAMILY TO ENJOY

### For big and small

At the push of a button, the shower height can be conveniently adjusted by hand from 1.5 to 2.2 m.

### Shower and spray lance in one

To water plants, the shower lance can simply be removed from the suspension device.

### Stability

Thanks to a tripod and spike, the shower is always secure on any surface.

### Tidy storage

The shower can be quickly and conveniently disassembled and compactly stored.

**Garden shower**

- With tripod and spike; can be set up in under 3 minutes
- Height adjustable from 1.5 to 2.2 m
- Detachable shower and spray lance (2-in-1)
- Rotatable spray head (180°) with wide shower spray
- Adjust the water flow rate using just one hand and the ON/OFF function
- Convenient and space-saving storage

### Garden showers and spray lances

<b>Order no. (PU)<sup>1)</sup></b>	<b>2.645-181.0 (3 pc)</b>
<b>Price</b>	

<sup>1)</sup> PU = packaging unit.

G1 = 33.3 mm; G3/4 = 26.4 mm; G1/2 = 21.0 mm; Hose inner diameter: 5/16" = 8 mm; 1/2" = 13 mm; 5/8" = 15 mm; 3/4" = 19 mm.

**Convenient water flow regulation**  
The water volume can be regulated with one hand, thanks to the ergonomic handle.

**Rotatable spray head**  
The spray head, which can be rotated 180 degrees, saves users strain while watering.

**Extendable length**  
The telescopic spray lance ensures a convenient reach, particularly for larger beds and hanging plants.

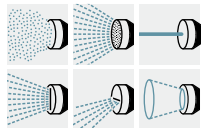

**Wonderfully adaptable**  
When used with the wall bracket, the spray lance can be quickly transformed into a garden shower.

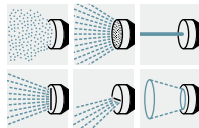

**Premium spray lance**

- Adjust the water flow rate using just one hand and the ON/OFF function
- 6 spraying patterns
- Rotatable spray head (180°)
- Can be conveniently hung up
- Telescopic lance (70 - 105 cm)

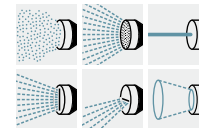

**Spray lance Plus**

- Adjust the water flow rate using just one hand and the ON/OFF function
- 6 spraying patterns
- Rotatable spray head (180°)
- Can be conveniently hung up

# ONE CONNECTOR - THREE DIAMETERS

Regardless of the hose diameter - 1/2", 5/8" or 3/4": Universal, watertight Kärcher hose connectors are always the perfect fit. The connectors also offer outstanding resilience and maximum tensile strength and are available with or without Aqua Stop. In addition, Kärcher's high-quality brass line has been specially developed for demanding gardening tasks. These robust products boast outstanding workmanship and durability. All Kärcher plug systems are of course compatible with standard hook-and-loop systems on the market.

**Premium Universal hose connector**

- Robust aluminium hose fastening
- Soft plastic recessed handles for easy handling
- Universally suitable for all standard garden hoses

**Premium Universal hose connector with Aqua Stop**

- Robust aluminium hose fastening
- Soft plastic recessed handles for easy handling
- Aqua Stop prevents splashing during disconnection
- Universally suitable for all standard garden hoses

**Universal hose connector Plus**

- Soft plastic recessed handles for easy handling
- Universally suitable for all standard garden hoses

**Universal hose connector Plus with Aqua Stop**

- Soft plastic recessed handles for easy handling
- Aqua Stop prevents splashing during disconnection
- Universally suitable for all standard garden hoses

**Universal hose connector**

- Ergonomic design for easy handling
- Universally suitable for all standard garden hoses

G1 = 33.3 mm; G3/4 = 26.4 mm; G1/2 = 21.0 mm; Hose inner diameter: 5/16" = 8 mm; 1/2" = 13 mm; 5/8" = 15 mm; 3/4" = 19 mm.

**Aqua Stop**  
For safe decoupling without splashing.

**Recessed handles**  
Very comfortable soft plastic recessed handles facilitate connection/disconnection of Kärcher premium and plus connectors.

**3-way tap adapter**  
High-quality 3-way tap adapter with 3 independent controllers.

**3-way connector**  
Intelligent 3-way connector for straightforward connection of 3 hoses.

**Tap adapter for round taps**

- Perfect for threadless taps
- Thanks to the reducer, outer diameters of between 15 and 20 mm are covered
- Install without tools by attaching the stainless steel hose clamp
- Compatible with all hook-and-loop systems on the market

**Tap adapter for in-house fittings**

- Allows connection to a garden hose in the house
- Robust attachment with brass internal thread
- Thread protection for easy attachment

**2-way tap adapter**

- 2 independent, controllable water connections
- Ideal for connecting two hoses to a single tap with G3/4 thread
- G3/4 tap adapter with G1/2 reducer

**3-way tap adapter**

- Tap adapter for taps with G1 thread and G3/4 reducer
- Makes it possible to water with up to 3 hoses at the same time
- 3 independent, continuous controllers
- With 3 tap adapters

**2-way connector | 3-way connector**

- 2-way connector for connecting 2 hoses
- 3-way connector for connecting 3 hoses
- Robust design

# STAY FLEXIBLE

Garden hoses that bend prevent water flowing freely through them; they are exasperating to use and they rarely last for very long. Our highly durable PrimoFlex® quality hoses are as flexible as they are kink-resistant, taking on the challenges of tough everyday gardening with optimal functioning, handling and longevity. In addition, many of our hoses are available as handy sets, allowing them to be put to use immediately.

## PrimoFlex® Premium hose

- For the discerning gardener
- Phthalate-free (<0.1%) quality garden hose containing no substances that are harmful to health
- Resistant to high pressure thanks to double reinforcement: Innovative knitted and braided weave with yellow DuPont™ Kevlar®<sup>2)</sup> fibres
- 5 layers
- Weather-resistant anti-UV outer layer
- Opaque middle layer prevents algae formation inside the hose
- Extremely flexible, kink-resistant and resistant to twisting
- Bursting pressure 50 bar<sup>3)</sup>
- High temperature resistance from -20 to +65 °C
- Free from cadmium, barium and lead
- 18-year guarantee

## PrimoFlex® hose Plus

- For experienced gardeners
- Phthalate-free (<0.1%) quality garden hose containing no substances that are harmful to health
- Extremely robust, flexible hose which is resistant to kinks
- Innovative braided weave with yellow DuPont™ Kevlar®<sup>2)</sup> fibres
- 3 layers
- Weather-resistant anti-UV outer layer
- Opaque inner layer prevents algae formation inside the hose
- Bursting pressure 45 bar<sup>3)</sup>
- High temperature resistance from -20 to +65 °C
- Free from cadmium, barium and lead
- 15-year guarantee

G1 = 33.3 mm; G3/4 = 26.4 mm; G1/2 = 21.0 mm; Hose inner diameter: 5/16" = 8 mm; 1/2" = 13 mm; 5/8" = 15 mm; 3/4" = 19 mm.

**Hose set**

Ideal for those who are new to watering gardens and terraces.

**Hose connection set**

Ideal for garden watering - and for supplying water during high-pressure cleaning.

**Hose set for the water supply**

To be connected to round threadless taps. For convenient water supply.

**Hose hanger**

Practical hose hanger for mounting on walls.

**Hose set with spray gun, 20 m**

- Ideal set for beginners
- Spray gun
- G3/4 tap adapter with G1/2 reducer
- 1/2" PrimoFlex® hose
- Universal hose connector
- Universal hose connector with Aqua Stop

**Hose set with nozzle, 20 m**

- Ideal set for beginners
- Nozzle
- G3/4 tap adapter with G1/2 reducer
- 1/2" PrimoFlex® hose
- Universal hose connector
- Universal hose connector with Aqua Stop

**Hose set with nozzle, 15 m**

- Ideal set for beginners
- Nozzle
- G3/4 tap adapter with G1/2 reducer
- 5/8" PrimoFlex® hose
- Universal hose connector
- Universal hose connector with Aqua Stop

## NEW FREEDOM OF MOVEMENT

Greater mobility, less pulling and tugging: The new hose trolleys from Kärcher make gardening considerably easier. Now that the hose can be moved effortlessly from A to B on the hose trolley, the chore of dragging it through the garden is no longer necessary. Obstacles can be bypassed effortlessly and smoothly. In addition, with Kärcher's many practical storage systems, hoses can be elegantly stored and quickly brought out again when needed. For example, with the Premium CR 7.220 automatic hose reel with smooth automatic hose retraction, integrated angle adjustment and 180° swivel function.

### Metal hose trolley HT 80 M

- Robust and rust-resistant steel frame and drum
- Non-slip, ergonomic handle
- Height-adjustable handle
- Hose guide and freewheeling crank handle
- Angled hose connection
- With 2 universal hose connectors Plus

### Metal hose trolley HT 80 M Kit

- Like HT 80 M hose trolley
- With 20m 1/2" PrimoFlex® Plus hose, spray gun Plus, 4 universal hose connectors Plus and tap adapter G3/4

# PERFECTION IN HOSE STORAGE

### Functional and discreet

No snagging, no unsightliness:  
The wall bracket, with its extra flat design, is very discreet.  
The CR 7.220 Automatic can be safely mounted and removed again.

### Practical swivel stop

The adjustable swivel stop prevents damage to walls and objects.

### Superbly compact

Ideal for balconies: Lightweight and with compact dimensions, the CR 3.110 is very easy to transport.

### Smooth hose reel

The optimal spacing between hose and legs makes for convenient handling and easy winding.

### Premium CR 7.220 automatic hose reel

- With tidy automatic hose retraction
- Smooth hose winding
- Flat, space-saving wall bracket
- Rotatable from 0° to 180°
- Adjustable swivel stop prevents damage to walls and objects next to the hose reel
- Includes 20 plus 2 m high-quality, phthalate-free (< 0.1%) 1/2" hose, nozzle Plus, 1 hose connector, 1 hose connector with Aqua Stop, G3/4 tap adapter and G1/2 reducer
- Convenient accessory storage
- Fully assembled

### HR 4.525 1/2" Wall hose reel Kit

- Practical hose storage for mobile or stationary use
- Smooth hose reel
- With wall bracket, 25 m 1/2" hose, nozzle, 3 hose connectors, 1 hose connector with Aqua Stop, G3/4 tap adapter and G1/2 reducer

### Stationary hose storage

<b>Hose capacities</b>	1/2" (13 mm) = max. 20 m	1/2" (13 mm) = max. 50 m

## THE KÄRCHER PUMP RANGE: THE PERFECT PUMP FOR ANY APPLICATION.

The booster pumps from Kärcher supply enough pressure to pump rain or groundwater from barrels, cisterns and deep wells directly to where it is needed. This allows you to water your garden or supply your toilet or washing machine with service water while being economical and conserving resources. Submersible pumps, by contrast, are for removing water that is unwanted or no longer needed: Emptying a pool for spring cleaning ready for the warm season, or draining a flooded cellar, the powerful and robust pumps help restore dryness quickly and reliably.

### Table of contents - Pumps

Submersible pumps	Page	210
Booster pumps	Page	214
Accessories for pump systems	Page	226

### 1 Submersible pumps in brief:

Our high-quality submersible pumps enable you to pump large volumes of water very quickly. The pumps in the SP Dirt range are particularly suitable for water containing dirt particles – for example in the case of flooding, excavations that have filled up with water, or ponds. The pumps, depending on their performance class, can handle particles of up to 30 millimetres. The flat-suction pumps in the SP Flat range are intended for water with a low dirt level and are suitable for pumping out pools, for washing machine leaks or in drainage shafts, for example.

The key advantage is that flat-suction pumps can pump water down to a depth of just one millimetre and achieve mop-dry results. The new SP 5 Dual combines the features of both product ranges. Not only can it pump out particles up to 20 millimetres in diameter, but it can also be used as a flat-suction pump.

### 2 Booster pumps in brief:

High-performance BP Home pumps with integrated pressure-compensating tanks, allow reliable, fully automated water pumping for domestic use. They provide pressure anywhere you want to use it, such as supplying a washing machine or a bathroom. The home and garden pumps from the BP Home & Garden series are also perfect for indoor applications. In addition, the constant operating pressure ensures reliable garden watering.

If you want a pump solely for watering the garden, the BP Barrel and BP Garden pumps from Kärcher are an ideal place to start. The BP Barrel pump allows you to water your garden directly from your water butt, without needing to carry around heavy watering cans. The high-power BP garden models can also easily accommodate sprinklers. The BP Cistern submersible pressure pump is perfect for cisterns, barrels or wide well shafts and works underwater.

It works under water and automatically switches off as soon as the water level becomes too low. It is mainly used for watering the garden. Pumps in the BP Deep Well model series are also installed directly in water. Their compact dimensions and higher working pressure make these pumps the ideal solution for narrow, deep wells. With an additional pressure switch, the pumps are also suitable for service water supply in the household.

## OUR SUBMERSIBLE PUMPS - IMPRESSIVELY RELIABLE.

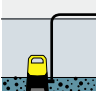

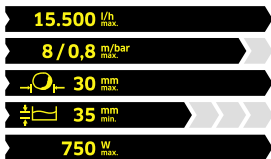

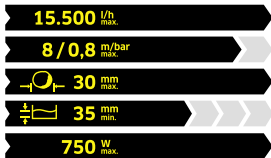

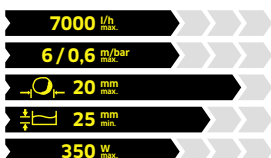

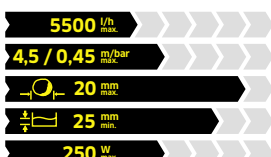

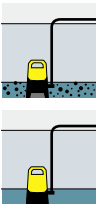

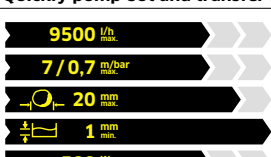

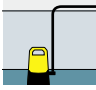

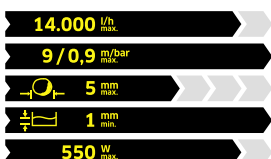

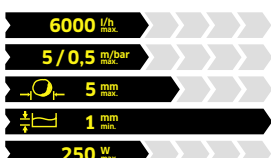

Kärcher submersible pumps are fitted with a ceramic slide ring sealing, a tried-and-tested solution often used in the professional sector. This high-quality sealing makes the pumps more robust, prolongs their service life and means they are perfect for demanding use in the private sector. Our submersible dirty water pumps easily transport contaminated water from A to B. Submersible flat-suction pumps can pump water down to a depth of just one millimetre, providing mop-dry results. And the new submersible flat-suction dirty water pump masters both requirements and is thus equipped for different applications.

# SUBMERSIBLE DIRTY WATER PUMPS – FOR DEMANDING TASKS

Robust through and through and extra long-lasting – these are the qualities our submersible dirty water pumps have to offer. They can handle any task in or around the home, no matter how demanding, and, depending on the performance class, carry water with dirt particles of up to 30 millimetres in size. They start automatically as soon as the level sensor comes into contact with water at a threshold you can set to any value. The SP 7 Dirt Inox and SP 6 Flat Inox models can be operated either in automatic mode or in manual mode via a separate switch on the pump.

### Extremely long-lasting

Protected by an oil chamber, the ceramic slide ring sealing considerably increases the lifetime of the submersible pumps.

### Flexible switching level adjustment

The vertically adjustable float switch offers increased flexibility when changing the switching level.

### Perfect protection

The prefilter, available in integrated form or as an optional accessory, reliably protects the pump against blockage.

### Level Sensor

The switch-on threshold can be changed simply by moving the infinitely variable slider. The level sensor starts the pump when it comes into contact with water.

**SP 7 Dirt Inox**

**SP 7 Dirt**

**SP 5 Dirt**

**SP 3 Dirt | SP 1 Dirt**

■ Included in the scope of supply. \* Please note: The capacity of the pump depends on the delivery height and the connected hoses and watering systems. The lower the delivery height and the larger the diameter of the connected hoses and watering systems, the higher the flow volumes. \*\* By registering at [www.kaercher.com/guarantee](http://www.kaercher.com/guarantee), you can extend your guarantee to 5 years.

# SUBMERSIBLE FLAT-SUCTION PUMPS – FOR MOP-DRY RESULTS WITH CLEAR AND DIRTY WATER

Our submersible flat-suction pumps can transport clear or slightly dirty water with particles of up to 5 mm. Thanks to the folding legs, water can be pumped out right down to a level of 1 mm for mop-dry results. Performing a simple adjustment on the filter basket turns our SP 5 Dual from a dirty water pump to a submersible flat-suction pump in a matter of seconds. This multi-purpose device can be used to pump out both dirty water and clear water.

**Flexible 2-in-1 function**  
Transports dirt particles and can pump water down flat to the last few millimetres if desired – with just a couple of manual adjustments.

**Mop-dry pumping results**  
Once the legs have been folded away, the submersible flat-suction pumps can remove water to a depth of 1 mm for mop-dry results.

**Manual or automatic**  
Automatic or manual mode: It is very simple to switch between operating modes. In manual operation, the pump runs continuously until the minimum quantity of residual water is reached.

**Practical, fast connection**  
Quick and simple hose handling thanks to Quick Connect.

**SP 5 Dual**

**SP 6 Flat Inox**

**SP 2 Flat**

- Extremely durable thanks to the ceramic slide ring sealing

## BOOSTER PUMPS – RELIABLE AND DURABLE.

Any home owner knows that water is becoming more and more expensive. So why not use low-cost water from alternative sources? Booster pumps from Kärcher offer a solution for every application. Wells, groundwater, rainwater and springs can be used perfectly well in the washing machine, to flush the toilet and to water the garden. The result: A reliable processed water supply – and a clear conscience.

### 1 The convenient powerhouse in your garden

Kärcher high-performance garden pumps are absolutely ideal for garden watering using alternative water sources. The practical foot switch provides extra convenience.

### 2 An alternative home water supply

With proven Kärcher quality, our high-performance home pumps water from alternative sources such as wells and cisterns, providing low-cost water for domestic use in washing machines, for toilet flushing and for other applications.

### 3 Perfect for home and garden

Whether watering the garden or supplying water to washing machines or toilets, the intelligent, long-lasting Kärcher home and garden pumps are absolutely ideal for use with alternative water sources. The pumps switch on automatically – and then off again – as required. The multi-stage pumps provide even more power and efficiency and even less operating noise.

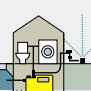

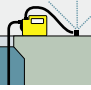

### 4 Utilising and saving resources

The innovative Kärcher barrel pump, with an integrated on/off switch on the barrel mounting clamp, makes it easy, efficient and economical to water your garden with soft and nutrient-rich rain water.

### 5 Ideal for any depth

The compact, versatile stainless-steel submersible pressure pumps from Kärcher are ideal for providing resource-conserving watering from alternative water sources such as cisterns or deep wells. The multi-stage hydraulics ensures that rainwater, well water, groundwater and spring water can be pumped with sufficient pressure, even from low-lying areas.

# THE PERFECT PUMP FOR HOME AND GARDEN

Whether you want to water the garden or supply water for the washing machine or the toilet – Kärcher’s durable, intelligent and high-quality pumps are perfectly suited to using alternative water sources. The pumps switch on automatically – and then off again – as required. The multi-stage pumps provide even more power and efficiency and even less operating noise. At the same flow rate, they require a lower motor rating than conventional jet pumps. This reduces energy consumption by roughly 30 per cent.

**Safe and durable**  
Kärcher Home & Garden pumps come equipped with a prefilter, non-return valve and dry-run protection as standard.

**Ergonomic design**  
The large foot switch enables you to switch the pump on and off comfortably without straining your back.

**Well informed**  
In the event of a breakdown, the error display indicates where exactly the cause of the breakdown lies – on either the suction or pressure side.

**Can be fitted in a variety of ways**  
The devices come with a 2-way connection adapter that can be fitted in a variety of ways, allowing you to align the connected hoses for maximum effect.

**5 YEARS**  
EXTENDED GUARANTEE\*\*\*

# HOME PUMPS – THE ALTERNATIVE WATER SUPPLY

With tried-and-tested Kärcher quality, the powerful BP 5 Home and BP 3 Home supply water fully automatically from alternative sources such as wells or cisterns and make low-cost reclaimed water available for washing machines, toilet flushing, etc. Extremely practical: The BP Home models switch on and off automatically as required.

**Efficient and convenient**  
Thanks to the ample pressure compensation container, our BP Home pumps are quiet and energy-saving, even when the flow rate is low.

**Full control**  
The integrated manometer allows constant control of the pump's pressure status. In this way, nothing is left to chance.

**Safety guaranteed**  
The integrated thermal protection ensures safety in emergencies: The pump automatically shuts off as soon as it runs dry.

**Good stability**  
The pump base, which can be fixed to the floor with screws, ensures that the pump stands securely at all times.

**BP 5 Home**

- Perfect for alternative service water supply in the household
- Maximum safety thanks to the integrated thermal protection
- Pressure compensation container for convenient use
- Includes non-return valve and G1 connection adapter

# KÄRCHER GARDEN PUMPS - POWERFUL PACKAGES THAT ARE EASY TO OPERATE

The powerful Kärcher pumps are ideal for garden watering using alternative water sources such as cisterns or water butts. The practical foot switch provides extra convenience. The thermal protection on the garden pump BP 4 Garden protects against overheating while increasing the safety and lifetime of the pump.

**Our five-year guarantee**  
Simply register your device at [www.kaercher.com/guarantee](http://www.kaercher.com/guarantee) and we will guarantee your garden pump for five years.

**Perfectly protected**  
The built-in thermal protection protects the pump from overheating.

**No need to bend over**  
Thanks to the large foot switch, the pump can be switched on and off comfortably, in a way that is gentle on your back.

**Ready to use**  
The BP 4 Garden Set comes complete with ready-to-connect, vacuum-resistant spiral hose with suction filter and non-return valve.

**BP 4 Garden Set**

**BP 3 Garden Set Plus**

**BP 3 Garden**

- All garden pumps can be connected without tools thanks to the optimised connection adapters
- Long lifetime
- Maximum safety thanks to the integrated thermal protection, for a long lifetime
- Direct application thanks to the supplied 3/4" spiral hose (3.5 m), including filter and non-return valve
- Direct application thanks to the supplied 3/4" spiral hose, including filter and non-return valve, 20 m 1/2" Primoflex® hose, nozzle Plus, connectors and tap adapter

# BARREL PUMP – UTILISING AND SAVING RESOURCES

The innovative Kärcher barrel pump with an integrated on/off switch on the barrel mounting clamp makes it easy, efficient and economical to water your garden with soft and nutrient-rich rain water. The advantages are clear: No more lifting heavy watering cans. No more consumption of valuable drinking water. No unnecessarily high water bills.

### Easy and light

The perfect replacement for a watering can: Using a barrel pump for pumping rain water is easy on your back and saves valuable drinking water.

### Perfect fit

The practical water barrel mounting clamp guarantees perfect hold thanks to the very high fitting accuracy.

### Practical and secure

The integrated on/off switch on the barrel mounting clamp allows quick switching on and off on the spot, thus saving energy.

### Innovative and convenient

Kärcher barrel pumps are equipped with a convenient carrying handle, a hose with adjustable length and a prefilter.

**BP 1 Barrel**

- Barrel mounting clamp
- Includes prefilter
- Integrated on/off switch in the float switch

**BP 1 Barrel Set**

- Ideal set for beginners
- BP 1 Barrel with accessories: Spray gun, 15 m 1/2" PrimoFlex® hose, Universal hose connector, Universal hose connector with Aqua Stop

# SUBMERSIBLE PRESSURE PUMPS – DEEPLY IMPRESSIVE

Thanks to Kärcher's compact and versatile stainless-steel submersible pressure pumps, you can use alternative water sources such as cisterns or deep wells for resource-conserving watering. The multi-stage hydraulics ensures that rainwater, well water, groundwater and spring water can be pumped with sufficient pressure, even from low-lying areas.

### Safe and robust

Housing and threaded connectors made from stainless steel ensure that Kärcher submersible pressure pumps are impact-resistant and durable.

### Optimal protection

The spacer foot on the BP Deep Well protects the pump against contamination during installation and protects the prefilter throughout the entire lifetime of the pump.

### Easy to use

The Deep Well Box provides over-current protection and is equipped with an on/off switch that is easy and safe to operate.

### 30 m maximum depth range

Thanks to its extra long cable (30 m), the BP 6 Deep Well can pump water from even the lowest depths. Fastening rope included.

**BP 6 Deep Well**

- Stainless steel pump housing and threaded connectors
- 3/4" and 1" hose connection piece including non-return valve and hose clamp
- Integrated spacer foot assists during installation
- Separate on/off switch at the end of the cord
- Includes 30 m power cable and fastening rope

**BP 4 Deep Well**

- Stainless steel pump housing and threaded connectors
- 3/4" and 1" hose connection piece including non-return valve and hose clamp
- Integrated spacer foot assists during installation
- Separate on/off switch at the end of the cord
- Includes 15 m power cable and fastening rope

**BP 2 Cistern**

- Pump housing, threaded connector and comfortable carrying handle made from stainless steel
- 3/4" and 1" hose connection piece including non-return valve and hose clamp
- Float switch with adjustable switching level

## APPROPRIATE PUMP ACCESSORIES

With the appropriate Kärcher accessories, the pumps can be put into operation quickly and easily. Vacuum-proof spiral hoses, suction kits, prefilters, connectors, dry-run protection and electronic pressure switches – our comprehensive range of accessories will ensure that any job, in home or garden, can be tackled in the best possible way. Water from alternative sources can then be utilised efficiently and applied in a customised manner to make best use of resources.

### Robust and safe

The vacuum-resistant spiral hose to connect to Kärcher pumps can be obtained as a set or cut to length for individual adaptation.

### Perfectly equipped

The correct accessories, from the dry-run protection to the pressure compensation hose, will ensure convenient and safe operation.

### Optimal protection

Filters protect the pumps from dirt and blockages whilst ensuring unhindered performance. Kärcher provides the right filter for every application.

### Easy connection

By using Kärcher adapters and connections, you can join hoses and pumps together safely and without problems.

# KÄRCHER PUMPS CAN BE CONNECTED ANYWHERE

Whether it is on the suction or pressure side, with the right combination of high-quality accessories from Kärcher, the pumps can be put to use quickly, easily and safely. The radial sealing principle of the BP accessories means they can be put together exceptionally easily and they offer highly reliable sealing in order to ensure flawless operation. Our accessories table on the next page provides useful information about the individual accessory parts.

## Simpler, better, tighter

Sealing around the outer radius reduces the effort needed for assembly while improving the sealing power compared with other types of connector.

# ACCESSORIES FOR PUMP SYSTEMS

## Systematically efficient

By combining the individual high-quality accessories from Kärcher, pumps can be put into operation quickly and easily. Vacuum-resistant spiral hoses, suction kits, prefilters, adapters, dry-run protection, electronic pressure switches and so on can be combined with each other and configured to ensure resource-conserving operation. The individual watering areas can then be designed according to their needs and water from alternative sources can be utilised in the most efficient way possible.

		Order no.	Sizes	Diameter	Price
<b>Vacuum-resistant spiral hoses</b>					
	1 Suction kit, 3.5 m PerfectConnect	1	2.997-110.0 Length: 3.5 m	3/4"

Vacuum-resistant spiral hose with suction filter and non-return valve ready for immediate connection. Can also be used as an extension piece for the suction hose. For pumps with G1 (33.3 mm) connection thread.	1	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>											
Vacuum-resistant spiral hose with suction filter and non-return valve ready for immediate connection. Can also be used as an extension piece for the suction hose. For pumps with G1 (33.3 mm) connection thread.	2	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>											
Vacuum-proof connection from the pump to the well or pipelines on the suction side. You must comply with any local water regulations when connecting the pump. Double-sided G1 (33.3 mm) connection thread.	3	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>														
For connection to the suction hose (available by the metre). The non-return valve prevents the pumped water from flowing back and therefore shortens the re-suction time. Includes hose clamp.	4	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>											
For connection to the suction hose (available by the metre). The non-return valve prevents the pumped water from flowing back and therefore shortens the re-suction time. Includes hose clamp.	5	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>											
Robust metal/plastic model. For connection to the suction hose (available by the metre). The non-return valve prevents the pumped water from flowing back and therefore shortens the re-suction time. Includes hose clamp.	6	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>											
Pump prefilter suitable for all standard pumps without an integrated filter. Provides protection for the pump against coarse dirt particles or sand. The fine filter can be washed. For pumps with G1 (33.3 mm) connection thread.	7		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>											
Pump prefilter suitable for all standard pumps without an integrated filter. Provides protection for the pump against coarse dirt particles or sand. The fine filter can be washed. For pumps with G1 (33.3 mm) connection thread.	8	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>															
The robust prefilter is easy to fit and protects your submersible pump, thereby increasing its operational reliability.	9													<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>	
For vacuum-proof connection of the hoses to the pump. Includes hose clamp, flat seal and non-return valve (do not use with BP Home & Garden). For pumps with G1 (33.3 mm) connection thread and 3/4" and 1" hoses.	10									<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>				<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Vacuum-proof connection of the hoses to the Home, Garden and Home & Garden pump. Includes hose clamp. For pumps with G1 (33.3 mm) connection thread and 3/4" and 1" hoses.	11	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>											
For connecting pumps with internal threads to water connections.	12	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>								
For connecting pumps with internal threads to water connections. Flexible: Can be used with 1 or 2 active outlets. The outlets can be used on both sides or alternatively one outlet can face upwards.	13	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>								
For connecting Kärcher pumps with an internal thread to water connections and particularly for accessories made by other manufacturers/Kärcher accessories made before 2018.	14	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>								
Vacuum-proof connection for connecting the pump to pipelines on the suction side. You must comply with any local water regulations when connecting the pump. G1 (33.3 mm) external thread, compatible with 1" PE pipe diameters.	15	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>														
Vacuum-proof connection for connecting the pump to pipelines on the suction side. You must comply with any local water regulations when connecting the pump. G1 (33.3 mm) external thread, compatible with 1 1/4" PE pipe diameters.	16	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>														
For connecting 1/2" (12.7 mm) water hoses to pumps with G1 (33.3 mm) connection thread.	17	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>	<input type="checkbox"/>										
For connecting 3/4" (19 mm) water hoses to pumps with G1 (33.3 mm) connection thread. For increased water flow.	18	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>								
If water is not running through the pump, the dry-run protection protects the pump against damage and switches it off automatically. With G1 (33.3 mm) connection thread.	19				<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>								
Ideal for converting a garden pump into an electronic booster pump. The pumps switch on and off automatically based on the amount of water required. If water is not running through the pump, the dry-run protection protects the pump against damage and switches it off automatically. With G1 (33.3 mm) connection thread.	20							<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>								
1.5 m hose set for flexible connection between the pump and rigid pipeline systems. The connection hose results in fewer vibrations. In turn, this leads to a significant sound reduction. G1 (33.3 mm) connection threads at both ends. Length: 1.5m. Diameter: 1/2".	21	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>														
Flexible fabric hose with stainless steel hose clamp (30-40 mm) with wing bolt for tool-free connection. Highly recommended for submersible pumps used for the removal of large volumes of water. Maximum operating pressure: 5 bar.	22													<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## **AS ADVANCED AS OUR DEVICES: THE SPARE PARTS CATALOGUE DISISplus.**

Kärcher does not only offer the largest range of spare parts on the market, but also an extremely helpful ordering programme: The digital spare parts catalogue DISISplus. With the latest version of DISISplus, spare parts and accessories for all Kärcher cleaning appliances can now be found and ordered even faster. The software can be used either as an online catalogue or as a local version.

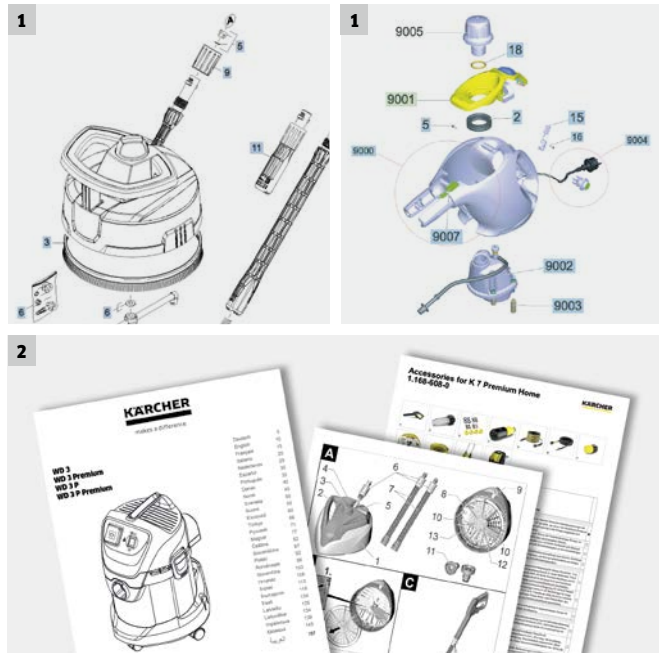

### One catalogue per product range

The user-friendly software for spare parts: In DISISplus, every individual product range from Kärcher has its own catalogue. This makes finding and ordering with the software even more transparent and easier to use.

### 1 Graphic representation of spare parts

Spare parts which have been selected are highlighted both in the parts list and in the graphics. The required spare parts can then be ordered with just a few clicks via the Shopping Basket function.

### 2 Fast access to important documents

Documents such as operating instructions for all devices and modules are clearly listed in the latest DISISplus and can be selected separately. With the appropriate authorisation, users also have access to useful service documents.

## ◀ OUR PICTOGRAMS

**Full Control Plus range**  
These devices are part of our new Kärcher Full Control Plus pressure washer range.

**Ultra-powerful**  
The WD 6 range is ultra-powerful<sup>1)</sup> thanks to energy-saving Kärcher power technology.

**Small yet astonishing**  
Excellent ability to pick up dirt from hard surfaces and carpets.

**Three times faster**  
With the Window Vacs, window cleaning is 3x faster than the traditional method.

**Full Control range**  
These devices are part of our new Kärcher Full Control pressure washer range.

**Extremely powerful**  
The WD 5 range is extremely powerful<sup>2)</sup> thanks to energy-saving Kärcher power technology.

**Without filter bag**  
Emptying out the dirt is quick and easy, and there is no need to buy expensive filter bags.

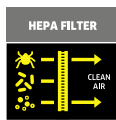

**Streak-free**  
The high-quality blade, together with the suction function, ensures streak-free, brilliantly clean windows.

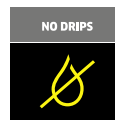

**36 V li-ion system**  
Devices with li-ion exchangeable battery from the 36 V Kärcher battery platform.

**Super-powerful**  
The WD 3-4 range is super-powerful<sup>3)</sup> thanks to energy-saving Kärcher power technology.

**HEPA filter**  
The filter captures allergenic pollen, fungal spores, bacteria and dust mites.

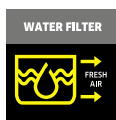

**Drip-free**  
Our WV reliably draws water from the surface without dripping.

**18 V li-ion system**  
Devices with li-ion exchangeable battery from the 18 V Kärcher battery range.

**Powerful**  
The WD 2 range is powerful<sup>4)</sup> thanks to energy-saving Kärcher power technology.

**Water filter**  
The innovative water filter system reliably binds dirt to ensure clean, fresh air.

**Improved cleaning performance**  
The cleaning result with a steam cleaner is more hygienic than with a manual mop.<sup>4)</sup>

**Smart Home**  
This product can be controlled via an app in the home environment.

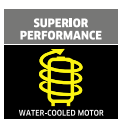

**Electrostatic protection**  
Electrostatic protection in the handle for safe handling.

**Intelligent control system**  
Equipped with intelligent camera-laser navigation system for autonomous cleaning.

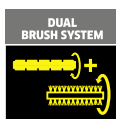

**Multifunctional**  
Our steam cleaners can be used for diverse applications in the household.

**Water-cooled motor**  
Pressure washers with a water-cooled motor.

**Electrostatic protection**  
Electrostatic protection with stainless steel containers for safe handling.

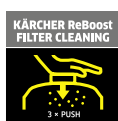

**Dual brush system**  
Special brush system for thorough dirt pick-up.

**Aqua Stop**  
The Aqua Stop function enables hoses to be disconnected without splashing.

**Silent Edition**  
50% quieter than other devices in the same performance class.

**Kärcher ReBoost filter cleaning**  
The suction power can immediately be increased again at the push of a button.

**50% time savings<sup>2)</sup>**  
No need to wipe before vacuuming, cutting cleaning time by up to 50%.

**Save water**  
Products water efficiently and precisely where needed.

**PremiumFlex hose with anti-twist system**  
No hose kinking or twisting.

**Efficient with powerful suction**  
Long-lasting and high suction power, yet low energy consumption.

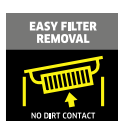

**Fibre-deep cleanliness without chemicals**  
With steam cleaners, 99.99% of bacteria is removed.<sup>1)</sup>

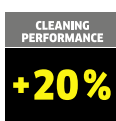

**Metal**  
Robust metal elements for a longer service life.

**With the 3-in-1 formula**  
Maximum cleaning power, gentle care and reliable protection in one detergent.

**Easy filter removal**  
The filter system can be removed in a single move - without contact with dirt.

**20% better cleaning performance<sup>3)</sup>**  
Rollers with a self-cleaning function ensure a hygienic cleaning result.

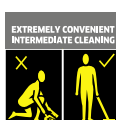

**Phthalate-free**  
No harmful plasticizers or heavy metals.

**Detergent concentrate Plus**  
Dilute concentrate before use with 1:9 parts water.

**Maximum freedom of movement**  
No annoying cables, no hoses and no device to pull along.

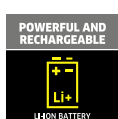

**Intermediate cleaning**  
Ready for use at all times - perfect for intermediate cleaning.

**Automatic watering**  
Starts automatically when plants need watering.

**Vario Power spray lance**  
Variable adjustment from high to low pressure.

**Li-ion battery**  
Long-lasting lithium-ion battery.

**Kärcher Adaptive Cleaning System**  
Optimum dirt pick-up by the battery-powered brush.

**Thermal protection**  
The built-in thermal protection protects the pump from overheating.

**Dirt blaster**  
Rotating point jet for extremely powerful cleaning.

**Compact**  
Can be stored in the smallest of spaces.

**The original**  
As the inventor of the Window Vac, we have revolutionised and perfected window cleaning.

**Dry-run protection**  
The integrated dry-run protection protects the pump and switches it off automatically.

<sup>1)</sup> Thorough cleaning with the Kärcher steam cleaner removes 99.99% of all common household bacteria from common household hard surfaces.

<sup>2)</sup> The combination of vacuuming and wiping into one single step when cleaning the floor saves up to 50% time.

<sup>3)</sup> The FC 5 compared with a conventional mop with a wiping cloth cover in the test category "Wiping". Refers to average test results for cleaning efficiency, dirt pick-up and edge cleaning.

<sup>4)</sup> When thoroughly cleaning with the Kärcher steam cleaner, the cleaning performance is better than cleaning with a manual mop and detergent. Tested according to international performance standards.

<sup>5)</sup> Measured at the suction tubes according to the IEC 60312 standard.
